The Buckshot War The condition of things at the National Capitol to-day, very forcibly reminds the

spectator of the scenes enacted nearly thirty years ago at the Capital of the State of Pennsylvania ; not only because it is by the same political party, and because the object is the same; but also the leading actor in the present drama is the indentical individual who led the revolutionary forces in the attempt to subvert the government of this State. The whole historical parallel is suggestive and curious, and we cannot resist the temptation of elaborating it somewhat, for the information of our younger readers, and as a remembrancer to the older ones. As in 1860, the Republicans came into power by a most unfortunate and fatal division in the Democratic party ; so in 1836, Joseph Ritner, became Governor of the State of Pennsylvania, because the Demo-

crats divided their strength between Wolf and Muhlenberg. Thus in both instances, the party of the minority came into power, and in both, the same party sought to pro long, its lease by trampling upon rights of the people, by carrying elections at the point of the bayonet, or by treating them as if they had never been held. In both cases weak and inefficient and unexperienced men came into power, and in both they were attended, wrought upon and controlled by the same unscrupulous demagogue. So, too, in Pennsylvania, the Radicals attempted to inaugurate a

More Pestilence and Drought---A Sad Picture---Ex-Governor Dana, of Maine, a Victim, &c., &c.,

(WORLD CORRESPONDENCE.) BUENOS AYRES, S. A., Jan. 29.

The sad story of drought, cholera and war all at once is confirmed by every day's news. There have been some rains, but the drought has been very severe. Animals are dying ; sheep are driven away to seek better pasture, and all kinds of stock are poor and weak. The cholera has now extended over all this and the neighboring republic. In all the towns and through

all the country there is one sad and universal cry of distress. The natives are so much afraid of the cholera that often persons are abandoned by their friends and left to die alone, when they might have lived if they could have had care .--The unfortunate victims are often left in the ranchos, where they lie until some one sets fire to the ranch, or one comes with a horse and lasso and the body is dragged out upon the open pampa. The traveler the formerly sought a tree where he might rest or lodge for the night, but the trees are now avoided, for towards them the all that is left, Across a region of hundred of miles in extent this ruin is spread.

Admission of Alabama.

The following is the bill introduced into thn Rump House on the 10th, by Thad Stevens, from the Destruction Committee. Let it be borne in mind that out of a registry of voters numbering 171,000, less

than 80,000 persons voted, and 10,000 of virtue, of law, and of liberty, which made them against the "constitution." How an election for State officers and a "constitution can be pronounced valid upon a vote embracing at least sixteen thousand less than halt the number of legally registered seeking some obscure hiding place, in the voters, is incomprehensible to everybody but Rump usurpers and conspirators :

WHEREAS, The people of Alabama, in pursuance of the provisions of an act of Congress, entitled 'An act for the more efficient government of the rebel States,' passed March 2, 1867, and the act suppleientary thereto, have framed a Constitution of State government, which is republican form ; and

WHEREAS, At an election held, commencing on the 4th of February, 1868, a large majority of the legal voters of said State voting at said election voted for the adoption of said Constitution ; therefore

The Republicans promised that disabled soldiers should never need support. But we everywhere find disabled soldiers, whose only support is the crutch. The negroes have a Bureau by which

they are cared for. Where is the soldier's, Burean? Inquire at the gate of a cemetery, or at the door of an hospital ! The Rump have disgraced our American

soldiery by assigning them to cowardly daty, namely: That of domineering over an unarmed and unresisting people. 4.5

The Radical papers herald the result in New Hampshire as an evidence of the popularity of General Grant. How so? Harriman last year, without Grant, received over three thousand majority ; this year with Grant, his majority, on a largely increased vote, is reduced to about twentyfour hundred. Left-handed popularity this for General Graut.

A WATERLOO DEFEAT OF THE RUMP. ERS IN ARKANSAS .- The second election held under the reconstruction laws, so called, has resulted more disastrously than the single death from the epidemic in this first one in Alabama. The last one derives unusual significance and importance from the fact that under the last supple mentary act it required a majority of all votes cast to defeat the Constitution, instead, as in the Alabama case, of a majority of the registered votes. Official and private telegrams received at Washington, Official and March, 22d, announce the defeat of the Arkansas Constitution by a large majority.
