Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among nost of the races of men it has risen ligher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as air are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral Formation of the provided to it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

Bronchitis is generally cured by taking the
Cherry Pectoral in small and frequent doses.
So generally are its virtues known that we need
not publish the certificates of them here, or do more
than assure the public that its qualities are fully
maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zine, nor any other mineral or poisonons substance whatever, it in nowise injures any patient. The number and importance of its cures in the agne districts, are literally beyond account, and we believe without a parallel in the history of Agne medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed. Unacclimated persons, either resident in, or travelling through minamate localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from forpidity of the Liver into healthy activity.

For Bilious Dispriers and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed. Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

IN MEHOPPEN.

D. McKown respectfully announces to the people H Wyoming County, that he has made a specialty of offeavy Silver Plating, for years. Heavy plaiting is much more economical than light. The more Silver put on the goods, the cheaper it is done in proportion to the amount of Silver used. Spoons and Forks, should not be of less than 16 oz plate—36 or 48 oz. would be far more economical. Yet 4 oz plate is called a good plate by the trade, and poor as it is, but a small portion of all the goods, made come up to this standard. "Ounce plate," in platers language, means the number of ounces of silver, to the gross of table spoons. All other surfaces are estimated by these. For example, des. serts are estimated at 3-4; and ten spoons at 1-2 the surface of table-spoons. Sixteen oz. plate is 16 ozs. of fine silver to the gross of dessert spoons or forks and S oz: to the gross of tea-spoons. This quality of plate will cost, on the azerage, twice as much as 4 oz. and will have four times the amount of silver on it. Thirty-six oz' plate will cost about three times as much as 4 oz, and will contain nine times the amount of silver on it. Thirty-six oz plate will cost about three times as much as 4 oz, and will contain nine times the amount of silver on it. Thirty-six oz plate will cost about three times as much as 4 oz, plate, and will contain 12 times the amount of silver. This plate costs about one-half as much as 4 oz, plate, and will contain 12 times the amount of silver. This plate costs about one-half as much as 4 oz, plate, and will contain the more durable than light, solid silverware. Most of the solid silverware is made much too light to be durable in constant use. The terms "double." "treble" &c. I do not use to designate qualities—there being too much ambignity in their use.

All goods, made by me, having my name and figures denoting the oz, plate, stamped on them, will be guaranteed full weight of silver on first quality of metal on them.

I will plate to order, goods of any thickness of plating desired, from 4 to 48 oz.

Old goods, (1st quality of metal) plated any thickness resurred.
