### Earm, Garden & Ritchen

RECIPES .- Cream Pie .- Place a pint of milk where it will heat. Then beat together one cup white sugar, one half a cup of flour with two eggs, and stir it into the milk when it is nearly boiling. Stir rapidly until it is cooked thoroughly-add essence of lemon, and pour upon the crust, which should be baked before the cream is put in. This will make two pies. If you wish it extra, make a frosting of the whites of two eggs and three tablespoonfuls of sugar-spread this evenly over the pies, and set again in the oven and

brown slightly. Nice Rolls .- Two pounds of flour, a little selt, two large spoonfuls of sugar dried and sifted, three spoonsful of butter, one pint of good new milk; set the sponge to rise over night. If you have any bread sponge, mix the above ingredients into it, adding two well beaten eggs. Make this into rolls and set them to rise early in the morning if for breakfast and bake on the tins without disturbing

Dutch Shortcake .- One pound of flour, a quarter of a pound of butter, a quarter of a pound of sifted sugar, a teaspoonful carbonate of sods in a cup of warm milk. Mix, then let it stand a quarter of an hour about the fire, poll out, and cut in various shapes.

Bread Griddle Cakes .- Soak a few pieces of stale bread until soft ; then rub then thr'o a sieve ; put into one quart of buttermilk add two eggs, one teaspoonful of salt, do, of sodaand flour enough to make the batter of the right consistency.

ABOUT THE DOOR .- A bit of shrubbery in the yard, a vine climbing by a trellis, a strip of refreshing green spread from the door, are sure to make a place of greater marketable value, which, with many, is a consideration to be thought of before any other. Such need no f urther appeal to their sense of neatness, then. But those who really love the suges' tions of beauty for their own sake, will not emit the turf patch, the shrubbery and the hedge and vine, because they make almost any home more attractive and lovely, and cause the sentiments to sprout, like the very isaves and buds themselves. How few stop to consider what a powerful association lies lurking in every simple but familiar object that holds us almost as steady and strongly to home as wife and children; they are closely associated with these in fact, and can with difficulty be separated. Therefore, we say to all, brush up about the door, and plant near by, an object of simple beauty. It will bear fruit in the heart a hundred fold .- Mass Plowman.

APPLITURE STOKERS,-Many otherwise good apple orchards are allowed to become defaced, as well as seriously injured, by allowing a profusion of suckers to grow at the base of the trunks. Attempts are sometimes made to get rid of them by cutting them down to the surface of the ground, and leaving considerable portions below in the form of short stumps, These sproat again, and they soon become as bad as ever, A better way is to wait until they are in leaf, at which time they are loosetted more readily, and taking each separately in the hands, and placing a thick boot upon it near the tree, they are quickly separated. If done at this time of the year, they will not be likely to sprout

The following little treatise on boiling green corn we clip from the Practical Farmer, for Wm. 0. GARDNER & CO the benefit of house-keepers: Many people have a mistaken fancy that green corn can be boiled in from 15 to 20 minutes. So it can but not sufficiently to be fit to eat. Less than an hour's boiling will not cook green corn as it ought to be. A briefer boiling leaves something of that objectionable raw corn taste. I have seen those who say they prefer it that way. Likely enough-pigs generally do prefer half cooked food. No green corn ought to cook less than an hour; if so far advanced than there is the least appearance of glaxe, not a minute less than an hour and a half should be the rule.

GREEM GRAPE JAM,-Cook the grapes in a far set in a kettle of boiling water until they are soft ; strain them through a fine culiender, and to every pound of grape put a pound of grashed sugar; boil together gently unti a thick jam is formed. Cover with egg pa-

A Wisconsin newspaper describing a large farm which the advertiser wishes to sell adds the following "The surrounding country is most beautiful; also two wagons and a yoke of oxen.

CHICKEN BROTH .- Skin a small chicken and split in two; boil one half in three half pints of water, with a blade or two of mace and a small crust of bread; boil it over a slow fire till it is reduced one half.

There is profoud wisdom in the saying of an English farmer, that he 'ed his land before it was hungry, rested it before it was weary and weeded it it before it was foul. Seldom has so much agricultural knowledge been condensed in a single tentence.

Yo surround an erchard with hedges of evergreens, is to make a climate equal to one 200 miles South When the country was new, peaches grew in Massachusetts.

To Remove paint marks from dress -- softer ft with any kind of grease, and then apply spirits of turpentine or ammonia to remove the mark made with the grease.

Every parent is like a looking glass for his children to dress themselves by. Therefore parents should take care to keep the glas bright and clear.

FAIRBAK'S SALES. eranton, March 26, 1863. vln33-HELMBOLD'S FLUID EXTRACT BUCHU is Medical.

THE peculiar taint of infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an en-feebled, vitiated state of the blood, wherein AYEKS competent to sustain vigorous action, and leaves the system to

decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be in the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take orniors. The diseases it originates tax-various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and be-come ulcerous sores; in the stomach and bowels, derangements which produce indi-cestion dyspensia and liver complaints, on gestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual anti-dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Ayer's American Almanac, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made of the remarkable cures which it has made when all other remedies had failed to afford reflief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of ATER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its of Sarsoparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purgo out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar victors this roughly simulates the vical liar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out

on any part of it.
We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they promised much and did nothing; out and will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more ef-fectual than any other which has ever been

AYER'S CHERRY PECTORAL, The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so unfversally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Sold by all druggists every where.

MANHOOD: How Lost, How Restored.

practice, that the alarming consequences of self abuse may be radically cured without the danger ous use of internal medicine or the application of the knife—pointing out a mode of oure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may supply the property and radically.

sufferer, no matter what his condition may be, may cure himsrif cheaply, privately, and radically.
