U. S. 7-30 Loan.

THE SECRETARY OF THE TREASURY gives notice that subscriptions will be received for Coupon Treasury Notes...

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds...

The notes will be transmitted to the owners free of transportation charges...

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Special Advantages of this Loan.

It is a National Savings Bank, offering a higher rate of interest than any other, and the best security.

It is equally convenient as a permanent or temporary investment.

Convertible into a 5 per cent 5-20 Gold Bond.

In addition to the very liberal interest on the notes for three years...

It is believed that no securities offer so great inducements to lenders as those issued by the government.

But aside from all the advantages here enumerated, a special Act of Congress exempts all Treasury notes and bonds from local taxation.

While the government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of its people.

Duplicate certificates will be issued for all deposits.

Subscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers...
