We are greatly obliged to our friend, Mr. J. Dockstader, of Charleston, for a pack of magnificent new potatoes. They are big ones, and as delicious as big. We saw some more of the same sort at Jones's.

We rejoice to announce that the entire 7-30 Government loan is taken. It is a great financial triumph. Local capitalists can now make no investment so good as the loan asked by our Commissioner.

By one of those vexatious slips of memory which occur six times in a short lifetime, especially in a printing office, we neglected to put in the list of officers to be elected the coming Fall that of District Attorney. We remedy the defect this week.

Foley has just got in a nice lot of Gutter Percha jewelry, such as Chains, Rings, Brooches, etc. They are neat, durable, and cheap; and Foley's prices are always fixed and adhered to without reference to competition.

Wellboro streets are in pretty good order, but the sidewalks are nothing to brag of. A little improvement in that direction would prepare us for the inevitable rush when we strike oil.

Mr. Roy is about to make a fine improvement on Wain street.

CARELESS DRIVING.—A little daughter of Doctor Webb was run over and considerably bruised Thursday last week, on the crossing by Austin Tavern. The young man driving the horse was looking at everything but his business. Careless driving is too common in our streets and should be dealt with.

The Williamsport Bulletin proposes to establish a Daily issue on the 1st of September. The paper will be \$7 per year in advance. We give the entire rising proprietors a hearty Good Speed, and trust they may avoid the lions which commonly confront the paying progress of an inland Daily.

For the information of our friends in general, and the teacher editor of the "Champion" in particular, we would state that the new comer at "our table" is a boy—Archives Free Press.

We congratulate you, Root, and branch. Kansas must be a good place to raise boys. Wellboro isn't.

FIRE.—The building containing the machinery and Leaches of Wells & Johnston's Tannery at Tiooga, was destroyed by fire Monday morning, 17th ult. It was thought that the fire took from the friction of the screw turning the bark in the Loft. Loss heavy. Partially insured. The building is to be replaced immediately by a larger and more commodious one.

We are requested to give notice that a discourse upon the condition of the Freedmen, their "make-up" on the Church, and the duty of the North's people as respects them, will be delivered at 8 P. M. at the Church in this village, next Sunday, at 8 P. M. great importance, and we bespeak for it a large share of public consideration.

"THE YANKEE BOYS" gave a Musical Entertainment at the Court House on Monday evening, to a first-rate audience. The performance was fully up to the contract, and we hear some most favorable opinions expressed. Mr. Bliss is an extremely fine bass. The performance was artistic—very good so that of some troupe more pretensions in number and notoriety. They repeated the entertainment, on Tuesday evening. Come again, Yankee Boys, ever welcome.

If we mistake not, horses are not legally entitled to roam at will through these streets. Nevertheless, we observe them grazing on the Public Square, and stabling themselves on the sidewalks. We submit to the taste and judgment of the owners, if it is just right for them to force horseless citizens to step to a horse stable before they can get off their "semines." Complaint of this nuisance is so common that we direct the attention of the authorities to it.

So far the weather has been quite unpropitious for haymaking. Never was there a heavier drop of rain offered to the sower, and seldom such catching weather to secure it. Our county fairly groans with its burden of grass, grain, and root crops. But for the increased number of mowing machines, much of the grass would suffer before it could be secured. But our farmers have very liberally availed themselves of the advantages of agricultural machinery, thanks to which forthright we may count upon securing the abundance which this most remarkable season is preparing for the garner.

The August number of Harper's Magazine, tho' it reached us rather later in the month than usual, is a most fascinating number. The opening "The War in the West" is a fine thing. Then there is a fine illustrated article "A Trip to Bodie's Bluff," and a chapter of Recollections of Sheridan, and High Miller and Geology, and Four Years under Fire at Charleston, "Julian," a dramatic story, and another quite as dramatic "Accounts Balanced." It may be ordered of Harper and Brothers, New York, or of High Young, at the Post Office. By mail 1 per annum, and worth \$2.

Only.—The Wellboro Petroleum Company have commenced grading the ground for a derrick and engine house on lands leased the Company by Mr. Jacob Hall, about two miles north of the village, on the Tioga road. The preparatory work is proceeding rapidly, and the pipe-driving will soon commence. The operations at the well on Canoe Camp Creek were lately interrupted by a break in the dipping pipe at the depth of 75 feet. The derrick has been moved about 20 inches, and new pipe is being driven by the side of the old one.

The "Lucky Well" is having a splendid show of salt water, yielding 25 per cent of beautiful salt by rough experiment. It would pay to stop right there and tube.

Terrible Gale.—We have some particulars of a destructive gale which passed over the village of Nelson, on the Cowsenque river, in this county, last Friday night. The hurricane came down the river, destroying nearly everything in its track. It lifted the covered bridge across the river and hurled it roof downward into the river. Mr. A. Loy's had six buildings unroofed. Seeley's hotel building was destroyed, and one house was taken up and lung into the river. So violent was the wind that every breakable thing in some dwelling not thrown down was damaged. In one case a window was blown into the face of the lady of the house, cutting her severely. We hear that the village has very few roofs left. If any friend will send us further particulars we will regard it as a great favor.

A CARD.—J. C. White, Teacher of Vocal and Instrumental Music in State Normal School, at Mansfield, Pa., and Dealer in Musical Instruments, and Musical Merchandise of all kinds.

A CARD.—For convenience sake, I take this method of saying to my friends and the voters of Tioga County that, in becoming a candidate for Treasurer, I have no intention of opposing a disabled soldier, already in the field; for that would too well suit the plans of our friends of a certain complexion, who could then step in and quietly milk the cow, while we should be pulling her by the head and tail. But as Mr. Bailey has withdrawn from the field, I have consented to place my name before the public as a candidate for Treasurer. Becoming an opponent to the two remaining candidates—who are intelligent and honorable gentlemen, it is with the intention to make our little fight entirely bloodless, amicable and friendly—with each one for himself, and Jeff Davis's patron for the hindmost. Delmar, July 12, 1885. Geo. W. MERRICK.

VIOLENT TORNADO IN LANCASTER COUNTY Pa.—On Wednesday evening a most violent and destructive tornado passed over a portion of Lancaster county, Pa. The Lancaster Express says:

It struck the county on the southwestern border and moved in a northeastern direction, extending less than a mile in breadth, but blowing a perfect hurricane, and leveling almost everything in its track. The blow commenced between 5 and 6 o'clock, shortly after a heavy shower of rain. Very little rain accompanied it. Those who witnessed it describe the scene as grand and terrible. The air was filled with trees, branches of trees, debris, &c., and as this mass of matter was carried along, a roaring sound resembling the rolling of the waters over the Niagara Falls was produced. Great consternation prevailed among the inhabitants along the path of the sweeping tornado, and many of them ran about in the wildest excitement, without knowing where to seek shelter from the furious elements. Horses, cattle, &c., were also greatly frightened, and scattered in every direction. Many of these poor animals were raised from the ground and carried a considerable distance through the air.

The Express gives the names of a large number of persons whose houses and barns were unroofed and orchards entirely ruined. In one case a house was blown down, and a child lying in a cradle carried a distance of fifty yards without being injured.

One of our government officials just returned from Peru, tells us that among the first and most frequent inquiries made of him there about our public men was, whether he knew or had ever seen the celebrated American Chemist, Dr. J. C. Ayer of Lowell. His remedies are found in every village from the elevated slopes of the Andes down to the coast, and his remarkable cures seem to attract even more attention there than in this country. The sentiment of wonder at their effects, takes a far deeper hold on a half civilized and superstitious people than it does with us where the rational of medical problems is so much more generally understood. No other American has made himself so familiarly known to the masses of the people in foreign countries or excited in them so lively an interest in himself as the Doctor has by his skillful application of chemical science to the treatment of disease.

That must be a dull man who does not feel some pride of country when he finds among distant nations that he is already known and welcome there, though the labors of our Statesmen, Merchants and Scholars, whose renown has become national property, and consequently in some measure his own. Whether Dr. Ayer's remedies do actually cure more than others or not, they have secured the reputation of being a God-send to those afflicted with disease, and where great numbers in any community believe that they owe their health and lives to one's skill, they are sure to feel an interest in him which will find expression when they meet his countrymen.—National Era, Washington, D. C.

AMERICAN MUSICAL INSTRUMENTS are winning golden opinions abroad. A recent number of the Leipzig Signal, the leading musical journal of Europe, mentions the superiority of the Mason & Hamlin Cabinet Organs, manufactured in Boston, intimating that these manufacturers have discovered the secret of avoiding the harsh, ready tones of other instruments of this class.
