PROSPECTING for oil in East Farmington is still being prosecuted with vigor and determination. The presence of quicksand tenders it necessary to tube the entire well, rock-boring and all. The quicksand runs in from crevices in the rock. Owing to this unforeseen difficulty the work has not made such rapid progress as otherwise it would have done.

THE Falt Brook Coal Company's improvements at this place, the work required in their Machine Shop, and the renewal of work at the Corning Foundry, have made an unusual demand for labor, and there has never been such a demand for dwelling houses as there is this spring .- Corning Journal.

OUR readers must not conclude that we are about to publish a daily paper, from the business-like aspect or our first page this week. This appearance will disappear with this number, and next week the paper will put on its usual staid and sober face. Such an affluence of business energy cannot be reasonably expected to recur twice in an ordinary lifetime. But it is a luxury to the printer.

The Atlantic Monthly for May is an admirable number. It has all the solidity and literary excellence of the best British serials without their heaviness, or Sanford N. Borden, dreary essays upon exhausted themes. Purely American in its treatment of correct events, and employing the best thinkers in America, it deserves the patronage of every American. Robinson keeps it.

The Continental for Itay is well up to the average of its issues. The "Marchant's Story," by the nuther of "Among the Pines," continues to increase in interest and intensity as the story progresses; and it contains a valuable political article on "The Value John H. Wheeler, of The Union."

Applegate & Co., of Cincinnati, publish a neat vol-Applegate & Co., of Cincinnati, publish a neat volume of 200 pages, entitled "Songo, or the Northern N. H. Wilcox, Sugar Plant," of which we have a copy. The au- Austin H. Butler, ther, Mr. Hedges, is the American pioneer in the cul- Jno. E. Pond, the Tioga county farmer who has produced the greatest quantity of Sorgo Molasses or sugar during the last two years.

WE call attention to an appeal to the patriotic people here and hereabout, in another column. We are confident that the app at will not be in vain; for the object is as high and table as devotion to a sacred cause can make it. It is noblest and most pressing of all public charities at the present time; one which pleads silently but convincingly at every patriotic hears. May the response be as generous as the sac-Ely Russell. rifice of the noble fellows who have gone out to fight for our common freedom.

THE "WAR PRESS."-To those who want a city weekly newspaper, devoted heart and mind to the country, and well up in war news, we can most cheerfully recommend Ferney WAR PRESS. It is, beyoud question the ablest paper published in Pennsylvania. The club at this Postoffice is about expiring, A Kephart and this is the time to renew. Mr. Richard English is now making up the new club, and subscriptions will likewise be received and credited at this office. The terms are the same as for the New York weekly papers. All of Col. Forney's "Occasional Letters," and the fullest State news, appear in the WAR PRESS.

5-20 U. S. LOAR .- F. B. SHITH, ESO., of Tioga, informs us that he is the authorized agent to receive subscriptions for the Fire Twenty United States Six per cent. Loan; and that he can furnish the Bonds

in amounts to suit the means of applicants.
We offer a few words in explanation, not having had space in which to publish the circular sent us by Jay Cooke & Co., a week of more ago. In brief, then, these Bonds take their name from the fact that the Government may redeem them in gold in 1867, or defer their redemption until 1882. The rate of interest is six per cent., payable semi-annually, on the 1st days of May and November, in gold. At the present premium on gold this raises the rate to 9 per cent., currency. Legal-te der notes, or cheeks that will draw them from the cityl banks, will purchase these Bonds at par. There are no taxes on them, unless the income from them exceed \$600; and when it exceeds that sum the tax is but half that on mortgages, or other securities. The Supreme Court has decided that no State, city, or county can lay a tax on these bonds. As all import duties are payable in gold, and as the Government is repaiving more than \$200,000 per day from that source alone, there is no danger

but that the interest will always be paid as stipulated. And now a few words more: There is no better investment for surplus funds. The Government must be sustained, and every friend of the country is in duty and in hener bound to contribute to its susten-ance as he may be able. We know that many prefer real estate investments and where a man invests in lands for the purpose of improvement, he does lend aid to the Government, by developing the resources of the country. But to invest purely for speculative gain, is not giving the Sovernment aid. It is not an unselfish spirit that sales such capitalists. It is not unnecessary to say that these words of advice are disinterested. They are precapted by a desire to do all that lies in our power to make the Governmental arm that lies in our power to make the Governmental arm so mighty that it shall be able to wipe out every traitor in the land.

THE undersigned takes this method of informing the inhabitants of Steuben and Tiogacounties and vicinity, that he has rented for a term of years, with the intention of purchasing the well known Woolen Factory at South Addison, (known as the Wombough Factory) where he will manufacture Wool by the yard, or on shares into Stocking-Yarn, Flannels, Cassimeres, Doe-Skins, and Full Cloths of all kinds. The Machinery is undergoing a thorough and complete repair, and new Machinery is being added to the Mill, which will enablate to turn off a style of work far squerior to anything of the kind ever done a good assortment of Goods, adapted to the SPRING TRADE,

consisting in part of a good line of Domestic Goods, Alpacas, Mohair, Poplin, DeLaines, and a general variety of Dress Goods, including a good supply of MOURNING GOODS, work far superior to anything of the kind ever dene in this section of the country. Also particular atten-tion will be paid to Boll Carding and Cloth Dressing; which particular attention is paid.

tion will be paid to Boil Carding and Cloth Dressing; which will be done in the neatest possible manner. The Boil Machine is also being fitted entirely new, and can be depended upon doing work satisfactorily. The subscriber would here say, that he has been engaged in the business of manufacturing Wool for Farmers for the past fifteen years in the east, and is thoroughly acquainted with the business; that all who want work of this kind may rely with confidence on its being done to their entire satisfaction.
