fighting the tiger. He tried the tiger and didn't like it, and tho't he'd take a shy at a game famili; to him by name only, called roulette. One to h of roulette had something to do with roll, but entirely ignorant whether the roll, was French or a Dutch one. On the first corner he met abarrel organ

man grinding away for dear life. He was turning as though he till only a few minutes to turn in, and didn't ware to die before his work was complete. The tage was "The

Bold Privateer." Our Georgian friend thought I'd found the game. Stepping briskly up, le pid a dollar bill down on the box. The organization of seves opened; he bagged the bill, and shound away with renewed vigor. Our Georgies thought he had lost, and doubled up, taid dewin two dollar bill. That was bagged, and the farrel of the organ went whirling around as lough therefore were several barrels inside.

To make a long story short, the thing went on, and the Georgian "doubled up;" the organgrinder pocketing the money of the time, untill he had "nary" another dolls left. But he didn't complain. As halaw the last

of his currency bagged by the do wated organgrinder, he simply remarked : "Wall, of all the games I ever be ked against, that is the dogdarnest ! I gdess L. jump it;"

the other day, says a New York prrespondent to buy some corn for her mother's chickens. She had a pail in her hand in which to put the corn, but before she reached the stat where she was accustomed to find it, she ich ne to a cask of honey. This was not to be pa sed by without an effort to obtain some of it. The men at work within the Dock, unobserve; by the child watched her attempts to reach the sweet temptation. Her tile arms were too hort for the enterprise, but, after a moment's Ansideration, she took off her shoe and stocki g; rolled up her drawers and climbing up comething against which the cask stood, let shwa her foot and ankle into the honey; then see drew it up, and with her hand scraped off the honey into her pail. This she repeated to till the pail was full, when she went to the witer side and washed, and replacing her shoe and stocking, started with her spoil for home. A man followed her and heard her tall he mother that she had brought home honey; b f to all questioning as to how she obtained it, he was mute. In a short time she returned to the dock for her chicken food, when, as I unconstand, there was quite an excitement over her and a collection taken up to reward her it tenuity-not, 'tis to be hoped, to encourage he honesty.

BE HONEST IN YOUR DEALINGS |-It a is uni versal form of dishonesty to try to get goods below their value; and wheneve; you do that you undertake to cheat. There is cheating on both sides of the counter and generally less behind it than before it. If you want a man to build you, for \$2,000, a house that shall be worth \$5,000; and what is the result? You teach that man to cheat you. You make him dishonest. You drive him to the necessity of using poor materials and of deceiving you by filling up the holes with putty, and covering defects with paint. # U. S. 7-30 Loan.

THE SECRETARY OF THE TREASURY gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from August 15, 1864, with semi-annual interest at the rate of 7-310ths per cent. per annum,-principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1.000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dol-

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepar-

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit. Parties depositing \$25,000 or upward for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon receipt of bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from deposits.

Special Advantages of this Loan. It is a National Savings Bank, offering a higher rate of interest than any other, and the best security. Any Savings Bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a permanent or temporary investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discounts.

Convertible into a 6 per cent 5-20 Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent, per annum, for the curaent rate for 5-20 Bonds is not less than nine per cent. premium, and before the war the premium on United States stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent per annum. Exempt from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special Act of Congress exempts all Treasury notes and bonds from local taxation. On the average, parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the government, In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States. While the government offers the most liberal terms for its loans, it believes that the very strongest appeal

will be to the loyalty and patriotism of the people. Duplicate certificates will be issued for all deposits. The party depositing must endorse upon the original certificate the denomination of notes required, and whether they are to be issued in blank or payable to order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the Treasury Department.

Subscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the FIRST NATIONAL BANK OF TOWANDA, and by all National Banks which are depositaries of public money, and ALL RESPECTABLE BANKS and BANKERS throughout the country will give further information and afford every facility to subscriberg.

STOMACH, LIVER AND BOWELS; Cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousnass, Depression of Spirits, Constipation, Colic. Intermittent Fevers. Cramps and Spasms, and all Complaints of either Sex arising from Pacilic Workness, whether in

Bodily Weakness, whether in-herent in the system or produced by Special

Norming that is not wholesome, genial and restorative in its mature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no minarsi of any kind, no deadly botanical element; no derive excitant; but it is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

It is well to be forartmed against disease, and, so far as the human system can be protected by human means against maladies engendered by an unwholesome atmosphere, impure water, and other external causes. HOSTETTER'S BITTERS may be relied on as a safeguard.

In districts infested with Fiter and Agus, it has been found infallible as a preventive, and irresistible as a remedy, and thousands who resort to it under apprehension of an attack, escape the scourge; and thousands who reglect to avail themselves of its productive qualities in advance, are cured by a very brief course of this marrelous medicine.—Forer and ague patients, after being plied with quinne for months in vain, until fairly saturated with that dangerous alkaloid, are not unfrequently restored to health within a few days by the use of HOSTETTER'S BITTERS.

The weak stomach is rapidly invigorated and the appetite restored by this agreeabletunic; and hance at works worlders in cases of Erspersia and in less confirmed forms of Indiassimon. Acting as a gentie and painless apperient, as well as upon the liter, it also invariably relieves the Constrict of the digestive and secretive organs.

Persons of feebble habit, Hable to Nerveus Attacks, Low-

well as upon the liver, it also invariably relieves the Covariety Arters appearind need by irregular action of the digastive and secretive organs.

Persons of feeble habit, Reble to Narrous Attacks, Lowness of Spirits and Fits of Languar and prompt and per manent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

The agony of Butters' Cent is immediately estuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be provented.

As a general tonic, HOSTETTER'S BITTERS produce of fects which must be experienced or witnessed before they can be fully appreciated. In cases of Contiliational Take outst, Premature Decay, and Debility and Decreptures aring from old age, it exercises the electric influence.
