AUTUMN PLOWING.

A correspondent sums up the more prominent advantages to be derived from turning over the soil in Autumn, under the following beads:

1. August and September is a good time to turn over bound out sod land, and manure and re-seed it at once to grass, obtaining a crop of hay the following year.

2 October and November is an excellent time to break up sod land for planting the following spring.

3. The weather is then cool and bracing, and the team strong and hearty for the work; while the weather in the spring is more relaxing and team less able; and spring work being always hurrying, it saves time to despatch as much of the plowing as possible during the previous autumn.

4. Sod land, broken up late in autumn, will be quite free from growing grass the following spring; the roots of the late over-turned sward being so generally killed by the immediately succeeding winter that not much grass wil readily start in spring.

5. The frosts of winter disintergrate the seed bed is easily made. The chemical changes and modifications resulting from atmospheric actions during the winter, "develop latent fertility in the upturned furrows, which, together with the mellowing influences, materially increase the crop.

and at GREAT BEND with the through Mail Train on the Eric Raliway, with sleeping car attached, stopping at all the principal stations on that road, and arriving at Buffalo at 6 15 a.m., and at Salamanca at 5.50 a.m.

The Passenger train from Scranton connects at Great Bend with through trains going west and east on Eric Railway, arriving at Buffalo at 12.00 midnight, and at Salamanca at 11.55 p. m.

6. Most kinds of insects are either wholly destroyed, or their depredations materially checked, by late fall plowing, especially the common white grub and the cut worm.

7. Corn stubble land may be plowed late in tie fall, and thus be all ready for very early sowing in -pring, thereby going far to insure a good patch of grass; the roots of the new lished, before the drouths of summer come below

A great deal of land needs deeper plowing than has generally been practiced. Where the subsett is five grained, and unctuous, and quality, deep the wing may be at once resorted to, with decided advantage. Where the subsoil is poorer, the plowing may still be advantageously deepened by degrees, say an inch at each new breaking up. But in by far a majority of cases, deep plowing may be practiced at once-indeed it may be the RULE CORNER OF COURT HOUSE SQUARE, with safety while shallow plowing may be the EXCEPTION. Plow, say nine, ten, eleven the EXCEPTION. Plow, say nine, ten, eleven by availing themselves of steam power, with improver twelve inches in November. The subsoil ed machinery they are prepared to furnish everything in their line, from turned up will grow several shades darker by spring. The frosts and atmospheric influences of winter will mellow the soil. The inorganic elements and all latent fertility will be made more active for benefitting the crop. In spring, spread the manure and plow it in or otherwise work it in or mingle it with the soil to the depth, say of four inches, or a little more or less, and you have the very best attainable condition for realising good crops. Deeper plowing may thus be practiced than would at all time be safe or expedient, if the plowing is delayed till DANIEL WRIGHT & NEPHEW, spring.

GLEANINGS.

The Chinese are said to have fed their stock on cotton seed meal for many centuries

A kind of cattle census taken in Texas gives, in round numbers, five million head. A western gardener asserts that the best

kind of molasses can be manufactured from David Reed, of North Castel, N. Y., ob

tained four hundred beans from one, last season. He wants to know who can beat his If you have bees, save a patch of ground

for tuckwheat for their pasture. If you have no bees, this grain will not come amiss in pancake times.

To remove a screw rusted in the wood. head a poker red hot in the fire, and put it on the top of the screw; and you will get it out easier if you do it when it is warm.

Butter frequently comes into market made up of about equal por ions of white and yellow. It looks bad, and is not as marketable as it would be were each kind presented by

teaspoonful of common sulphur with a little corn meal; wet it with water so as to make a thick paste, and force it down the chickens'

A farmer named Parkhurst, in Fayette Co., Iowa, broke his arm in the spring, when about commencing wheat sowing. His neighbors made a "bee" for his benefit, and put in

50 acres in a single day. To make ginger biscuit, mix one pound of pound of powdered loaf sugar, three-quarter-

flour, balf a pound of fresh butter, half a of an ounce of ground ginger, two eggs; bake five minutes in a quick oven.

FRUIT TREES .- When fruit trees occupy the ground, nothing else should-except very

short grass. Fruitfulness and growth of the tree cannot be expected the same year.

There is no plum that the curculion will not take, though any kind may sometimes escape for one year in one place,

Peach borers will not do much damage when stiff clay is heaped up round the tree a foot high.

All kinds of job printing done at the office of the DEMOCRAT.

FOUND, or cen be found at Lyman & Wells and J. W. Rhoads, Tunkhannock, Penn'a, and ail other dealers, the Ga't ENGLISH SWEENY SPECTO ic LINIMENT. This Liniment stands unrivalled

and is the best, cheapest, most powerful Liniment ever offered to the public, for man or horse. It has been used for many years in England, by

the leading harriers, and they have had the greatest success with it of any liniment ever used for the cure of horses.

Those who have horses that are sweened or lame, have swelled joints, sprains, brusses, old sores, flesh cuts, collar galls, &c, should try this Liniment and they will be convinced that it is superior to all other

known preparations
If it does not give good satisfaction, return the bottle half fuil, and your money will be refunded.
Put up in convenient form, and sold by all Druggists and Storekeepers at 50 cents a bottle.
Don't fail to call for the Great English Sweeney Liniment.

Manhood: How Lost, How Restored. Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure (without medicine

on the radical cure (without medicine of Spermatorrhora, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc. also, Consumption, Epilepsy, and Fits, induced by self-indugence of sexual extravagance.

Price, in a sealed envelope, only 6 cents. The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may ple , certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

This Lecture should be in the hands of every youth and every man in the land.

Sent. under seal, in a plain envelope, to any address, postpaid, on receipt of six cents, or two post stamps. Also, Dr. Culverwell's "Marriage Guide," price 25 cents. Address the Publishers.
