

HARRISBURG, PA. Monday Evening, December 1, 1862.

AN IMPORTANT DECISION. We print to-day, a very important decision in a case of Habeas Corpus, which came before Judge Pearson on Saturday, for the purpose of testing the legality of certain proceedings of one of the Drafting Commissioners of this State. It will be recollected that this was a case in which the commissioner of Lancaster county had drafted an excess of men over the a certain person who was drafted in excess of quota of his county. John Markley, one of this excess, was brought before his Honor on a writ to test the legality of excess of the draft. The Judge, in a very elaborate opinion, in which the merits of the question were discussed in every particular, decided that the draft over the quota was illegal and void, and that the prisoner be discharged. There is another point in this decision, however, which is important, and which will prove interesting to substitutes. Those of the men thus drawn in excess who accepted the draft, and procured substitutes, it is decided that such substitutes can be held for the service into which they voluntarily entered. The decision in the case of Markley will not affect the case of any substitute. Such substitution was voluntary, and the substitute is regarded, to all intents and purposes, as a volunteer, regularly enlisted and sworn into the service of the country. These points will be better understood by a careful perusal of the decision, to which we now refer our readers as one of the most important opinions that has lately issued from the Judiciary of the State of Pennsylvania.

The case was ably argued before his Honor by Attorney General Meredith and R. A. Lamberton, Esq., for Government, and J. C. Bullitt, Esq., from Philadelphia, and Messrs. Amweg and Dickey, from Lancaster, for the prisoner,

A GOOD SEASON IN WASHINGTON.

Occasionally we read a paragraph to the effect that the wife of this and that official residing in Washington city, is making grand preparations for a gay season the coming winter. Such a perusal forces an involuntary shudder through our frame, and we find on such information our hearts filled with a disgust that no words with which we are acquainted can express with sufficent strength. A gay season in Washington the coming winter, with its environs covered with army hospitals-its largest public buildings converted into lazar-houses—its highways, trenches filled with shivering soldiers-its atmosphere echoing with the groans of the dyingits quickly passing moments marking the very interments of the dead. And yet we are told that the wives of certain pampered officials are preparing for a gay season. If this is so, let them beware of the indignation of the people. A nation suffering all the horrors of war-all the confusion of business panic, all the misery of domestic dissolution, needs no gay season at its capital, and those who attempt to inaugurate such galety will organize and call into power the influence of their own disgrace and death. Let the wives of the high dignitaries of Washington city think of the wives of the soldiers who are shivering in the forts which surround the Federal Capital. Let them think of the women of the loyal states who are toiling in penury and sorrow, while their has bands and sons are risking life and limb in the defence of the government. For such as these there is no "gay seasons," except it is the march of despair or the bivounc of death. Let them remember that the galety of thousands of northern homes is that over which grim misery and gaunt poverty preside. If the Notice is to be given of the time at which ex wives of the dignitaries of Washington think cuses will be heard, and all persons claiming must before the day fixed for the draft, and the control of the potential and of northern homes is that over which grim worthy of the states to which they have been raised more by the political good fortunes and personal successes of their husbands, than by any marked ability or winning attractions of their own-if they are women imbued with true sympathy for the suffering, they will make ted by the laws of the respective states, conthe coming season in Washington one of the cerning whom proof shall be made, or who he objects which consists of charity, good works for the soldier, and noble sacrifices for the glorious cause in which so many women have sacrificed the idols of their hearts, the hope of their lives, the very essence of their own being and happiness. If this is made the "gai-ing and happiness. If this is made the "gai-ty" of Washington, if the season is garnished with good works, if the wives of our rulers with good works, if the wide work with good works, if the wives of our rulers with good works, when the respective classes. After the rolls ar objects which consists of charity, good works will remember that they are only the wives. after all, of plain citizens, and that the fate of the Republic depends upon the virtue as well as the valor of the people, this frivolity of galety will be postponed, while a healthier and a nobler action will distinguish the conduct of those to whom the nation has a right to look for true and patriotic example.

"SAVE ME FROM MY FRIENDS." If ever this adage was verified, we have the illustration in the Patriot and Union of this

A Christian minister receives a handsome present, for keeping silence when wicked men are employing a huge wickedness as an engine for destroying his country.

And now the secret is out! A man, whose principles and habits are well known in this community, comes out over his own signature and acknowledges the deed! And this man, whose undisguised sympathy for secession and whose beastly habits have made him a stench in the nostrils of loyal and decent people, undertakes the defence of said clergyman!

IMPORTANT DECISION.

The Rights of the Citizen under the Draft.

by Judge Pearson on Saturday last, in a case involving certain rights at issue between the Drafting Commissioner of Lancaster county and the quota called for from that county.

vs. Col. Everard Bierer. - Habeas Corpus.

The Commonwealth on the Relation of John Markley, The complainant, John Markley, sued out a writ of habeas corpus directed to Col. Everard Bierer, the commandant at Camp Curtin, avering that he is illegally restrained of his liberty; to which the respondent replied that held him as a militia soldier, regularly drafted, and sworn into the service of the United States. Evidence has been adduced to show that the draft was illegally conducted, and the com-plainant not bound to serve, and the following facts have been established: After the enrollment for Lancaster county was completed and placed in the hands of the Commissioner appointed agreeably to law, and the number of men ascertained which was to be furnished by each township, borough and ward, it appeared that the quota for the county was one thousand six hundred and seventy-seven, and that for Hempfield township, in which the complainant resided, was forty-nine. Regular notice was given of the time and place for hearing excuses and claims for exemption, and all who came forward were heard. The Commissioner at the time and place, and in the manner prescribed by law, proceeded to draw for a few town-ships, and after drawing the number required, continued to take some small additional names from the wheel to make up for any that might be rejected by the mustering officer on account of physical disability. About this time he received orders from the department at Harrisburg to allow any valid excuses which should be made after the draft, the same as if they had been presented before, and an additional list of those entitled to exemption was furnished him. Believing that the number to be excused under these new orders would be very considerable, the Commissioner greatly inproceeded to draw one hundred and ten names proceeded to draw one hundred and ten names from the wheel instead of the forty-nine required. Markley was not one of the forty-nine irst drawn, but was in the over draft. Of the forty-nine first drawn, six were excused on account of being conscientiously scrupulous about bearing arms, on as being under age about bearing arms, one as being under age, three for physical disability, and one a justice of the peace. None of these had appeared be-fore the Commissioner until drafted, with the exception of the justice, whose claim was dis-allowed by the Commissioner, but was after-wards allowed by an order from the Depart-

Thus the whole scheme was broken up, and men were tempted to forbear claiming the exemption until after they knew they had been drafted. This is more especially exemplified in the case of persons claiming to be conscientionally assumptions. claiming to be conscientiously scrupulous against bearing arms, who are exempt by the Constitution, but may be required to pay an equivalent. It would be otherwise were the action of the officer merely irregular. If the proceeding is void in fact, though the process is good on its face, and might justify the officer, yet the party will be discharged on habeas corpus.—Hard 344; 3 Binn 410. The distinction between a void and an irregular proceeding is clearly taken by Gibson, Ch. J., in 1 Watts 66, where it is held on a full examination of authorities, that for the former the party can, and for the latter he cannot be discharged Whether there is or is not jurisdiction may be established by proof, and the want of it is fatal.

The want of conformity to law rendered the proceeding void. To apply these general rules to the present case, creased his over draft in all subsequent draw. we have already stated that we did not consider ings, and on coming to Hempfield township, proceeded to draw one handled and township, the exemptions improperly allowed, out of time, was fatally vicious, although an irregu-

The jurisdiction of the Commissioner ceased when he drew the number prescribed; and an act done without jurisdiction is clearly void, and must be so declared on habeas corpus—1 Dal. 135. Such was the opinion also of Lord Mansfield where the draftopinion also of Lord Mansfield where the drafting Commissioner exceeded his jurisdiction in the case already cited, from 1 Burrows, 637. Nor does this comein conflict with, but is in precise conformity to what is said by Chief Justice Marshall in the case of T.
