Butter at the Old I rice.

Somewhere in Connecticut there is a family by the name of Barstow, who were never noted for cleanliners. On the contrary, the name was proverbial for filthiness. The were farmers, and Mrs. Barstow was engaged in the dairy business. Each week she ported to a village near by, and disposed of her better to Squire Walker, who dealt in country produce and groceries. Ere long she learned that she did not get half as much for her butter as her neighbors were receiving; and this aroused her usually quiet temper, and she determined to demand an explanation of Squire Walker, the next time she went to market. So, the following week, with her regular amount of retter, she presented herself at the grocer's co lifter, and said "Squire Walker, what are You paying for

butter to-day?" He opened her boxes, and af Ba careful survey of the contents, replied, "Twelve and a balf cents."

"Twelve and a half cents," the repeated .-"How is it that you pay Mrs. Ferkins twenty cents a pound, and only allow he ninepence?and this you have done all alo ig."

"Well," said the Squire, ' ploring up and hesitating on each word, "the fact is, Mrs. Barstow, your butter is not as clean as hers; and I find it hard work to get and of it at that price even, when people know who made it." "If that is all that is required," she replied, with a confident air, "I will how them that I

anybody." Mrs. Barstow, all-excited, by ried home, notwithstanding the oppressive feat of the afternoon, and seizing the milk stra ner and wiping

him that I can make as clean ? itter as she." "Du tell! I think I shou of try, mother," replied Betsey Ann, emphatically. Mrs. Barstow commenced as aming her milk and pouring the cream into lest old fashioned churn. It was all in but the fist pan, when, mounted upon a stool, she was reaching after that; but, unfortunately, she ipped, and one of her dirty feet went down if it the churn, un-

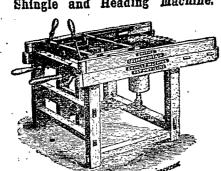

til it brought up at the bottor scattering the cream in every direction. Entricating herself as soon as possible, she cor a senced scraping the cream from her limb and ? browing it back into the churn, and remarke in a slow, deliberate tone, to her daughter, Tho was laughing in a very unbecoming manner at her parent's

mishap,
"Well. Betsoy Ann, I gurl my butter will have to go at the old price or more."

A Noble Little Gial. A a ing other articles lately sent to the Sanitary Commission by the Loval League of Manche for, Connecticut, were six bedquilts, whose higher is thus given by the Hartford Post: "Ti; bed quilts, all gotten up by one little girl. Grace L. Bissel commenced, late in October to go among the little girls and boys soliciting blocks for a soldier's bed-quilt, with the is me of the child contributing each inscribed hereon. On the 17th of November she came our rooms with her first one and presented as her birthday offering to the soldiers (onl; rine years old). Accompanying the quilt well a letter to the soldier who shall receive it, intated by her, in which she requests him to grite to her, not alone that she may know tho is made comfortable thereby, but also this he may "remember him in her little brayer that God would shield him in the hos of battle. And if he had a little girl she would pray for her too, as she had no papa at h ie to care for her

In little more than two neaths she has collected six quilts, which the his ies of the League have quited and forwarded the Commission. She has traveled many miss in leaving pat-terns, collecting blocks, hir igs, &c., besides piccing a number of blocks or each quilt, and yet her patriotic little heart and willing hands and feet tire not, and she is to earnest and enthusiastic in the work as at the sommencement."

SMITH'S IMPROVED GREEN MOUNTAIN Shingle and Heading Machine.

It was Awarded the First Premium Silver Me dal, at the New York State Agricultural Fair, at Utica, in 1863, and at all other Fairs where Exhibited.

THIS important improvement in machines for man "IHIS important improvement in machines for manufacturing shingles and heading, the inventor
has the pleasure of introducing to the public; a machine which has proved itself, beyond a doubt, decidealy the most perfect, the best and cheapest machine,
that has aver yet been introduced. As shingles and
heading are articles of great-demand and of much importance, the aim and object of the inventor has been
to get up a machine that would make them as near to get up a machine that would make them as near perfect to the best shaved, and with the greatest dis patch, possible. With much labor and expense he has succeeded in accomplishing his object; which fact is testified to by those who have the machines in use .testined to by those who have the machines in use.—
The superiority and many important advantages this machine has over others, are: It has no complicated parts liable to derangement; simple in its construction, yet strong and durable; perfectly safe and easy in operating; does the work in a very perfect manner, equally as well on heading of different kinds—culting obliquely or otherwise, as desired. The saw cutting obliquely or otherwise, as desired. The saw running horizontal, cutting lengthwise of the bolt; running horizontal, cutting lengthwise of the bolt; the carriage traveling only in proportion to the width of the shingle or heading, and are made to cut from 10 to 24 inches in length, works up the timber very close; will cut from 1000 to 1000 perhour of shingles, takes up but little room, occupying only about four feet square, not weighing over 285 ibs.; can be driven by any kind of ordinary power; a very compact machine to ship. The cost of the machine is small compared with its value.

The following are a few of the many testimonials which can be produced: Middlebury, Vt., Aug. 25, 1863. Mr. Emerson Smith, Dear Sir:—You wish to know our opinion of your improved shingle and heading machine. We have had one of them in use some time;

have cut about 800,000 from various kinds of timber It has done the work in the most satisfactory manner. Have lost no time nor expense on account of the machine getting out of order. It is a very perfect machine; easy and safe to operate. We have used different kinds of shingle machines. Yours we must say excels all others in every respect. We would not be willing to take four times the cost of the machine, could we not procure another of the same. Yours truly, ABBY & NICHOLS.

CARRISTOLA, N. Y., Dec. 19, 1864. Mr. B. F. Eaton, Dear Sir :- The Green Mountain shingle and heading machine, which we purchased of you, we have the satisfaction of saying we are highly pleased with. It meets the recommendations. We consider it decidedly the best and most valuable machine that we have ever seen or used. We do not hesitate in recommending it to any one. LEWIS, ROSE & CO.

EAST MIDDLERGRY, Vt., Aug. 23, 1863.

Emerson Smith, Dear Sir:—Your patent shingle and heading machine has satisfied me that it is decidedly the best and cheapest machine in use. It is very sim-ply constructed, not liable to derangement, a perfectly safe and easy machine to work. It will cut from 10 to 15,000 per day; the saw running horizontal, cut-ting lengthwise the grain, makes much more per-fect shingles and heading than can be made by any machine that cuts across the grain. Your machine must prove a great success. Yours with respect, CHANDLER TILLOTSON,

Mr. B. F. Eaton, Dear Sir: —We have used Smith's improved machine in different kinds of timber. It does its work well beyond our expectations; it is a very perfect machine in every respect. We think it cannot but take the splace of other machines when introduced.

Yours respectfully,
CHARLES BREWER,
WM. BREWER.

GREENVILLE, N. Y., Sept. 2, 1862. Mr. B. F. Eaton. Sir :-- The Green Mountain shingle and heading machine which I purchased of you, answers the recommend in every respect. I am well pleased with the machine; it does the work well and with great dispatch. It is a valuable and important Yours respectfully, LEWIS SHERRILL. improvement.

NEW HAVEN MILLS, Vt., Sept. 1, 1863.

Emerson Smith, Dear Sir:—Your improved shingle machine, which I have had in use since last spring, works complete. It is the best and most perfect machine in uso. I have cut 1500, and can 2000 per hour. It is a machine that pays well, and must come integeneral uso.

Have You a Friend in the Army?

Fort Alexander, Md., Oct. 12, '62.

Let me assure you that persons having sons having and brothers in the army will do well to send them Cline's Embrecation. It is just the nuclicine now wanted by soldiers for colds, coughs, medicine now wanted by somers for cours, coughs, sprains, rheumatism, and camp ailments produced by exposure. Hoping that Sutlers for the army will take prompt measures to get a supply, I re-

CLINE'S VECETABLE EMBROCATION!

MOSET REFUNDED IF IT FAILS TO GIVE BATISFACTION.

For Diptheria, Colds, Coughs, Sore Throat, or Hoarseness, its equal is not to be found. When taken in time, or immediately after an exposure, the effects are astonishing. Two or three doses will throw off the cold and perform a cure, and prevent the setting in of the fever and cough that usually follow a cold, which always racks the system, often leading to diptheria and consumption. It is highly necessary, therefore, that the remedy be administered in time. One or two doses may prevent these destructive complaints, and save you from an untimely grave.
