We congratulate h Trustees upon their baving secured the servicet an invaluable man. The School cannot fail () prosper chandently under such auspices.

We learn that he has brought with him in large ement of school farmiture and apparatus, and is ongaged at present in improving the buildings and the grounds.

TARE Norice. LIt is the dutgrand for he interest of the people of the several townships and oroughs of this county to heed the recommendation; r thlished last week in regard to reducing the quotes of the distriots. If any man knows of any non-link is persons whose names are on the enrolment lists, such : s cliens, persons pver 45 or under 20, and those onto led last year and now in the service, or dead, or pure anoutly removed. The usual paper for the releast : allons, and persons over or under age when drafts rehould he made out and sent to the Provest Margie who, if the evidence is satisfactory, will strike the at mes off the relis. Every man has an interest in he ing this done; for the quote of every township is he ad upon the number of the supposed ablabodied u.s. therein, and not upon the total population. So, if it nifestly disciles persons, aliens, unsuitable aged or persons who have gone into the service sinco last you is enrolment, appear by name on the rolls, the quen's will be so much larger, and the really ablebodist then will here to guffer unrecessarily. This Ladies of the DesiSeld Aid Society return their warm thanks to Mesers. H. Harvey, C. O. Bowman, and Stephen Wilson for the very eloquent and forcible manner in which they presented to the public on the 4th of July, the greet merits of the U. S. Santiary Commission; the result of which was the nice little sam of \$56 65, at the time. Since they several dollars have been freely given, and the cause has received a new impates which will tell in time to come. Mr. Harvey was the country posted for perto come. Mr. Harrey was thoroughly posted by per-sonal experience in both, the West and East, in the cante, and though his remarks were necessarily brief, on that particular point, they were cheering. Mr. B. Tuesday and Wednesday, Aug. 23 and 26, gave us a synopsis of the whole system, and earnestly urged a liberal contribution. Mr. Wilson drew tears to the eyes of many by relating what he saw at Ponnsylvania State Wormal School, Cettysburg, and I am sure the hearts of those who collected these free gifts of the people were renewedly warmed by the expression of deep and loval feeling that continually greeted them from all, more particularly from those brave soldiers, who happening to be present, could not say enough in favor of this God like work. One pale-faced man remarked: "I have just returned from the Army of the Potomac and go back in a few days, but I will give gladly, for I know what it is for, and the good it will do." Then turning to several others he said: "Now be men and open rour pursay" and they did apprecially too. your nurses." and they did generously too. .

This money is expended in buying material to make into garments for the sick and wounded by the willing fingers of the Ladics' of the Aid Society, and we cordially invite all who can possibly give as an hour or more of work to come forward for there is much to be done. We meet every Thursday after-noon in the chapel of Union Academy. Should any. one inquire why we do not send the money, we will quote what an officer of the Commission says in reply to an inquiry "Should we send it or use it and send the results?" "Tell your Ladies one dollar's worth of supplies are of more value to as than \$6 60 in money."

2-It is believed that no securities offer so great inducements to lenders as the various descriptions of U. CLOAKS, States bonds. In all other forms of indebtedness, the SHAWLS, &c., or separate communities only, is pledged for payment, while for the debts of the United States the whole is now much more complete and attractive than ever property of the country is holden to secure the pay-

benefit of the interest. It may be useful to state in this connection that the populns, Charles, total Funded Debt of the United States of Match, terest is payable in gold, on the 3d day of Match, 1864, was \$768,965,000. The interest on this debt for 1809, Was \$705, 805, 000. The interest of the coming facal year will bo \$45, 937,126, while the DELAINES, &c. anding June 30th, 1864, has been so far at the rate o

over \$100,000,000 per annum. It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000.

Instructions to the National Banks acting as loan agents were not issued from the United States Trenmary until Morch 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK. Subscriptions will be received by all

TATIONAL BANKS which are depositaries of Public money, and all RESPECTABLE BANKS AND BANKERS throughout the country, (acting as egents of the Naplonal Depositary Ranks), will furnish further information on application and AFFORD EVERY FACILITY TO SUBSORIBERS.
