WELLABORO. The anniversity of Independent assed off very quietly in this village. At sunrise the pational salute was fired, the hells rung, and the Brass Band made the hills echo hack the inspiriting strains of "The Star Spangled Banner," "Yankee Doodle," "Hail Columbia;" &c. No preparation had been made here to celebrate the Fourth, nevertheless at nine o'clock the Wellsboro Cadets, and the "Wellsboro Very Light Infantry"-the latter a uniformed company of boys, ranging from four to twelve years of age-paraded with martial music. In due time, Ragine Company, No. 1, and the C. A. Wells' Hose Company, turned out for parade. In accordance with the recommendation of the Rt.

Rev. Bishop Potter, religions services were held in the Episcopal Church. Here all the companies above named repaired in procession, and listened to an excellent sermon by the rector, the Rev. Mr. Marple, sppropriate to the day, and to the times.

In the evening a balloon was sent up in front of Mr. O. Builard's store, which to the great disappointment of the lookers-on, canght fire when about one hundred feet up. . Torpedos, Roman candles, a few rockets_and e linguor dealers, the aristocracy, and a portion of the inevitable five crackers, constituted the pyrotecha roughs who have been in the habit of sucking the nics of the evening. A few men were seen staggering around, who knew no better way to exhibit their patri otism, and their beastliness, both at the same time. than to get drunk. If there is one day in the year more than any other, except the Sabbath, which ought to be sacred to sobriety, decency and order, that day is the fourth of July. It is the Nation's Sabbath.

> Knoxville .--- As there was a larger crowd than had ever been assembled together on any former occasion our correspondent at that place, sends us the following account of it:

"There was considerable disappointment felt at the por arrival of an artilary company with their cannon, which had promised to be here, but the boys improvised a substitute which had about the detonating power of a six pounder, and answered the purpose very well. The procession formed in front of the Eagle Hotel, headed by the Westfield Brass Band, and Chatham Martial Band, and proceeded to the Matison Orchard where the stage and seats enough for about six hun-dred of the audience had been constructed.

The marked feature of the procession was two companies, one of ladies, and the other of young girls,

dressed in white and tastefully decorated. On the stage, all performed their dulies so well, that they each deserve great credit, and C. O. Bowman, Esq., in his oration so far exceeded himself, as to perfectly atton-ish, delight and enchain the audience through a long and brilliant address. He was followed by B. B. Strang, Esq., who won himself honors in an off hand oration, after which all repaird to the hotels and did ample justice to the epicurian feast which was bountired the Editor of the Sentinel to a dog owned at a fully spread bofore them, until satisfy reigned su-

Plowman, Esq., was President of the dayhand everybody seem to have enjoyed themselves, and the occasion, remarkably well. BLOSSBURG -- Our correspondent at Blossburg informs us that the citizens of that place as well as of Fall Brook and Morris Hun; joined together and assembled at this bonie of Col. Yonkin of the former place, to celebrate the National Birth-Day. At noon. they repaired to an artificial grove, prepared by the Colonel for the occasion, and organized by calling Wita. Butler, Hay, to preside. Mr. David Cameron then read the Declamtion, after which. Hon. S. B. Elliott of Manufield was introduced, and enchained the audiance for an hour with a patriotic, and nationol speech, being frequently interrupted by applause. Following these exercises, was a sumtuods dinner, and music. In the evening, there was a fine display of fire-works, and a ball in the Seymour House, which lasted til morning- Altogether they seem to have had a good

Agencies in all the principal Arises, and Thurse in the United States, The Storer and Baker Sawing Machine Company are not mainafiotaring, and have on achibition of their different salesrooms, machines making the Shuttle or Look Siltch, of the same patterns and all the same prices as their optebrated Grover and Baker Stitch Machines, thus sflording the publi the adjusting of comparing the stiffnes of the two leading machines and exercising their own jadgment as to their respective metrics. This is the only company that manufacture both killed of machines, and therefore the only one that can offer this privilege to the purchaser,

"We speak from experience when we say that, after having tried all the principal Sewing Machines, we must accord to that of Grover and Raker the pre eminence. Those indispen suble features of sewing, strength, uniformity and elasticity. all of which are brought out in this incomparable invention make it the first sewing machine in the country. Other have their good points, but this combines all, and possesse every characteristic necessary to make it most desirable." N. Y. Christian Advocate and Journal

" MEELT VS. PRETENCE .--- We perceive that the Grover and Baker Sewing Machine is every day growing more and more in fator, both for manufacturing and family purpass but especially as adapted to all the requirements of amily use. Other machines, by dint of brazen puffery and consisting with committees at annual fairs, have been thrust his ward into the first place; but they are fast loving this un arited position. The real merits of the Grover and Baker Machine are beginning to be known in a practical way, and daily is the lemand for them increasing, while the demand for heretofor better known, but inferior "machines, is proportionally deng. So it turns out in this, as in many other instance that 'honesty is the best policy,' and the right, in the end comes uppermost.

"A trial of over two years enables us to say with the greatest confidence that there is no better machine for general family use than Grover and Baker's Sawing Machine Co. It makes a beautiful clastic seam that does not rip with wear or washing, runs almost noiselessly, is plain, simple, easy to work, and not liable to get out of repair, fartens the lends of its own thread, and uses threads and silks directly from the spools on which they are bought."-N. T. Leader.

Grover and Daker's Machines' work in their peculiar stitch and fabrics put fogether by it, maywear and drop to pieces from original weakness or hard usage, but come spart or give way at the seanis, they can not; they will hold together when the cloth or calico around them hangs in rags and tatters .- N. Y. Daily News.

"The points we conceive most necessary and important to meet the wide range of requirements in a machine for family sewing, we find more fully combined in the Grover and Ba ker, viz., extent of capacity, simplicity of construction, ease of management, advantage of using thread from two spools without re-winding, strength of work, elasticity, durability and regularity of stitch, and quietness of movement. We therefore mark award to the Grover and Baker."-Report of Tennessee State Fair of 1860-also of St. Lowis State Fair of 1860.

DE STABBING APPRAY. On Friday evening last, by 5th, a young man named Horace Bacon and anernamed Wright Beddington, got into a quarrel a the road leading through that part of the borough novn as Canada, where both parties reside as usigh-ort. Bacon, who is the older of the two, had naught ledington, and was threatening to "" cuff" him, as a und of quarrel existed between the families. Young leddington then drew a knife and stabbed Baron a ittle below the righ lung. Dr. O. W. Gibson dressed he wound, and we believe it is not considered dan tous. Reddington was arrested, and on examinaion before Justice. Emery, was held to hail.

HORSE STEALING .- Dear Agilator. - About ten "clock on the svening of the Fourth, as Mr. Robert Hamphrey of Chatham was returning home, he saw To men riding down from Chatham on horses (bare back) towards the Deerfield Academy Bridge. Thinking them rather suspicious, Mr. H. at once stopped one of them managed to escape, and the other Leander Smith of Clymer-apon being brought elore Esquire John E. White, refused to give any unt of the horse he rode. He was held to bail. The horse which is here at Knoxville, is a smooth lark sorrel, about 13 hands high, no white spot about him, but a dim star in forchead, main and tail yery bin, appears stiffened considerably with travel, or lise hard work last winter. The liorses came down rom Farmington. The bridle here is a mutilated allind bridle, has been used with a harness, the hind hose of the horse were marked by the blacksmith. * Knozville, July 16, 1861.
