DISEASE OF IMPRUDENCE. When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an illtimed sense of shame or the dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, filch his pecuniary substance, keep him triffing month after month, or as long as the smallest fee can be obtained, and in despair leave him with ruined health to sigh over his galling disappointment, or, by the use of the deadly polson, Mercury, hasten the constitu-tional symptoms of this terrible disease, such as affections of the Head, Throat, Nose, Skin, etc. progressing with frightful rapidity till death puts a period to his dreading sufferings by send-ing him to that undiscovered country from
