GET THE BEST WEBSTER'S DICTIONARY. UNABRIDGED.

NEW ILLUSTRATED OVER 3,000 FINE ENGRAVINGS. 20,000 Words and Meanings not in other Dictionaries.

A necessity to every intelligent family, student, teacher and professional man. "The New Webster is glorious—it is perfect—it is the best of its kind. Every American should have it."—J. H. Raymond, LL. D., Pres. of Vassar Coll.

PHRENOLOGICAL JOURNAL. "Every FARMER should give his sons two or three square rods of ground, well prepared, with the avails of which they may buy it. Every mechanic should put a receiving box in some conspicuous place in the house to catch the stray pennies for the like purpose. Lay it upon your table by the side of the Bible—it is a better expander than money which claim to be expended. It is a great labor-saver; it has saved us time enough to in one year's use to pay for itself; and that must be deemed good property which will clear itself once a year. If you have any doubt about the precise meaning of the word class, in the last sentence, look at Webster's nine definitions of the v. t.—"MANUSCRIPTS LIFE BOAT."

THE UNION PACIFIC RAIL ROAD CO. THEIR FIRST MORTGAGE BONDS As an Investment.

The rapid progress of the Union Pacific Railroad now building west from Omaha, Nebraska, and forming, with its western connections, an unbroken line across the continent, attracts attention to the value of the First Mortgage Bonds which the Company now offers to the public. The first question asked by prudent investors is, "Are these bonds secure?" Next, "Are they a profitable investment?" To reply in brief:

1st. The early completion of the whole great line to the Pacific is as certain as any future business event can be. The Government grant of over twenty million acres of land and fifty million dollars in its own bonds practically guarantees it. The fourth of the work is already done, and the track continues to be laid at the rate of two miles a day.

2d. The Union Pacific Railroad bonds are issued upon what promises to be one of the most profitable lines of railroad in the country. For many years it must be the only line connecting the Atlantic and Pacific; and being without competition, it can maintain remunerative rates.

3d. 425 miles of this road are finished, and fully equipped with depots, locomotives, cars, &c., and two trains are daily running each way. The material for the remaining 131 miles to the eastern base of the Rocky Mountains are on hand, and it is under contract to be done in September.

4th. The net earnings of the sections already finished are several times greater than the gold interest upon the First Mortgage Bonds upon which they are secured. The Government grant of over twenty million acres of land and fifty million dollars in its own bonds practically guarantees it. The fourth of the work is already done, and the track continues to be laid at the rate of two miles a day.

5th. The Union Pacific Railroad bonds can be issued only as the road progresses, and therefore can never be in the market unless they represent a bona fide project.

6th. Their amount is strictly limited by law to a sum equal to what is granted by the U. S. Government, and for which it takes a second lien on its security. This amount upon the first 517 miles west from St. Louis is only \$10,000,000.

7th. The fact that the U. S. Government considers a second lien upon the road a good investment, and that some of the shrewdest railroad builders of the country have already paid in for millions of dollars upon the stock (which is to them a third lien), may well inspire confidence in a first lien.

8th. Although it is not claimed that there can be any better securities than Government bonds, there are parties who consider a first mortgage upon such a property as this the very best security in the world, and who sell their Governments to re-invest in these bonds—thus securing a greater interest.

9th. As the Union Pacific Railroad bonds are offered for the present at 90 cents on the dollar and accrued interest, they are the cheapest security in the market, being over 10 per cent. less than U. S. Stocks.

10th. At the current rate of premium on gold, they pay Over Nine per Cent. Interest.

The daily subscriptions are already large, and they will continue to be received in New York by the Continental National Bank, No. 7 Nassau St. Clark, Dodge & Co., Bankers, 51 Wall St. John J. Cisco & Son, Bankers, No. 33 Wall St.
