J. B. NILES, Esq., Dist. Atty., has opened a law Office one door east of Bigoney's Hotel. We wish him a full measure of success.

The widow of the late Dr. O. L. Gibson, died Saturday evening at her residence in this town, after a long and painful illness in the 64th year of her age.

The UNION SINGING SCHOOL is prospering finely under the auspices of its projectors and conductor. The class now numbers seventy, and meets Tuesday and Friday evenings each week. Geo. P. CARD, Esq., is the President of the Association.

Mr. S. W. TRULL writes us from Harrisburg that Lewis Elliott, late of Co. I, 45th P. V., died at the Post Hospital, Camp Curtis, May 3, and was buried in the City Cemetery near this city. John Miller is much improved and will receive his discharge in a few days.

SOLDIERS' AID SOCIETY.—We invite all friends of the Aid Society to meet with us next Saturday afternoon. There has lately been a call from the Sanitary Commission for wrappers. Material has been purchased, and all that is now wanting is plenty of help to make them.

THE BOYS ARE COMING HOME! Yes, if the Washington march of the 6th and 9th army Corps means anything, it means discharge and return home. Never was the return of men so ardently longed for, never have men received such a welcome as our returning heroes will receive. They have endured untold hardships—the fatigue of the forced march, the rigors of the winter bivouac, the imminent perils of the charge and of the assault—but they have been making history, and have made it well; and their welcome will repay them for all they have endured and dared.

OBITUARY.—At McDougall General Hospital, Fort Schuyler, near New York City, April 22, 1865, DANIEL WATTS, in the 43d year of his age.

He was a private in Co. C, 141st N. Y. M. I., and was with Gen. Sherman in his march from Atlanta to Savannah, and thence to Branchville, Fayetteville, Goldsboro' and Newbern. From the latter place he was, with other sick and wounded, transferred to Fort Schuyler, where he died. His remains were exhumed, brought home to Tioga, and re-interred in the Tioga Evergreen Cemetery. Cpm. [Ely next week. Ed.]

OBITUARY.—In the charge upon Fort Mifflin, before Petersburg, on the 2d of April last, JOHN P. BLANCHARD, Co. G, 207th V. Y., aged 20 years and 9 months. John P. Blanchard was the only son of Mr. Abner Blanchard, of Knoxville, in this county. He enlisted last September in Co. G, 207th P. V. A letter from Sergt. Vandusen, of the same company, speaks of the dead as of one who "was as true and brave a soldier as ever took the field in defence of his country."

There can be no higher praise. Beloved at home and a general favorite in his Company, his is but one more name inscribed, upon the roll of honor, in characters which the lapse of time cannot dim. The "speck of war" at Morris Run and Fall Brook has vanished. The Morris Run operatives are removed to Bloesburg, and the Fall Brookers are to retire beyond the premises of the Company. It is rumored that the miners have determined to resist the employment of other operatives by the Companies, but as workingmen are, in general, endowed with a large share of practical sense, we do not credit the rumor. Such a course could only prejudice their cause in the eyes of the public, and result in serious disaster to their interests.

P. S. We regret to say that news received after the above was in type, leads us to believe that the miners at Fall Brook are resorting to violence to maintain themselves in their quarrel with the Company. We forbear giving currency to the painful rumors which reach us. Rebellion against law and order is not a good thing, whether it be aimed at a government or a Company, and must be put down.

SOMETHING VERY MUCH NEEDED.—One of the first things noticed by the stranger who is abroad in our streets during the evening, is the illumination of the shops and stores: In most villages the shops and stores are practically closed at 8 o'clock. Experience has proved that the custom received after that hour does not cover the expense of lights. It is therefore for the interest of merchants and shopkeepers to adopt the custom of closing at 8 o'clock, as is done elsewhere. But there is another reason why the custom should prevail here and elsewhere: The merchant and his clerks need more hours for recreation. Now, the clerks are on duty from 6 A. M. to 9 P. M.—eleven hours. If they recreate at all, therefore, they must do so at unreasonable hours. Whatever our merchants may think of this before trial, we are sure that if they will adopt it for three months they will never go back to the old custom elsewhere abandoned custom.

\* \* \* The public are requested to take notice that the Cheap Cash Store will close out Saturday evening. Everybody who wishes to profit by the great Bargains offered will do well to call immediately.

Counterfeit Postal Currency.

EDITOR OF THE AGITATOR: Some scoundrel has within the past two weeks been very busy in "showing" a new counterfeit 50 cent postal currency into circulation in our borough, with such success that nearly half the currency of that denomination now in circulation is counterfeit. I have written out for you some points of difference by which any body can tell the genuine from the counterfeit.

- 1. On the genuine the words "ACT APPROVED MARCH 3, 1863," shaded letters are much darker in the counterfeit.
2. The pupil of the right eye of Washington in the counterfeit is so much larger than that of the left as to be observable at a glance.
3. In the genuine the words "FURNISHED ONLY by the Assistant Treasurers and designated depositaries of the United States; observe that in the counterfeit the words "of the" run together while in the genuine there is a space between them.
4. In the genuine the engraving of the ground in the foreground is what is known as "stipple," while on the left of the counterfeit it is "lines."
5. In the genuine the houses of the city in the distance on the left, and the hills on the right are clear and distinct; on the counterfeit both are indistinct and have a blurred appearance.
6. In the genuine the heavy black lines forming the border have at each end a small white round mark with a black dot in the centre of each; on the counterfeit these are imperfect and indistinct.
7. In the counterfeit, inside of the O in the 50 on each side of the head of Washington there is a white line clear and distinct next to the shading. In the genuine there is no line. These counterfeits are doubtless the best ever issued, and have deceived some of our best business men. The public ought to look out for the man or men who are in this nefarious business and bring them to prompt punishment. Yours, X. Y. Z.

THE MAGAZINES.—The May numbers of the magazines are mostly received.

The Atlantic, like its namesake, always presents something new, varied, and interesting. The number before us impresses us as being a first rate number. It contains two fine poems—"Gold Eggs," a Dream Fantasy, and "Grave by the Lake." There is a fine story—"Out of the Sea," additional, "Chimney Corner," and Needle & Garden papers, a few additional chapters of "Dr. Johns," a Connecticut Story of the old time, and a solid essay entitled "Diplomacy of the Revolution."

"Ticknoe & Field, Boston, Mass." 1 copy \$4; 2 copies \$7; 5 copies, \$16; per annum. Harper is most splendidly illustrated this month. "Washoe Revisited" is intensely interesting. There is an illustrated biography of Dr. Lyman Beecher which repays reading, with use. "Over the meadow," St. Leon's Heir," with fresh chapters of "Armada," and "Our Mutual Friend," and several good poems, are enough to sustain the high reputation of this indispensable serial. Harper & Brothers, New York. \$4 per annum. 6 copies for \$20.

The Pacific comes full freighted and rich, and has established its claim to rank with first-class serials. See advertisement on fourth page.

FOR THE LADIES.—The Ladies' Friend improves with every succeeding number, and at its price—\$2.50—gives considerably more than a quid pro quo. The plate in the May No.—"The Cup of Cold Water,"—is most excellent. Deacon & Peterson, Philad'a.

"Our Young Folks" is positively the most enchanting publication for youth, and those who never intend to grow old, ever issued. It reviews the "Arabian Nights," "Robinson Crusoe," and all the story-books. One story—"Winning His way"—is worth double the subscription price. 3 copies \$5; 5 copies \$8; 10 copies \$15. Every family ought to have it. Any of the above Magazines can be ordered through Mr. Young at the Bookstore.

President Johnson has issued a proclamation opening the States of North Carolina, South Carolina, and Georgia to trade.

The peculiar taint or infection which we call SCROFULA, lurks in the constitution of multitudes of men. It either produces or is produced by an enfeebled or vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial discharges, low living, disordered digestion from unhealthful food, impure air, filth and filthy habits, the depressing vicissitudes of the weather, or by the general infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children unto the third and fourth generation; indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The disease originates various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous disorders leave you. With Febrile, or scorbutic, you cannot have health; with that "Life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptious that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL, The World's Great Remedy for Coughs, Colds, Whooping Cough, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it ever has ever done.
