

## Local and Personal.

**Apology.**  
The absence of the editor during most of the past week, must furnish an apology for the absence of local items, in this issue.

**Job work.**  
Having purchased a first class Job press and a full assortment of all the new styles of, Jobbing material, we are now prepared to print cards, circulars, bill and letter heads, &c. cheaper and neater than ever before done in the County.—Send in your orders.

**Re-dictulous.**  
The ryo faces made by Yost over the nomination of Mr. Lott for Representative, Yost says he won't support him—We shall see.

**The "Singing Pilgrim."**  
By Philip Phillips, is having an immense sale, and is considered one of the best singing books for the Sunday School now published. It is for sale, wholesale and retail, at L. B. Powell's, 116 Penna Avenue, Scranton.

**The Poor Man's Friend.**  
Doctors' bills are too long for a poor man's pocket, but many of them may be avoided by keeping Grace's Celebrated Salve in the cupboard. It is the "precious pot of ointment," curing burns, cuts, scalds, bruises, sprains, wounds, chilblains, chapped hands, &c. Mothers, do not neglect to save your husband's hard earned money, but purchase a box of this salve, only 25 cts.

**Postponed.**  
The opening of the Select School by Miss E. Vose, at Mohopany, did not occur on the 24th as proposed by her, but has been postponed on account of her illness. This School will now be opened on Tuesday the 17th inst.—as the preachers say,—providence permitting.

**Fashions.**  
The fall bonnets will entirely revolutionize the present circus ticket, postage stamp pattern, and milliners will be enabled again to live on their labor. For the last two seasons ladies who had not ability to bonnet a doll have succeeded in constructing their own clam-shell head gear.

**A Good Opening.**  
N. H. Conklin Esq., who studied law at this place, but who for the past year or two has been permanently located in Southwest Missouri, is now on a short visit to his friends at this place. He brought us a pound specimen of 95 per cent Lead ore from one of the richest mines in that region in which the Conklin Bros. are largely interested. Norm, is looking well, reports progress and asks leave to go back again. With such a fine opening for a young man no one should say nay.—Go in Norm, and win!

**Nicholson Agricultural Fair.**  
The Nicholson Agricultural Society will hold their First Annual Fair upon their New grounds at Nicholson Depot, Sept. 24th, 25th and 26th, 1887.

The Society have spared no pains or money necessary to fit their grounds and buildings in the most approved manner.

The track and grounds were laid out by Mr. Archibald, a practical engineer, and will compare with those of any similar institution in the States.

They offer a premium list greater in amount and larger in its range than most societies of its kind.

**"Husbands, Love your Wives."**

And give them Plantation Bitters when they are suffering from Nervousness, General Debility, Faintness, Spasms, or any of the thousand and one diseases to which the weaker sex is liable. Having yourself experienced the benefit of their use, extend the blessing to others. This invaluable tonic will chase Hypochondria or "the Blues"—give tone to the damaged nervous system—stimulate languid secretions—dispel vapors and excite, and generally build up the worn constitution. For each sex and all ages it is a gentle stimulant and a refreshing cordial.—Millions of bottles are sold daily all over the world.

**Magnolia Water.**

A delightful toilet article—superior to Cologne and at half the price.

**Radical Ticket.**

The Radical or Republican convention held at this place on Monday last put in nomination the following ticket:

For Representative—Ziba Lott, of Tunkhannock.

For County Commissioner—Daniel Wright of Tunkhannock Boro.

For County Commissioner—Henry Roberts, of Ellis.

For Auditor—Daniel A. Bardwell of Tunkhannock Tp.

For Coroner—Dr. J. W. Rhoads of Tunkhannock Boro.

**How to Mend Greenbacks.**

The American Greenback Currency, altho a most popular one, requires delicate handling. Tender are the notes in more than one sense they will wear. The New York World has discovered a method of mending torn notes, which we reproduce. This method is to smooth out the edges carefully and moisten the edges with the finger tip after wetting it on the tongue. Then lay the bill on a piece of writing paper, carefully drawing the edges together, and lay another piece of writing paper over it. A few seconds rubbing with the finger over the seam will make it adhere, and a little wetness, when it is dry, will enable a person to lift the bill from the paper without tearing it. The seam will, it is said, then be invisible, and be the strongest part of the bill.

**TO RAISE EARLY TOMATOES.**

Take in November three joints from a tomato vine, place the cutting in a pot or crock, covering two of the joints with rich earth, &c. in the kitchen window—in February it will be large enough to afford many cuttings—Plant these as before.

When the season is right, plant. You will have fruit one month earlier than from plants raised from seed.

**COPPER ORE IN LEHIGH COUNTY.**—We have been informed that a company of gentlemen of this city have leased a tract of land, eight acres, situated in North Whitehall township and within a short distance of Guthrie, of Mr. Reuben Siegel, of this city, with a view of opening a copper mine. The surface indications are pronounced as being good, and the old story that copper has been found in that vicinity years ago has caused them to take this step. The company is an enterprising one, and work will be commenced at that place immediately.—Allentown News.

**THE DEMOCRATIC ISSUE FOR COMING ELECTIONS.**—Print greenbacks and pay the bondholders—and don't tax us any more.

**A GENIUS IN THE CELLS.**—The editor of the Rochester Democrat having recently visited Auburn Prison is publishing an account of what he saw there. He says "one of the convicts, more than many of his fellows, and who was looked upon for some time after his incarceration as hardly composed mentis, has invented and made a superior sewing machine, entirely different from any used in the outer world, upon which the prison clothing is made. Near by, a knitting machine of his make is turning out stockings for the prisoners at a rate which made the ladies stare with astonishment as they passed by it. He also made a gun worth \$125, and is now at work making locks of his own invention for the new cells. His name is Moody, and he is a nephew of Col. Moody, of Ohio, the celebrated Methodist minister who made such stir among the rebels during the war. He is confined for grand larceny.

**The Way to Pay the Public Debt.**

There is a general discussion as to the best way to pay the public debt. The matter is plain as daylight says the Detroit Free Press: put the thieves out of office and put honest men in, Retrench the expenditures of the Government to one hundred million. Cut the Freedmen's Bureau swindle from the Treasury, and thus save millions to the people. If the negroes are fit to vote, they are competent to sustain themselves. Take the military from the South and muster them out of service, and leave the people there to "reconstruct" themselves, as they were doing before Congress interfered, and put them further from the Union than they were ever before. Cut off the myriads of parasites now hanging upon the Treasury. Retrench expenditures until the income exceeds the outgo. Apply the surplus to the payment of the national debt, and the whole "question" will be answered.

**VOTERS! FEEL IN YOUR POCKETS!**—We are taxed about one hundred and fifty millions a year, in order to pay interest on the war debt! If this interest were to be paid in greenbacks—which we have to take as money—we would be free of this tax! If we have to take greenbacks in place of gold, why should not the bondholders take the same? Why does not the Government print off some more greenbacks, and pay bondholders in place of taxing the people?—N. Y. Freeman's Journal.

**VOTERS! ARE YOU SLAVES?**—Fifteen thousand capitalists own Government Bonds and are free, by law, from all State and County tax! You pay what they do not! That is why you have hard times! You are paying your own taxes, and these of these bondholders! The radical Republican party have put this burden on you. The Democratic party want to take it off!—N. Y. Freeman's Journal.

**MAKE ENDS MEET!**—A roasting piece of beef is better than a Government Bond! If the butcher takes greenbacks for whole some beef, Bond holders had better take greenbacks for their bonds—for half of them are issued fraudulently—and they are not going to be paid—ever—except in greenbacks!—N. Y. Freeman's Journal.

**VOTERS! ATTENTION!** The mechanic, and the day laborer, for his hard day's labor is paid in greenbacks. Some fifteen thousand rich ones; out of thirty millions of people, hold Government Bonds, and require to be paid in gold for these!

**A THOUGHT FOR VOTERS NEXT ELECTION.**—If greenbacks are good enough to pay the farmer for his bushels of wheat, why are greenbacks not good enough to pay the few bondholders for their bonds?

It now turns out through Republican sources that all of the Andersonville horrors were the result of mature deliberation of Holt and the War Department. Thirty thousand of our fathers, sons and brothers left to die horrible deaths, because the authorities at Washington said they were too feeble to be of service in our ranks, and it would cost money to maintain them in hospitals, and to have exchanged man for man with rebels, would aid the Southern cause. For one whole year, Republican papers published such descriptive of the prison pen, hung Wirz for his cruel treatment and denounced the South for its brutality when it now turns out by the showing of the highest authority, that the South was anxious to get rid of them and exchange every man, if Stanton and Holt and Butler can sustain themselves through all this they have charmed lives.

## CONSUMPTION CURABLE BY DR. SCHENCK'S MANDRAKE PILLS.

TO CURE CONSUMPTION, the system must be prepared so that the lungs may heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created for good wholesome food, which, by these medicines will be digested properly and good healthy blood made; thus building up the constitution. SCHENCK'S MANDRAKE PILLS cleanse the stomach of all bilious or mucous accumulations; and by using the Sea Weed Tonic in connection, the appetite is restored.

SCHENCK'S PULMONIC SYRUP is nutritious as well as medicinal, and by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions Consumption very frequently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhoea they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise about the room as much as possible, eat all the richest food—fat meat, game and, in fact, anything the appetite craves; but be particular and meticulous well. vi-16-2-16-3

## DYSPEPSIA.

There is no disease which experience has so amply proved to be remediable by the PERUVIAN SYRUP. (A protected solution of the Protoxide of Iron), as Dyspepsia. The most inveterate forms of this disease have been completely cured by this medicine, medicine, as ample testimony of some of our first citizens proves.

FROM THE VENERABLE ARCHDEACON, SCOTT, D. D.

DURHAM, Canada East.

"I am an inveterate Dyspeptic more than 25 years. I have been wonderfully benefited in the three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality. People who have known me are astonished at the change. I am widely known, and can be recommended to others that which has done so much for me."

ANOTHER CLERGYMAN WRITES AS FOLLOWS

"My voyage to Europe is indefinitely postponed—I have discovered the 'Fountain of Health' on this side of the Atlantic. People who have known me are astonished at the change. I am widely known, and can be recommended to others that which has done so much for me."

A pamphlet of 32 pages, containing a history of this remarkable remedy, with a treatise on "Iron as a Food," will be sent free to any address. The genuine has "PERUVIAN SYRUP" blown in the glass.

## ALLCOCK'S POROUS PLASTERS.

Hartford, Conn., Nov. 11, 1884. Messrs. T. ALCOCK & Co.—Please send, with dispatch, twelve dozen Allcock's Porous Plasters.—Our daily experience confirms their very superior excellence. At this moment of writing a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay \$5 for a single Plaster if they could not be had at a lower rate: I am surprised that surgeons do not make use of the perforated plasters to the exclusion of all other, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them rendered them greatly superior to all others for ordinary surgical uses.

Knowing the plasters to be so useful, I have no scruples that my sentiments should be known.

## GET THE BEST

WEBSTER'S DICTIONARY.

UNABRIDGED.

NEW ILLUSTRATED.

OVER 3,000 FINE ENGRAVINGS.

20,000 Words and Meanings not in other Dictionaries.

A necessity to every intelligent family, student, teacher and professional man. "THE NEW WEBSTER is glorious—it is perfect—it distances and defies competition—it leaves nothing to be desired."—J. H. Raymond, LL. D., Pres. of Vassar Coll.

"All young persons should have a standard Dictionary at their elbows. And while you are about it, get the best; that Dictionary is Noah Webster's—the great work unbridled. If you are too poor, save the amount from off your back to put into your head."

PHYSIOLOGICAL JOURNAL.

"Every farmer should give his sons two or three square rods of ground, well prepared, with the avails of which they may buy it. Every mechanic should put a receiving box in some conspicuous place in the house to catch the stray pennies for the like purpose. Lay it upon you table by the side of the 'bible'—it is a better expounder than many which claim to be exponents. It is a great labor-saver; it has saved us time enough to in one year's use to pay for itself; and that must be deemed good property which will clear itself one year. If you have any doubt about the precise meaning of the words in the Bible, last sentence, look at Webster's nine definitions of the v. t. M.—MASCULINE LIFE BOAT.
