

Local and Personal.

The Courts which are now in session here are well attended. Criminal matters seem to predominate. Prosecutions of the liquor laws are numerous.

The Melodians and Organists. Furnished from the music establishment of L. B. Power, 116 Penn Ave. Scranton are the very best class.

Apologetic. The illness of one of our types; and our duties in connection with the Courts, must be taken as an excuse for any errors of omission or commission in this issue of the Democrat.

R. R. Bridge. The stone for the abutments and piers of the Railroad Bridge at this place are now being put upon the ground. Messrs. Nelson, John, and Wellington Lee, we believe have contracted to put up this work.

The Canal. The canal which the Company were unable to fill with water, by reason of its scarcity in the river, and the great absorption by the dry banks is now filled and in condition for boating.

Refreshment. The long and soaking rain of last week, which succeeded one of the severest droughts which has fallen to the lot of people in country for many years, and as the saying is "a heap of good" to almost every thing and every body.

Corner-stone laying. The corner stone of the new Methodist Church, at this place, was laid on Tuesday last, with appropriate religious ceremonies, in which the Rev. Mr. Christman, Rev. J. P. Wilcox, Rev. J. L. Legg and others participated.

Taking Medicine. To cure disease occasioned by a deficiency of iron in the blood, by restoring it to its system, is a very good building foundation is given. The Peruvian Syrup (a proteo-iron) supplies this deficiency and builds up an iron constitution.

Change of Titles. Mr. Henry Stark of Philadelphia on his last visit to this place, disposed of five or six house lots—some one or two of them with houses on them, to different purchasers here. The present owners propose to build upon and otherwise improve them. Let the work go on.

Declines. It is said George W. Woodward positively declines to be the Democratic candidate for Congressmen for this district. It seems not probable that J. B. Stark will be the Democratic nominee.

Upon the Republican side W. W. Ketcham and G. Coray are prominently mentioned. Scranton Journal.

Large Field of Wheat. Lusk H. Lutz, sq. of Newton Luzerne Co. last year, cleared and sowed to wheat 70 acres of new or fallow ground in one field, and at the present harvest took therefrom upwards of 1500 bushels of fine plump white wheat. The entire crop, with the exception of enough for a short cake or two, reserved by Mr. Lutz, has been sold to Brown and Weizner, of the Falls Mills.

A Powerful Rival. There is a new patent Sewing Machine, (called the Star Shuttle,) manufactured in Cleveland, Ohio, by W. G. Wilson & Co., and sold for Twenty Dollars, that makes the Lock Stitch similar to Wheeler & Wilson and other first class machines. The manufacturer claims that it is equal to any first class workmanship, to any other first class machine, beside being able to do the same range of work.

The Fair. The Fair given by the Methodist Ladies Aid Society, at the Church on Monday evening, was one of the very best. A large number of very elegant and desirable articles were on exhibition, and disposed of for remunerative prices, while the society added considerably to their funds, every one present felt that he received a quid pro quo.

Agricultural Society. The Glenwood Agricultural society has collapsed by reason of the destruction of their grounds by the freshets. A new society, however has been organized at Nicholson, and a splendid track and grounds have been secured and is now being fitted up. The Society propose to give their first fair about the last days of September. The premiums list will shortly be published.

Eels out of mud. Passing by Mr. Asher Fitch's place, in Falls, the other day, we were very suddenly brought to a dead halt, by being asked if we didn't "want a mass of eels?" Of course the interrogator didn't know us, as well as we know ourselves, or he wouldn't have asked such a silly question. We excused the insult, and have put ourselves outside of the larger portion of "them snails," which with an eleven pound bass, were captured by Mr. F., while out spearing the night before. None of the funny "tribe" think of getting away from Asher when he really "goes for them."

The Crops and Prices. The harvest has been gathered, and the barns of our farmers are well filled with grain of a superior quality. There will be no lack of bread, and the price of flour must rule considerably lower than it did throughout last year. This will afford some slight relief to the laboring classes, who find it difficult to make their scanty earnings meet all the demands made upon them. But the relief experienced from an abundant crop will be only partial and comparatively slight. There will be no considerable reduction in the price of the thousand and one articles which enter into the consumption of every family in the land. Clothing, groceries and almost every thing which is needed will soon continue to rule at high prices so long as gold stands at its present rate of premium and the only money in circulation is a depreciated paper currency. The high taxes now in force will keep goods of all kinds up to exorbitant figures preventing a return of low prices and prosperous times for years to come. With the industry of one half the country prostrated, and the energies of the South crushed beneath the iron heel of a military despotism there can be no change for the better. Only when the fanatics now in power are hurled from office, and a reign of good sense, statesmanship and justice inaugurated in the place of the infamous and unwise system now prevailing, can the people expect relief from the burdens which press so heavily upon them. Those who expect that a single abundant crop will start all the wheels of stagnant trade and bring down the price of everything, are doomed to be sadly disappointed.—E.

ESTRAY NOTICE. Came to the enclosure of the subscriber in Tunkhannock Township on or about the 25th of July last, a Yearling Bull of a deep red color. The owner is requested to come for and prove twenty day charges, and take him away otherwise he will be disposed of according to law.

MARGARET KINTNER, FREDERICK MILLER, Tunkhannock August 20th 1867.

DEMOCRATIC MEETING.

At a meeting of the Democratic Standing Committee and others of the Convention, held at the Court House in Tunkhannock, on evening of 19th August, 1867. Meeting called to order by Maj. L. C. Conklin, Abira Gay Esq. was appointed President, C. L. Vaughn and Nathan Kline Esqrs., Vice Presidents; Davenport Hadley and John G. Spaulding, Secretaries; Subject of Meeting stated by Hon. Wm. M. Platt. Meeting addressed by Hon. Wm. M. Platt, Hon. R. R. Little and Abira Gay, Esqrs. The following resolutions were unanimously adopted:

MR. LITTLE offered the following: WHEREAS, The desperate eagerness of the party in power to maintain its supremacy, has exhibited itself in nothing more emphatically than in its activity in the support of its local presses, (the chief instrumentalities of assault upon, and misrepresentation of the motives, principles, and purposes of the Democratic party) while those members of that party whose fidelity to the principles of the Fathers has withstood all hope of official preferment, all expectation of profit from government patronage, and all the appliances and allurements of shoddy, have contended themselves with mere protests against the great public wrongs which they were for the time powerless to avert, and

WHEREAS, The best and most efficient means of vindicating those principles consists in the liberal support and enlargement of the circulation of the local conservative journals of the country. Therefore, 1. Resolved—That the Democratic Standing Committee of this County are instructed to take into consideration the best means of enlarging the circulation of the Wyoming Democrat;

2. That every Democrat in this County owes it to himself and to his country, to heartily co-operate in this movement, not only by subscribing, but by exerting his influence in this behalf.

MR. PLATT, offered the following 1. Resolved—That the Democratic party in the nomination of the Hon. George Sharrow for the high position of Judge of the Supreme Court of Pennsylvania—have manifested much wisdom in the selection of a candidate eminently qualified by experienced action, and talent, to fill the office with credit to himself and honor to the great State of Pennsylvania.

2. That hereafter the Democratic party of Wyoming County hold each and every year on the Monday evening of August Court, an annual meeting of the party, and that this be one of the Standing Rules of the Democratic party; and that the chairman of the Democratic Committee call said Meeting at least six weeks before the time of meeting.

3. That the proceedings be published in the Wyoming Democrat.

HOW TO BUILD A CISTERN.

You desire to build a Cistern that will do away with the necessity of a well, it can be effectually and satisfactorily accomplished by the following method:—Complete the Cistern by thoroughly cementing the walls as usual; then build up in the centre, with soft brick, cement and sand for mortar, a square box to hold, say a barrel of water. Into this box insert your pump pipe—the water will filter through the brick and keep a constant supply of water clear as crystal and ready for use, filtered in the most perfect manner. We got this idea from our townsman, Mr. John F. Lewis, of large experience in cistern building in England, and we are adopting it at our own dwelling. Any one can readily perceive that water which passes through brick must necessarily be thoroughly filtered. All things being equal rain water is admitted to be better for drinking than even well water.—Puttson Gazette.

LYING IN BED.—It is often a question among people who are unacquainted with the anatomy and physiology of men, whether lying with head exalted or level with the body, is the most wholesome. Most, consulting their own ease on this point, argue in favor of that which they prefer.

Now, although many delight in bolstering up their heads at night, and sleep soundly without injury, yet we declare it to be a dangerous habit. The vessels in which the blood passes from the heart to the head are always lessened in their cavities when the head is resting in bed higher than the body; therefore, in all diseases attended with fever, the head should be pretty nearly on a level with the body; and people ought to accustom themselves to sleep thus, and avoid danger.—Medical Journal.

A NOVEL ADVERTISEMENT.—The following novel matrimonial advertisement recently appeared in a Western paper: "I am eighteen years of age, have a good set of teeth, and believe in Andy Johnson, the star spangled and the 4th of July. I have taken up a State lot, cleared up eight acres last year, and seeded ten of it down. My buckwheat looks first rate, and the oats and potatoes are bully. I have got nine sheep, a two year old bull and two heifers, besides a house and barn. I want to buy bread and butter, pork-skirts and waterfalls for some persons of the female persuasion; during my life—That's what the matter with me. But I don't know how to do it."

THE EAGLE. He clasps the crag with hooked hands, Close to the sun in lonely lands, Ringed with the azure world he stands. The wrinkled sea beneath him crawls, He watches from his mountain walls, And like a thunderbolt he falls. —Tennyson.

A Western critic thus travesties the laureate's eagle: THE EAGLE. With hooked claws he clasps ye fence, Close by ye hen-roost; he gazes yeence, He spies a nice what's got no sense, Ye mice beneath can't well see him, He watches from his lofty limb, Then jumpeth down and grabbeth him. He thus draws his conclusion,

The difference twix the two I now will paint His eagle's wile, and my eagle aim't.

LOST. A Yearling Bull—deep red, short horns, the end of the tail white. Any one giving information of the whereabouts of the bull will receive \$4.00 reward. FREDERICK MILLER, Tunkhannock, August 20th.

Miscellaneous.

LADIES & GENTLEMEN Employed. Picture business. Very profitable. No risk—17 specimen Frames and catalogue sent for 15c postage. MANSON LANG, 237 Bowers, N. Y. City.

MORE THAN \$200 PER MONTH. Made with Stencil Dies. Send for Catalogue and Samples, free. S. M. SPENCER & CO., Brattleboro, Vt.

6000 AGENTS wanted, to sell Six New Inventions, of great value to families all pay good profits. Send 25c, and get 50 pages and sample gratis. Agents have made \$100,000.—Ephraim Brown, Lowell, Massachusetts.

H. N. SHERMAN, I. B. LATHROP, Tunk. Pa. Apr 16 1867.

GET THE BEST WEBSTER'S DICTIONARY. UNABRIDGED. NEW ILLUSTRATED. OVER 3,000 FINE ENGRAVINGS. 20,000 Words and Meanings not in other Dictionaries.

A necessity to every intelligent family, student, teacher and professional man. "The New Webster is glorious—it is perfect—it distances and dethrones all other dictionaries—it is the best of the best."—If you are too poor to buy the new Webster, look at Webster's new definitions of the v. t. "MAGNETIC LIFE BATH."

IN A VOLUME OF 1,240 Royal Quarto Pages. Published by G. C. MERRIAM, Springfield, Mass. Sold by all Booksellers. v643-f.

PERUVIAN SYRUP. A PROTECTED SOLUTION OF THE PROTOXIDE OF IRON, supplies the blood with its LIFE ELEMENT, IRON, giving strength, vigor and new life to the whole system.

If the thousands who are suffering from Dyspepsia, Debility, Female Weakness, &c., would test the virtues of the Peruvian Syrup, the effect would not only furnish themselves but would please all their friends; for instead of feeling weak, "all gone" and miserable, they would be cheerful, vigorous and active.

A DISTINGUISHED JURIST WRITES TO A FRIEND AS FOLLOWS: I have tried your Peruvian Syrup, and the result fully sustains your prediction. It has made a NEW ME in me, and I feel as if I were a new man. I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than I have during the last five years.

Thousands have been changed by the use of this remedy from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial. The genuine has "Peruvian Syrup" blown in the glass. A 32 page pamphlet will be sent free.

J. P. DUNSMORE, Proprietor, No. 36 De St., N. Y. Sold by all Druggists.

SCOTLAND. The Rev. GEORGE FRANKS, of Brooklyn, N. Y., says in the Bible Examiner, by way of apology for publishing a medical certificate in his magazine of the cure of his only son, of Scutaria, after dissolution of the marriage, "I am not for pay, but in gratitude to God who has answered prayer, and in justice to Dr. Anders; he is a man of high character, and his treatment, which the Rev. Editor brings to your notice," will thus be a public benefit.

Dr. H. Anders' Loline Water is for sale by J. P. DUNSMORE, Proprietor, 36 De St., N. Y., and all Druggists.

TO CONSUMPTIVES. The advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered for several years with a severe lung affection, and that dread disease Consumption, is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge) with full directions for preparing and using the same which they will find a cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and all Throat and Lung Affections, and that dread disease Consumption, is anxious to make known to his fellow-sufferers the means of cure.

REV. EDWARD A. WILSON, Williamsburg, Kings Co., New York.

Miscellaneous.

Thomas' Patent Atmospheric CHURN DASH. Patented May 7th, 1867.

The most Important and Valuable Invention of the 19th Century.

1. The Dasher is superior to any other, by being simple as the old dasher, and combining the atmospheric principle therewith, and the Dasher's action.

2. It is superior to all others, inasmuch as it produces a much better quality of Butter.

3. It is superior to all others, inasmuch as it produces a much better quality of Butter.

4. It is superior to all others, inasmuch as it produces a much better quality of Butter.

It is well known to Dairywomen and others, that Butter is obtained in more globules or seeds covered with a membrane, and requires the action of air to prepare the covering to be removed by friction.

The Scientific American says: "If cream is churned against hard substances or mangled between bars or rollers, it breaks the globules and becomes oily, by destroying the grain. It should be thrown into currents and counter-currents by the action of air, causing a friction by the currents against each other, removing the covering without breaking or bursting the globules."

This is the principle which the inventor of this Dasher endeavored to keep in view, and the result shows a much LARGER YIELD OF BUTTER OBTAINED IN LESS TIME THAN ANY OTHER DASHER.

Experiments have proven that any other method except churning, will produce more or less cream, and that the Dasher is the best and most complete assortment of DRY GOODS, DRESS GOODS and TRIMMINGS; WOMEN'S AND CHILDREN'S SHOES; CASSIMERES AND GENTLEMEN'S FURNISHING GOODS; and a large stock of READY-MADE Clothing.

Having had 20 years' experience in this business they feel certain that they can secure a trade at this point, and to do this they only ask the people to COME AND SEE THEIR GOODS AND PRICES, BUTTER, EGGS, and PRODUCE, of ALL KINDS, at the highest market rates in exchange for Goods or Cash at the option of the seller.
