The Baptist Church.

The Baptist Church at this place which was waked up and set in motion, through the energetic preaching of the Rev. Mr. Grow fast winter, is now one of the most wide-awake denominations among us. We learn that they have purchased the Presbyterian Church House, and propose to repair and fix it up in more modern style. As it is now a good building and finely located, they will have one of the neatest and finest places for worship in town.

Let's make common cause of the matter, and build up a good Academy, the next thing. With such an Institution, we shall have less use for the jail.

It should be more generally know, that we Mr. Z. Gray, of whom we speak, by his hon-orable straight forward course of dealing and by making his Bread, pastry and Confection-ary from pure unadulterated materials, deserves,—and when known, must receive the liberal patronage of a discriminating public.

Drowned in a Spring.

pen, aged about 14 months, was drowned on the 27th ult., in a spring of water near by the house of his father. Dropped Out.

The entire bottom-stringers, floor and all of the upper canal bridge at this place fell into the canal, one day last week; and, what is more important, a Mr. Barber with his son team and wagon, who was passing over it at the same time, fell with it. Fortunately they the kind, on these canal and that apparently very insecure, we shall probably soon find ourselves cut off from all intercourse with the river side of the canal.— The neglect on the part of the Company to provide against these accidents, receives, as

a fine lot of black Raspberries, and turning his back upon us, before we had time to say, thank ee, went away. Such unusual conduct on the part of a man who appeared to be entirely sane, required some explanation. A day or two since, seeing our friend Mr A. W. Felton, who was the strange acting individu al and inquiring into the matter, we learned that he picked the herries on purpose for us! We ate them; and have ever since felt friendly towards all berry pickers in general and A. W. F. in particular.

Our New Sign.

The new sign, made necessary by the change of title of our paper was painted by Mr. W. Ruger, the skillful artist located over the National Bank. With this the finest eign in town, we hardly think any of our out of town friends can fail to find our place we think such a sign a sine qua non, New Clothing Store.

H-o-b-r-a-h! H-o-e-r-a-h!! H-o-o-r-a-h!!!

We've been struck with a streak of some-thing that's better than Jersey lightning George H. Kelly, who used to handle type metal in our office, but who for the past five or six years has dabbled in more precious metals in California, has made us supremely happy, by sending for a year's subscription to the Democrat a round piece of yellowish colored metal, which if our memory is not at fault, used to be called a \$2,50 gold coin.

We took several long, searching looks at the thing and for some time could hardly resist the idea that it was some new-fangled nickel. Referring to an old coin chart, our fears we dissipated. It is indeed, a genuine gold coin. We should not dare to make this fact public, on account of our creditors, but thanks to the powers above us—gold is not a legal tender now. It's 'green bax' now(see abolition strictures on Judge Sharswood's opinion that a man should pay in coin when a good color for shipping, roofs, barns, Mills fences, &c. For house painting, any tints could be obtained by admixtures of lead and ter, we feel bound to say that the article they most desire, is buried deep, very deep, in As this rock exists there in inexhaustible the ground—that if they dig deep end and long enough they may get some of it.—
We did think that for us, to make a
last will and testaments, would be to leave
that interesting document, only, to our poserity. Since this streak of luck we think of willing and testamenting this piece of money to some, as yet, unborn grand-child that he may know what sort of trash his foolish old grand-dad used as a circulating medium when he was a boy. The "green bax" system will by then be perfect, and the great axiom, that "a national debt is a national blessing," will then be fully understood and

appre ciated. Our friend George didn't seem to know the value of the thing. He tells us to take the extra "four bits" and wet up our thirsty editoral whistle. 'Guess he don't know we have the Main Law here, nor that we "b'long to the S'ciety, what den't never let their whistles get dry."

THE STOLEN WATCH .- One of the best stories we remember, refering to a stolen watch, comes from a French source. In the pit of the old French opera, one of the audience suddenly discovered that his watch was gone. The evening's entertainment had not commenced, and the owner of the property mounted a bench, stated the loss, which could not have occured above two or three minutes, and begged those around him to remain perfectly quiet as his watch struck the hours like a clock, and, it then being on the stroke of seven. the watch would speedily indicate into whose possession it had fallen. Thomas' Patent Atmospheric CHURN DASH. Patented May 7th, 1867.

The most Important and Valuable Invention of the 19ty Century,

1. The Dasher is superior to any other, by being as simple as the old dasher, and combining the at mospheric principle therewith, and the Butter Gath

erei.

2. It is superior to all others, masmuch as the same power applied to this in like mechanical operations will make one-fourth more reciprocations.

3. It is superior to all others, inasmuch as it produces in a much shorter time. 4. It is superior to any other, inasmuch as it produces a much better quality of Butter.

Lastly it is superior to any other Patent Churn, inasmuch as it is 500 per cent, cheaper than any

It is well known to Dairymen and others, that It is well known to Dairymen and others, that Butter is coatained in minute globules or sacks covered with a membrane, and requires the action of air to prepare the covering to be removed by friction. The Scientific American says:

"If cream is dashed against hard substance or mashed between bars or rollers, it breaks the globules and becomes airly to the same proper size of the same property of the same

Fassett assigned to Wm. M. Piatt, vs. Charles S. Harding, Administrator of Charles Johnson de'd and will be sold for cash only, by M. W. DEWITT, Sheriff. and becomes oily, by destroying the grain. It should be thrown into currents and counter-currents by the action of air, causing a friction by the cur-rents against each other, removing the covering without breaking or bursting the globules."

This is the principle which the inventor of this Dasher endeavored to keep in view, and the result

> LARGER YIELD OF BUTTER OBTAINED IN LESS TIME THAN ANY OTHER DASHER Experiments have proven that any other me thod except pumping air through the cream will not penetrate sufficiently to oxygenize all the globules preparatory to concentrating the butter. Throwing it into the air by clappers of old fashioned Dushers, does not sufficiently expose it to the air to bring out the Butter. The above Patent Dasher has been purchased for

> The above Patent Dasher has been purenased for Susquehanna, Wyoming and Luzerne Counties by A. P. Baldwin, of Montrose. The process of churning can be seen on exhibition at Wall's Hotel in Tunkhannock, for a few days by Mr. Reynolds, agent, who will sell township rights, A. P. BALDWIN,

THEIR FIRST MORTGAGE BONDS

As an Investment.

The rapid progress of the Union Pacific Railroad. now building west from Omaha, Nebraska, and forming, with its western connections, an unbroken line across the continent, attracts attention to the value of the First Morigage Bonds which the Company now offer to the public. The first question asked by prudent investors is, "Are these bonds secure?"—Next. "are they a profitable investment?" to reply in brief:

in brief;
1st. The early completion of the whole great line ist. The early completion of the whole great line to the Pacific is as certain as any future business eventean be. The Government grant of over twenty million acres of land and fifty million dollars in its own bonds practically guarantees it. One fourth of the work is already lone, and the track continues to be laid at the rate of two miles a day.

THOUSANDS OF HORSES DIE YEARLY FROM Colic. This need not be. Dr. Tobias' Venetium Horse Liniment will positivelp cure every case, if given when first taken. The cost is only one dollar. Every owner of a horse should have a bottle in his stable, ready for use. It is warranted superior to anything else for the cure of Cuts, Wind Galis Swellings, Sore Thorat, Sprains, Bruises, Old Sores, &c. This Liniment is no new remedy. It has been used and approved of for 19 years by the first horse men in the country. Given to an over-driven horse, it acts like magic. Orders are constantly received from the racing stables of England for it. The celebrated Hiram Woodruff, of trotting fame, has used it for years, and says it is far superior to any other he has tried, He kindly permits me to refer to him. His address is East New York, Long Island, Recollect, Dr. Tobias' Venetuan Horse Liniment is put up in pint bottles. Take no other. Sold by the Druggists and Saddlers.
