Railroad Meeting .-- A Meeting of the citizens Montrose, Dimock, Springville, and Tunkhannock, convened at Springville, Feb. 13th 1869. Not ne-half of those in attendance could be accomodad in the School House.

The Meeting was called to order, Benjamin Parke, .. was called to the chair. Ira Avery, Esq., of Tunkhannock, and David Wakelee, Esq., of Spring

ville, were appointed Secrataries.
On taking the chair, Mr. Parke made some remarks, stating the object of the meeting, to consult in relation to a Railroad through the central part of Susquehanna County, to connect with the Lehigh Valley Rail Road on the South, and the New York Rail Road at Bingamton, on the North. That the large number convened, evinced that they felt an int in the matter, and argued well for its being ied out. He then spoke of the value of Railroads in the developement and business of the County, and in increasing the price and value of all kinds of property, as proved by the history of the past thirty years. He spoke of this Road as a coning link, meeting at Bingamton the Road to Albany and to Syracuse, and connecting them with the Lehigh Valley and all connecting roads leading south and southwest to New Orleans; predicting that when made, it would carry five times as many passengers, as does the Railroads cast of us,

At the Rattroad Meeting at Springville las week, Mr. Parke stated that he went to Harrisburg n 1828 before any Railroad, for passenger travel was built in Pennsylvania, and resided there till 1860, when the Southern part of this State and the Wes the Mississippi was a net work of Railroads .-That although a single railroad though a town add ed largely to its business, and was of great benefit ret that a junction road added far more to the busi-ness enlargement and growth of a town, than the rstor through road, from its making it a place of topping and transhipment to a greater or less exent, requiring the erection of ware-houses, work

hops, and hotels, &c. and men to attend them.

A glance at the map showing the lines of Railroads North and South of us, will demonstrate the impor tance of the link proposed to be made from Tunk-hannock via Montrose to Binghamton. At Binghimton we meet the new road just opened to Albany, where roads from Canada, Vermont, New Hampthire and Massachusetts-centre draining as it were the whole Northeast of our Continent. We als the whole Northeast of our Continent. We also meet at Binghamton, not only the N.Y. and Erie R. R., but also the Railroad to Oswego on Lake Ontario,—crossing at Syracuse the N.Y. Central, and then stretching its arms, by road and steamboats both North and West. Now when we recollect the distance from Tunkhannock to Bing hamton around the river by Towanda, and then look at the short link across from here, will it not be seen that all who wish a direct line to and from the South, will patronize this route. Then, thous ands will inhale the, pure mountain air of Susque hannah County, and see our flourishing and daily growing towns, with the wild scenery of the Susque-hannah and the classic vale of Wyoming, who other-wise would have been obliged to have traveled further and through a much less interesting country. Musicians, Singers and lovers of music, It was therefore, perhaps well that Mr. Parke in his should bear in mind that the great musical convention, with George F. & F. W. All men have not the advantage of "good an men have not the advantage of good society," as it is called, to school themselves in all its fantastic rules and ceremonies, and if there is any standard of good sense and not upon these artificial regulations. Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitts, Asthus, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform

tion, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have unde it known as a reliable protector against them. White adapted to midder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croips, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be nowided with this antidote for them.

are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Constantion is thought incurable, still great numbers of cases where the discase seemed settled, have been completely cared, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lings and Elmost, the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.
