Goods and Prices. Corning, March 30, 1864. United States 10-40 Bonds,

THESE BONDS are issued under the act of Congress of March-8th, 1864, which provides that all bonds issued under this act shall be EXEMPT FROM TAXATION by or under any State or municipal authority. Bubscriptions to these bonds are received in United States notes or notes of National Banks. They SHAWLS, &C., are TO BE REDEEMED IN COIN, et the pleasure of the Government, at any period not less than tennor more than forty years from their date, and until-their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on bonds of not over one hundred dollars annually, and on all other bonds somiannually. The interest is payable on the first days of

March and September in each year. Subscribers will receive either registered or coupon bonds, as they may prefer. Registered bonds are recorded on the books of the United States Tracsurer, and can be transferred only on the omner's order. Coupon bonds are payable to bearer, and are more

convenient for commercial uses, Subscribers to this lear will have the option of haring their bonds draw Interest from Merch Ist, by neving the accrned interest in coin-for in U. States notes, or the notes of National Banks, adding fifty per cent. for premium;) or receive them drawing interest from the date of subscription and deposit. As these bonds are .

Exempt from Municipal or State Taxation. their value is increased from one to three per cent. per annum, according to the rate of tax levies in various parts of the country.

At the present rate of premium on gold they pay OVER EIGHT PER CENT. INTEREST in currency, and are of equal convenience as a permanent or temporary investment,

It is believed that no securities offer so great inducements to lenders as the various descriptions of U. States bonds. In all other forms of indebtedness, the faith or ability of private parties, or stock companies. or separate communities only, is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

"It may be useful to state in this connection that the total Funded Debt of the United States on which interest is parable in gold, on the 3d day of March, 1864, was \$768,765,000. The interest on this debt for the coming fiscal year will bo \$45 937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate o over \$100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000.

Instructions to the National Banks acting as loan agents were not issued from the United States Trensury until March 28, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK: Subscriptions will be received by all

NATIONAL BANKS which are depositaries of Public money, and all

RESPECTABLE BANKS AND BANKERS throughout the country, (acting as agents of the Netional Depositary Ranks), will furnish further infermation on application and AFFORD EVERY FACILITY TO SUBSCRIBERS.

I do this the more readily in regard to Hoofan's Gumman Exters, preparably Dr.C. in Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were obledy an alcoholic mixtupe. I am indebted to my falend Robert Shoemakar, Eag. In the removal of this prejudice by proper tests, and for experi-egement to try them, when safforing from great and long continued debuilty. The use of three bottless of these Ex-ters, at the beginning of the precedit year, was followed by evident resist, and restoration to a degree of bodily and mostal vigor which I had not felt for six mentils before and had almost despatived of regaining. It herefore thank Ged and my friend for directing me to the nee of them.
