Ayer's Sarsaparilla S a concentrated extract of Para Sarsaparilla, 80 comb ned with other substances of still greater alterative power as to afford an effective antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflic ed fellow citizens. How completely this compound will do it has been proven by experiment on many of the worst cas is to be found n the following complaints : SCROFULA AND SCROFULOUS COMPLAINTS, ERUP

ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IM PUBITY OF THE SLOOD.

This compound will be found a great prome ter of health, when taken in the spring, to expe the foul humors, which fester, in the blood at that season of the year. By the timely expulsion of them many rankling disorders are hipped in the und. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eraptions and ulcerous sores, through which the system will strive to fid itself of corruptions, if not assisted to do this through the natural channels of the body by an aftera-t ve medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or soles cleanse it when you find it is obstructed an Sluggish in the veins : cleanse it whenever it is oul, and your feelings will tell you when. Ever where no particular disorder is felt, people enjoy better health, and live longer, for cleans ing the blood. Keep the blood healthy, and all is well; but with the pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or over

thiown. During late years the public have been mis-led by large pottles, pretending to give a quart led by large optices, prefer ding to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, it any, Sarsaparilla, but o tou no corrative properties whatever.— Hence, bitter and painful disapointment has tollowed the use of the various extracts of Sar-saparilla, which flood the market, until the name that is in and derived, and has here markets. itsett is justly despised, and has become synony mous with imposition and cheat. Still we call this compound Sarsapari la and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we thick we have ground for believing it has vittues which are irresistible by the ordinary rup of ineither it in the to orre run of the diseases it is intended to cure.
