Oh. Iwas a gallant day,
That day of our sun-bright nupfale to With the musket and the swoil of Shriff rang the fifes, the bugges this standard barrens and beautiful thousand bayonets, And the swords were thirty-soyur. Of the thousand stalwart bayonete of the thousand stalwart bayondte.

More hundred march to day;
Hundreds lie in Virginia swampi,
And hundreds in Maryland clay;
And other hundreds, less happy,
Their shattered limbs around,
And envy the deep, long, blessed akep
Of the battle field's holy ground

For the swords—one night, a weakingo,
The remnant, just cleven,
the hered around a banqueting bantil,
With seats for thirty seven;
There were two limped in on cruic his,
And two had each but a hand To pour the wine and raise the cury
As we tonsted "Our flag and has?"

And the room seemed filled with whispers
And, with choking throats, we pushed aside
The rich but untasted meats; -2 Then in silence we brimmed our Basses,
-3 Adding rose up—just eleven—
But mi bowed na we drank to the loven and the dead Who had made us THIRTY-SEVEN

CAMP SMITH, Nashville, Tenn., } -May 4st, 1864.

Editor of the Agitator: - Having a leisure bour to spend this afternoon, I began to cast my thoughts over the hills and valleys of old Tioga; and as my mind commenced to wander over the many faces of old acquaintances at home, it fell to my decision to have a few words to speak to you, through that great invention of man, pen, ink and paper.

Far away from you, I am btil to be found in the victorious armies of the Union; in that regiment that among many others has won for herself the enlogy of her follow citizens, and the confidence of her commanding officers .-Prout in the future time, can he Pennsylvanian be, who, when this war is over, can say, honestly, I was a member of the gallant 7th Penn'a cavalry.

Atto the termination of this war, it is hard for me to predict. Suffice it to say, the end of all wars is peace established on some grounds of other. In our case, it will a the subjugation of one party, or the cola romise of both partife. Time will tell.

When we started in the gran field of fight, it was supposed that in three years it would end: but such has not been the case. The booming of cannon against the walls of Sumter are still roaring, yea, howing through the North, and her hardy sons the by thousands giving ear to the call. But had those who were placed in command of our strifes, carried out their sacred obligations to their country and to the people, I firmly believe it would ere this that closed, peace been estal lished, and our country would go on in her luture progress.tion of the world.

Allow me to say here, the since this wicked of A. J. Smith.

SMITH'S IMPROVED GREEN MOUNTAIN Shingle and Heading Machine.

It was Awarded the First Premium Silver Me dal, at the New York State Agricultural Fair, at Utica, in 1863, and at all other Fairs where Exhibited.

THIS important improvement in machines for man ufacturing shingles and heading, the inventor has the pleasure of introducing to the public; a machine which has proved itself, beyond a doubt, decichine which has proved itself, beyond a doubt, decidedly the most perfect, the best and cheapest machine, that has ever yet been introduced. As shingles and heading are articles of great demand and of much importance, the aim and object of the inventor has been to get up a machine that would make them as near perfect to the best shaved, and with the greatest discovered to the best shaved, and with the greatest discovered to the second to the seco patch, possible. With much labor and expense he has succeeded in accomplishing his object; which fact is testified to by those who have the machines in use.— The superiority and many important advantages this machine has over others, are: It has no complicated parts liable to derangement; simple in its construcion, yet strong and durable; perfectly safe and easy in operating; does the work in a very perfect manner, equally as well on heading of different kinds—cutting obliquely or otherwise, as desired. The saw running horizontal, cutting lengthwise of the bolt; the carriage traveling only in proportion to the width of the shingle or heading, and are made to cut from 10 to 24 inches in length, works up the timber very clase; will cut from 1000 to 1600 per hour of shingles, takes up but little room, occupying only about four feet square, not weighing over 285 lbs.; can be driven by any kind of ordinary power; a very compact machine to ship. The cost of the machine is small compared with its value.

The following are a few of the many testimonials which can be produced: Middlebuny, Vt., Aug. 25, 1863.

Mr. Emerson Smith, Dear Sir:—You wish to know our opinion of your improved shingle and heading machine. We have had one of them in use some time; have cut about \$00,000 from various kinds of timber. It has done the work in the most satisfactory manner. Have lost no time nor expense on account of the un-chine getting out of order. It is a very perfect ma-chine; easy and safe to operate. We have used dif-ferent kinds of shingle machines. Yours we must say excels all others in every respect. We would not be willing to take four times the cost of the machine, could we not progue grapter of the same. could we not procure another of the same. Yours truly, ABBY & NICHOLS.

CARRISTOLA, N. Y., Dec. 19, 1864.
Mr. B. F. Eaton, Dear Sir:—The Green Mountain shingle and heading machine, which we purchased of you, we have the satisfaction of saying we are highly pleased with. It meets the recommendations. We consider it decidedly the best and most valuable machine that we have ever seen or used. We do not hesitate in recommending it to any one.

Respectfully, LEWIS, ROSE & CO.

EAST MIDDLEBURY, Vt., Aug. 23, 1863. Emerson Smith, Dear Sir: -Your patent shingle and eading machine has satisfied me that it is decidedly the best and cheapest machine in use. It is very simply constructed, not liable to derangement, a perfectly safe and easy machine to work. It will cut from 10 to 15,000 per day; the saw running horizontal, cutting lengthwise the grain, makes much more perfect shingles and heading than can be made by any machine that cuts across the grain. Your machine must prove a great success. Yours with respect, CHANDLER TILLOTSON,

GREENVILLE, N. Y., Sept. 1, 1863.

Mr. B. F. Eaton, Dear Sir:—We have used Smith's improved machine in different kinds of timber. It does its work well beyond our expectations; it is a very perfect machine in every respect. We think it cannot but take the place of other machines when introduced.

Yours respectfully,

CHARLES BREWER,

WM. BREWER.

GREENVILLE, N. Y., Sept. 2, 1862.
Mr. B. F. Eaton, Sir: -- The Green Mountain shingle and heading machine which I purchased of you answers the recommend in every-respect. I am well pleased with the machine; it does the work well and with great dispatch. It is a valuable and important improvement. Yours respectfully,

LEWIS SHERRILL.

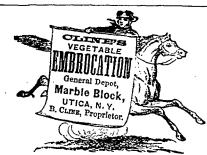

NEW HAVEN MILLS, Vt., Sept. 1, 1863." Emerson Smith, Dear Sir:—Your improved shingle machine, which I have had in use since last spring, works complete. It is the best and most perfect ma-chine in use. I have cut 1500, and can 2000 per hour. this a machine that pays well, and must come into general use.

Yours,

LEWIS RUSSELL.
