THE Governor has appointed Hon. F. B. STREETER, of Montrose, President Judge of the Bradford District, in the place of Judge Mercur, resigned. The appointment gives good astisfaction to the people of the District.

UNION SINGING SCHOOL .-- This enterprise under the suspices of Dr. W. W. Webb, Mr. Shakspeare, and others, is a decided success. The class meets on Tuesday and Friday even ings of each week, and numbers already upwards of fifty members. The Association has fitted up the large Hall over this office in good style. We trust that the enterprise may meet with such success as to make it of a permanent character.

THE members of the Towanda Bar gave i complimentary supper to Judge Mercur on the lith ultimo. Gen. Wm. Patton presided. and speeches were made by Messers: Adams, Patton; Wilmot, Payne, and Morrow. The occasion seems to have been one of great enjoyment .--The people of Bradford and Susquehannaymay solace themselves with the reflection that if they have lost an able and upright judge, Congress has gained a member of great ability and integrity. A Congress composed of such men as Judge Mercur would open the millennial gates, and admit a redeemed nation.

AFFOINTMENT .--- We learn that the Legisla ture, at its late session, passed an' act authoriring the appointment of an Associate Law Justice for this Judicial District, and in pursua ance thereof, that Governor CURTIN has, appointed H. W. WILLIAMS, Esq., of this borough to be such Associate Law Judge. This appointment will greatly relieve Judge White, whose health was suffering under the great labor involved in making the circuit of the strenal counties. It will afford him the needed opportunity for rest and recuperation, and thus prolong an honorable and useful career. The appointment could not have fallen, pon

smore worthy gentleman. , Mr. Williame sccupiess first place among the lawyers of Northern Pennsylvania. He is gifted with that slearperception and comprehension which, with in intellect trained to examine into the reason of bings, are of so great importance on the Banch. Et will do honor to the preference, and prove s honor to the Bench.

A SECOND FLOOD .- Scarcely had our people recovered from the surprise of the flood of March 18th, when, on Thursday night of last week, the windows of heaven were re-opened and let pour a most copious rain for ten hours. Our village was fairly afloat by daylight if Iriday-morning. The water was some eight inches higher than on the 18th ult., and the damage proportionably greater. The rain of

arrest 2 land in Susquehanna county and will soon sink a well at Great Bend. The fact that such men as compose this company think it feasible to experiment in Sus quehanna county, ought to be encouraging to those who have taken stock in the Wellsboro Petroleum Company. If there be good reason FALL to experiment in Susquehanns county there is trebly good reason for experimenting in Tioga people, in and around Wellsborough and vicinity, county. We are in the bituminous coal basin KNOW WHERE TO GO TO BUY GOOD GOODS, without doubt, and many miles nearer the developed oil regions. The geological formation BULLARD in Tioga county is the same essentially as that defies competition in style, variety, quantity, quality in Venango, Crawford, and Warren. This, rather than the surface indications, must govern in experimenting for oil. It is almost certain that great mineral wealth must be discovered in the process of piercing the strats .-Already in Susquehanna county, in sinking a well to the depth of 150 feet, two layers of plaster (gypsum) about six feet in thickness, and three thin veins of coal have been found. We think that the fact of large reservoirs of

part of the county cannot be disputed. This, in itself, is inducement enough to prosecute the enterprise vigorously. | The presence of petroleum in paying quantities is still to be proved. But as we have the conditions, so far as informal prospecting can determine, it is but reasonable to suppose that petroleum can be found by boring. By the prospectus in another place it will be seen that the books of subscription will be closed on the first of May next, at latest, and operations commenced. Meanwhile the Company is leasing land in favorable locations.

THE MAGAZINES .-- It would be difficult to provide a richer bill of fare for the cultivated taste than the publishers of the Atlantic have served up in the April number. The opening article-" The Adventures of a Lone Woman" in the Oil Diggings, is as rich and racy as anything we have seen in a long time. The variety is most excellent, and a poem entitled "Hosen Biglow to the Editor," is in Lowell's best vein. Altogether it is a premium number. \$4.00 per year, Ticknor & Fields, Boston, Mass.

The April number of Harper contains 142 fine illustrations on wood, accompanying the usual excellent variety of reading matter. The number opens with a fine illustrated poem entitled "A Dog's Day Ended," brimming with pathos and true poetic fire. The number contains fresh chapters of Armadale," and ." Our Mutual Friend." \$4-per year. Harper & Brothers, New York.

'Among the notable articles in the Pacific Monthly, we make mention of "A Voyage up the Canton River," by the Consul at Macao; "Gold and Silver throughout the World;" "Part of the Unwritten History of Creation," by Prof. Mapes; "Domestic Letters from the Pacific Coast," by Dr. Bellows; "Sonora; Its resources," by R. M. Evans; "My first Visit to Congress ;" " Cattle Hunting on Hawall," and several short articles on mining, giving a vast deal of information to the world. The April number is most beautifully printed and may be called a premium number. \$5 per year. D. M. Gazlay & Co., New York.

The April No. of *Godey* presents new and varied attractions for the ladies, to whose infer-terests it is most faithfully devoted. The put tern department is not stinted in the least, and the letter-press is excellent. The Ladies Friend, by Deacon & Peterson Philadelphia, continues to hold its high position Struma, King's Evil, Glandular Swellings, Erysipelas Ul. ceration, Salt Rheum. among the cheaper Magazines of its class. Its engravings are always good, and its reading matter superior. \$2.00 per year.

CONSTITUTION LIFE SYRUP HAS PRODUCED A REV OLUTION IN MEDICIN

OLUTION IN MEDIONE, What may seem almost incredible, is that many diseases hitherto eousidered hopelessly incurable, are frequently cured in a few days or weeks; and we cheerfully invite the investigations or the neural minded and setematic ro cures which have no parallel at the present day. During the last five years we have contended with obsta-cles, an i overcome oposition, as herculean as were over encountered by any reformers. CONSTITUTION LIFE SYRUP ..

the bridge at the upper, end of town was com pleted, and one bridge on Water street was carried away. The rush of flood-trash and timber ame near knocking the timbers from beneatil Holiday's barn. Several wagons were carried sway and deposited on the flats near the Cemetery.

The Pearl Street creek was again on the rampreand poured its swollen waters through Wiln nto Main Street, as before. The damage to Main Street is considerable, and the revelation If the old plank road does not improve the ap Marance or usefulness of the rondway. The Edewalks on the east side of Main Street below Weln are pretty nearly used up.

The damage to private property is not less than before. Mr. W. H. Smith loses consideraity by the undermining of his barn and we hits of his lot. At the lower end of town he hus of Mr. A. Foley, and Mr. M. Blatty r. the sustained heavy damage. The former (is to the worst condition, the creek having 144. its old channel and swept scross the lot dia jotelly, carrying away the soil. There was an almost universal inundation of the cellage all cter town,

The rise was less on Pine Creek than on its tributaries; so we all take courage to believe that the losses of our lumbermen have not been repeated. The lumber was mostly rafted in, we learn, and with plenty of stout rope and trure men, it is probable that few rafts were twept from their moorings.

Since the foregoing was written we learn that the flood was heavier on the western tribut tries of Pine Creck than on the eastern. This feet gives rise to the probability that the rive in. the West Branch must have been as great, if hot greater, than that of the 18th of March.

The damage to the lumber interest is, happih, not great. The mill seat of Mr. A. P. ConG in Gaines, sustained some damage, the wing dam having gone out. The farm and mill seat d Mr. John Dickinson, below this village, also tustained new damages, the creek cutting a dannel through the meadow below the will.-Altogether the present has been a disa trous tesson in the matter of high water.

GOLD AT 150 MEANS CHEAP GOODS .--- I am selling all goods at their present value, regardless of cost, and intend to follow the market down to the bottom. I have now on hand and am receiving almost daily, Great Bargains in Dry Goods, Boots & Shoes: Cotton Goods, such as Prints, Sheetings, Shirtings, Ticks, Denims, &c., have declined tremendously-from 50 to 100 per cent. Dress goods, such as Delaines, Mo-hairs, Plaids, &c., nearly as much. Woolen Goods, such as Flannels, Pant stuffs, Cloths, &c., 25 to 50 per cent. Such reductions make all goods cheap, and buyers will do well to take hold.

St. Antaony's Fire, Rose, Salt Enteum, Scald Head, Sore Eyes.
 From Harrey Suckler, Esq., the able editor of the Tunk-hannock Democrat, Pennsylvania.
 "Our only child, about three years of age, was at-tacked by pimples on his forchead. They rapidly spread until they formed a loathsome and virtuent sore, which covered his face, and actually blinded his eyes for some days. A skilfal physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we cuarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARAPARTLA, and applying the iodide of potash lotion, as you direct. The sore began to heal whom we had given the first bottle, and was well when we had inished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die." Syphilis and Morcurial Disease.

Syphilis and Mercurial Disease.

Syphilis and Morcurial Disease. From Dr. Hiram Sleat, of St. Lotis, Missouri. "I find your SARSAP.RILLA a more effectual remedy for the secondary symptoms of Syphilis and for syphilito disease than any other we possess. The profession are in-debted to you for some of the best medicines we have." From A. J. French, M. D., an eminent physician of Law-rence, Mass., who is a prominent member of the Legis-lature of Massachusetts. "Dr. AyER. My dear Sir: I have found your SARSA-PARILLA en excellent remedy for Syphilis, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of sac-cess, where a powerful alterative is required." Mr. Chas. S. Fan Liene, of New Brunstick. N. J., had

ecss, where a powerful alterative is required." Mr. Chas. S. Pan Liew, of New Branswick, N. J., had dreadful ulcers on his legs, Gaused by the abuse of mercury, or mercurial disease, which grew more and more aggra-vated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSALARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Loucorrhoes, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some carses require, however, n aid of the SARSAPARILLA, the skilful application of local rem-

edies. From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati. "I have found your SARAPARILLA an excellent altera-tive in discases of formales. Many cases of Irregularity, Leucorrheea, Internal Ulceration, and local debility, aris-ing from the serofulous diathesus, have yielded to it, and there are few that do not, when its effect is properly alded by local treatment."
