This circumstance, however, did where a sister of his lived, and he was frequentnot discourage the pursuers, for they had got ly seen in that quarter. station, whence he procured a pair of handcuffs. and where his previous suspicions were changed into certainty by hearing of Peazley's morning encounter with the trooper. He then returned to Mundarlo, and communicated his design to the landlord, and they arranged between them the plan of operation to be pursued. In accordance with this, when supper was placed on the table, Pearley was invited to sit down; he did so, and called for some bottled ale and porter. The landlord came himself to supply these to him, and, as he stood behind Peazley's chair, he suddenly seized both his arms ; others sprang instantly to his assistance, and in a moment Peazley was securely handcuffed. He struggled desperately at first, but they secured his legs with a heavy bullock-chain, put him into a cart, and drove at once into Gundagai, where he was secured in the jail. From thence, he was forwarded to Bathurst for trial, and-though ha made a during attempt to escape from his escort-most probably he had suffered the extreme penalty of the law.

Shortly after Peazley's capture, Gardiner was again heard of; he had pitched on the levels and the Wedding Mountains as his headquarters, and from thence he made excursions to the Lambing flat gold field. Gardiner, like Peazley, never molested the bush or stock men, and for that reason he was able to defy all the efforts which the troopers made to apprehend him. In the beginning of 1862 an innkeeper on Lambing flat boasted that he, by himself. could take Gardiner if he could only meet him. Some days after he had said this, he was out in the bush, when suddenly Gardiner rode up to him; a revolver was pointed at his head, and he was compelled to surrender his arms and his money. Gardiner was about taking his saddle also, but he begged hard to retain it. So Gardiner consented that he should do so on payment of ten pounds; accordingly they rode side by side to a neighboring station, where the innkeeper borrowed that amount and handed it over to Gardiner, who wished him good morning and rode off. About two hours subsequent to this, two of the mounted patrol came up, and on being informed of what had occurred, they, together with the innkeeper, started they saw Gardiner's horse fastened to the two rail fence which enclosed the home paddock. One of the troopers remained to watch this ; the other, in company. with the innkeeper, proceeded in search of the owner. In a short time they perceived Gardiner in the paddock. When he saw them he turned to run, and they ran after him, firing as fast as they could discharge their weapons. When Gardiner found that these were all emptied, he doubled back, and made a sudden rush for his horse. He presented his revolver at the constable who was guarding it, and ordered him to hold up his hands or he would blow his brains out. The trooper, taken by surprise, obeyed, and Gardiner jumped on his horse and rode away laughing. These rough notes may enable some of the good folks at home to perceive that an Australian adventurer, besides enduring the ipevitable hardships of a golddigger's life, is constantly liable to be deprived of his hard won gold by the hand of the Bushrangers.

CONSERVATIVES .- There's a sort of men in the world who can't bear any progress. I wonder they ever walk unless they walk backward. I wonder they don't refuse to go ont when there's a new moon, and all out of respect for that ancient institution, the old moon. But there were always such people and always will worthy to be members of Parliament, stood by their matches and tinder-boxes, and cried "no surrender !" And how many of these old women, disguised in male attire, go every day about at public meetings, professing to be ready to die for any tinder-box question that may come up! Yes, ready to die for it, all the resdier, perhaps, because dying for anything of the sort's gone out of fashion.-Jerrold.

A CONTRABAND, undertaking to find a situation for her daughter in Cincinnati, insisted on said daughter being instructed. On being requested to indicate what kind of accomplishments she was desirous of having her hopeful daughter possess, she said "de gal must be larned the piano and paintin anyhow, and mebbe arter a while readin' and writin'."

A Young damsel in Canada, twelve years of age, became united in wedlock to a youth of fourteen summers, with a salary of four dollars per month. It is to be hoped that they may be happy, but to that end, extravagance must be avoided.

A MAN applied to Dr. Jackson, the celebrated Boston chemist, with a box of specimens. "Can you tell me what this is, sir ?" "Certainly I can, sir; that is iron pyrites."

"What, sir ?" in a voice of thunder. " Iron pyrites."

"Iron pyrites ! and what is that?"

"That's what it is," said the chemist, putting a lot on the shovel over hot coals, where it disappeared. "Dross." .

"And what is iron pyrites worth ?"

"Nothing."

"Nothing! Why, there's a woman who owns a hill full of that in our town, - and I've... married her !"
