THERE is one test in every community fc. the true tasine-s man-one universal rule by which people may know who sells the most goods, why has the freshest stock, and who sells the cheapest. It is be-yond a doubt, the man that advertises. The seeks every means to give his business notoricly. One man who advertises liberally in the papers (evaluation of strate that every dollar he has haid out 12 adverti-sing has brought him three profits. We hive this to be too low an estimate for him and liberal adverto be too low an estimate for him and plotted haver-tisers generally. The man who never idvertises, never does a very large and very rarely a liveral busi-ness. He invariably charges higher for 11s goods than the man who advertises, because he fors fewer "rationer, and charges bigher to the few why do pur-chase. He is too penurious to sell go dita' a mod-rate profit. He knows nothing of the ' mathing size of the "flow shilling" when he gats a case inc, and charges the profit which the advertiser obtainf by the come. Yo man is so well known that he has no need many. No man is so well known that he has no need of advertising.

"THE FERRY BOY AND THE FINANCIER" is the title of a new work announced by Mesers. Walker, Wise, & Co., of Boston, to form one of their popular series including the "Pioneer Boy" and the "Farmer Boy."

It is a narrative of the boy-life of the eminent Sec rctary of the Treasury, Hon. S. P. CHASE, whose prominence among the candidates for the next Presi-dency, as well as his distinguished services in his important Department, renders his biography of in-terest to tens of thousands of renders. We are as-sured that the main facts in the sketch are entirely sured that the main facts in the sketch are entirely authentic. The author is a well known literary man of wide reputation, author of the article, "A First Trip to Washington," in the Atlantic Monthly of April. Among the numberless books now a days rublished for the young, none are at e: ee so fascina-ting and so useful as the class to which the forthcom-ing roloup belong, books which while presenting ing volume belongs; books which, while presenting truthful incidents in the early experience of distin-guished public men, exhibit how, by adherence to certail fixed principles of action, by honest industry, and conscientious discharge of the smallest duties, they have risen, often from the humblest stations, to minence; and from obscurity, have come to posses the respect and admiration of a whole nation. Such books cannot be two widely disseminated. No town or village in the toyal States but can employ the services of one agent, at least, in its circulation. This volume was published about the first of April, and and will sell, we presume, at the price of the others of the series ; viz., \$1.25.

From the Rev. Levi. G. Beck, Pastor of the Baptist Church Pamberton, N.J., formerly of the North Baptist Church Philadelphia. I have known Hoofand's German Bitters favorably for a number of years. I bave used them in my own family, and have been so pleased with their effects that I was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner. I take great pleasure in thus publicly proclaiming this fact, and calling the attention of those addicted with the diseases for which they are recom-mended, to these Bitters, knowing from experience that my recommendation will be sustained. I do this more cheer-fully as Hoofland's Bitters is intended to benefit the afficted, and is "not a rum drink." Yours traly. LEVI G. BECK.

pedia of Religious Knowleidge. Although not disposed to favor or recommend Petent Med-letimes in general, the ugh distrust of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have ro-cefted from any simple préparation, in the hope that he may thus contribute to the benefit of others. I do this the more readily in regard to Hoofier's German Bitters, prepared by Br. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robert Shoemaker, E-9, for the removal of this prejudice by proper tests, and for encour-agement to try them, when suffering from great and long continued debility. The use of three bottles of these Bit-ters, as the beginning of the present year, was followed by evident rejet and restoration to a degree of bodily and had almost despaired of regaining. I therefore, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them. PuitLADELPHIA, JUNE 20, 1861.
