THE lovers of fine portraits should not fail to imtrove the opportunity now presented by Mr. Young, it the Bookstore, to procure most excellent likeness n of the late President Lincoln, Generals Grant. BEERRAN, and SHERIDAN. The engraving is in the highest style of art, and the fidelity to the originals most remarkable. That of Lincoln is, beyond a question, the most life-like portrait ever taken from mengraved plate. Young puts them up in neat oval fames, at reasonable rates.

The Monument Question,

EDITOR AGITATOR-Dear Sir: I am pleased to observe that you have "broken ground" for the festions from another part of the county may not be brelome. I approve of your suggestion that there should be one County Monument, for various, resould be one County Monument, for various, rentora. The uniting of our means and efforts will tepr-,
unly be the only way to ensure a result worthy of
the occasion, and of which our posterity shall not be
thatmed. There are perhaps, four townships is the
courty which could or would raise a thousand do lars
ach for the purpose—of the remainder, some are too
poor, others too indifferent to the subject. Would it,
be right that the "there have" who went from these be right that the "brave boys" who went from these tones, and who are perhaps resting in unknywn fares, or their bones bleaching in the "Wilderness," should have no record?

should have no record? Every name of every dead soldier should have Place on this Memorial Column, whether his friends are able to contribute towards it or not—and for that teaton I do not so well like the plan of "L. W. G." the last Agitator, which seems also open to other objections. Three hundred dollars would not build a soument such as could and should be built.

Ten or twelve thousand dollars could be raised in the Country by delications and placing the

the County, by dollar subscriptions, and placing the sum so low, would popularize the enterprize so that zet, women and children could all contribute.

The actual cost might be reduced by making the test of the Monument of some of our nutive store. The location of the Court House, for instance. The location of the memorial must be an open question to be decided by the votes of the contributor; each dollar entitling to one vote.

Some of the River villages, as I understant, are proposing to fernish a site for the monument. Troga County, by dollar subscriptions, and placing the

Poposing to fernish a site for the monument, Tioga and Mansfeld in particular, and as their claims may to be ignored, the only way to an amicable adjustant of the control heti of the question would be probably by a vote.

Allowing this question to be left open it would seem that open to the nuderta. and our people might be led to units in the underta-ing. Still there may need to be some canvessing of the county to the some canvessing of before all will be able to see the subject in te same light sufficiently to ensure unity of action.
To build township monuments would seem to indi-

cate a spirit akin to the State pride; which has cost our soldiers their lives, and well-nigh destroyed the nation. The monument, if built, will be for posterity. The present generation will not forget the dead soldiers Therefore, whilst it might be most flattering to our anour propre, to have in each township a pocket monument, all our own, let us look forward and consider what will be most creditable fifteen years hence. If we build at all, let our work be somewhat in keeping with the "grange and solemn time" in which

keeping with the "grant and solemn time" in which we are living. If we cannot agree to do this, let us leave it for those who come after. A VOICE FROM THE RIVER.

June 14, 1865-3t.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as

7-30 LOAN. These notes are issued under the date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent. GOLD-BEARING BONDS

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, from State, County, and Municipal taxation, which adds from one to three per cent. per annum to their value, according to the rate levied upon other property. The interest is payable semi-annually by covpons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7-30 per cent. amounts to One cent per day on a \$50 note.
Two cents " " \$100 "
Ten " " \$500 "
20 " " " \$1000 " \$1 " " " \$5000 Notes of all the denominations named will be

promptly furnished upon receipt of subscriptions. The Notes of this Third Sesies are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold at 6 per cent, instead of 7 3-10ths in currency. Subscribers will deduct the interest in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three tenths

per cent. in currency. This is THE ONLY LOAN IN MARKET Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People. Less than \$230,000,000 of the Loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed, will all be subscribed for within two months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section o the country may be afforded facilities for taking the loan, the National Bauks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence and who only are to be responsible for the delivery of the notes for which they receive orders.

Subscription Agent, Philadelphia. SUBSCRIPTIONS WILL BE RECEIVED by the FIRST NATIONAL BANK-of Wellsboro, and TIOGA CO. BANK.

ULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled. vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous capital action, and leaves the sysand decay. The scrofulous contamination is variously caused by mercurial dis-

ease, low living, disordered digestion from un-healthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the vene-real infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which sup-purate and become ulcerous sores; in the stomach and bowels, derangements which produce indi-gestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures. it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten. and does greatly shorten, the average duration of human life. The vast importance of these con-siderations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Arga's SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsa-parilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.
