The state of the s

have given the subject attentive consideration. Their theory is, that the immerante presence of coal is not necessary to insure- oil, as it results from a decomposition of ve tetable matter, embodied in the bituminous thale rock, or oal formation, and by internal heat, assisted by pressure, the oil is separated and flows, by the laws of gravitation, the st. he as water, through the many channels in the bowels of the earth; forming in many instances, internal pools and lakes resembling the pitched lake of Trinidad, where Petroleum is procured in large quantities, as described in "Lyell's Principles of Geology," and hence secount for gas, which is the volatile part of oil and a sure index of its proximity, being lough in such quantities in this locality, which is goly a few miles from the "Fall Brook" and Blossburg bituminous coal and shale rock mo intains.

In following this same range and shale rock westwardly through the adjoin bg counties of Poter and McKean, are found n any gas springs generally at or near the base of the coal mountains on the streams. Thi layrest yet found in that direction, is on the Sinnamohoning River, in Potter County, where oil and salt wells are about to be sunli.

These recent discoveries in the northen counties of the State, have added untold millions to her wealth. The lands that were considered of small value for agricultural purposes, are now the most in demand, and are selling at most fabulous prices.—Percoleum Recorder.

WIVES ATTEND TO THI .- Never let your husband have cause to cor plain that you are an unhappy marriage has been occasioned by neglect in these particular . Nothing can be more senseless than the clinduct of a young woman, who seeks to be admired in general society for the politeness and engaging manner or skill in music, when, at the same, time she makes no-effort to render, for home attractive; and yet that home, whether amalace or a cottage, is the very centre of her being, the nucleus around which her affet lions should revolve.

Bodily Weakness, whether inherent in the system or produced by Special Causes.

Norming that is not wholesome, genial and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind, no deadly botanical element; no flery excitant; but it is a combination of the extracts of rare belsamic herts and plants, with the purest and mildest of all diffusive stimulants.

It is well to be forearmed against disease, and, so far as the human system can be protected by human means against maladdes engendered by an unwholesome atmosphere, impure water, and other external causes. HOSTETTER'S BITTERS may be relied on as a safegnard.

In districts infested with Ferer and Ague, it has been found infallible as a preventive, and treasitible as a remedy, and thousands who resort to it under apprehension of an artack, escape the scourge; and thousands who neglect to avail themselves of its productive qualities in advance, are cured by a very brief course of this marvelous medicine.

Fever and Ague patients, after being piled with quinine for months in vain until fairly saturated with that dangerous alkaloid, are not unfrequently restored to health which in a few days by the use of HOSTETTER'S BITTERS.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable tonle; and hence it works wonders in cases of DYSPEFEL and in less confirmed forms of Indicators. Acting as a gentle and painless apperient, as well as upon the liver, it also invariably relieves the Constitution superinduced by irregular action of the digestive and secretive organs.

Analysis of the Massachusette State Assayer, Janu try 25. 1858. when evaporated through clean linen it left no oil or offensive matter. In every respect it is a pure spirituous liquor. The Oil which gives to this Brandy its flavor and aroma, is wholly unlike fusil or grain oil. Its odor partakes of both the fruit and oil of capace. With actile it produces athers of a high grapes. With aoids, it produces ethers of a high fragrance. The substitution of this Brandy for Cognae Brandy will do away with the manufacture it fictitious spirits, sold under this name both at home and abroad.
