Medical.

DR. JOHNSON'S BALTIMORE LOCK HOSPITAL.

HAS discovered the most certain, speedy and effectual remedies in the world for DISEASES OF IMPURITUDE.
RELIEF IN SIX TO TWELVE HOURS.
NO MERCURY OR NOXIOUS DRUGS.
A Cure Warranted, or No Charge, in from One to Two Days.
Weakness of the Back, Affections of the Kidneys and Bladder, Involuntary discharges, Impotency, General Debility, Nervousness, Dyspepsia, Langour, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Tremblings, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin. Affections of the Liver, Lungs, Stomach, Bowels, Rheumatism, Disorders arising from the Solitary Habits of Youth, those secret and solitary practices more fatal to the victims than the song of Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.

YOUNG MEN
Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellect, who might otherwise have entered listening Senates with the thunders of eloquence or waited to ecstasy the living Virgo, may call with full confidence.
MARRIAGE
Married Persons, or Young Men, contemplating Marriage, be well aware of physical weakness, organic debility, deformities, &c., speedily cured.
He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a Physician.
ORGANIC WEAKNESS
Immediately Cured, and full vigor restored.
This distressing affection, which renders life miserable and marriage impossible, is the penalty paid by the victims of improper indulgence. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will presume to deny that the most successful treatment is lost sooner by those falling into improper habits than by the present. Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental functions weakened, loss of reproductive power, nervous irritability, dyspepsia, palpitation of the heart, indigestion, constitutional debility, a wasting of the frame, cough, consumption, decay and death.

Grand Rally, in Upper Paxton.

MIDDLEBURG, Sept. 28, 1863.
MR. EDITOR:—A very large and enthusiastic Union meeting was held at the public house of Joseph Lower, in Upper Paxton township, about five miles north of this place, on the night of the 28th inst. It was presided over by Sheriff MANN; Messrs. Jacob Snyder, John S. Lanoue, John Undercover, John Botta, John Lemmon, David Lance and Daniel Seal were the Vice Presidents. Newton C. Frick, John S. Musser and John A. Snyder were the Secretaries. Simon Sallade Bowman, A. B., Dr. B. G. Steever, Philip Moyer, Esq., and Col. James Freeland, very eloquently and patriotically addressed the large assemblage of yeomanry, and completely demonstrated to those that our country still lives," because rightly and efficiently administered during the dark and gloomy hours which this monstrous and bloody slaveholders' rebellion has forced upon us, and that the purpose of the meeting was to continue in official capacity the men who have stood by the nation in her calamitous night, and now when the dawn is approaching it is their duty to have their deeds beheld in the resplendent light of that day which a conquered people shall usher in upon our vision. Many pleasing and patriotic songs were sung by Prof. A. H. Baseler, in his usual happy and original style, making a very delightful interlude in the meeting. There could be no more favorable evening for the great patriotic rally than the 28th of September, moon splendor of the fall, round September moon glowed upon the audience—the braiding and invigorating air that wrapped those old and rock-ribbed hills—the sound of the river flowing in serene and silent majesty along—the very object of the meeting—all touched the heart and stirred the soul—and the spell which duty, patriotism and fealty to country threw about us, was upon each one of the many who had come to hear the truth. The men of the Valley of Mahantango will go on, with their stout and sturdy voices, for Curtis and Agnew and the whole Republican Union Ticket. Some of the civil heroes of this martial age were there, and they left their impress upon the minds of that people, who rejoice in being truly loyal to the Union and unconqueredly free.
A union of lakes and a union of lands—
A union no power can sever;
A union of hearts and a union of hands—
And the American Union forever.
Breathing a fervent hope for the success of the most heroic and noble cause—the cause of Liberty and Humanity. This truly was a grand and successful meeting.
W. G. BROWNLOW.

FALL FASHIONS—Wednesday last was the opening day in New York City for fall fashions. The New York correspondent of the Philadelphia Ledger, in speaking of the fall and winter style of bonnets, says:
"French styles are most in vogue. The high top scull-shaped patterns are (thank the Lord) tabooed, and in their place we have something like the neat and becoming cottage bonnet. Unpretending straw, too, is gradually coming into favor again, to the exclusion of gaudy colors. The profusion of red and scarlet which has been so conspicuous a feature all winter, has been succeeded by violet and vermillion and the darker colors—a change in perfect harmony with an improved taste. A modest display of flowers on the crown of the bonnet (inside) is permitted, but elderly ladies only, solicitous to conceal widows' looks and coming gray hairs are expected to avail themselves of the privilege. Misses' bonnets have a rose or leaf of laurel, or a sprig of myrtle; only that and nothing more. As to prices these are usual takes to wide ranges, according to the depth of Matilda's or Flom's purse, and the liberality of that "brute of a husband," (Mem. Every husband is ipso facto, a "brute.") Suffice it to say that quotations vary from \$6 to \$25@30. The latter, however, are in demand only from ladies whose husbands or sweethearts have army or navy contracts."

An old Yankee, who, when he was told by an English tourist in his country, that the celebration of the Fourth of July would soon become extinct, answered:
"See here, stranger, don't talk that way. I tell you, when the Reurrection Day comes round, the first thing done in the morning will be to read the Declaration of Independence."

General Grant at Vicksburg.
CINCINNATI, Sept. 28.
A dispatch from Vicksburg, of the 21st says that General Grant was still improving and would be able to leave his bed in a few days. A considerable amount of Government cotton was arriving at Vicksburg.

General's Burials and Rosecrans—Editors Cincinnati Commercial:—As some reflections are cast upon General Rosecrans for not having reinterred the gallant Burnside, to state a few facts not known to men who are ignorant of the geography of that country. I claim to know the country occupied by both armies. I traveled through North Georgia as early as 1829, and lodged with Cherokeees, before the whites occupied the country, and before there were good roads of any kind. I have been traveling over that section, and East Tennessee, ever since in every conceivable way, and therefore it is that I know the country.
First. It is one hundred and ten miles from Knoxville to Chattanooga, and it is about forty-five miles from Chattanooga to Lafayette, (in the neighborhood of where the fighting began,) still further south. Burnside, in retreating from Knoxville, burned the bridges behind him, rendering it impossible for Gen. Burnside to reinforce General Rosecrans with any speed; besides, Gen. Burnside had to keep an eye to the East, where, in twenty-four hours, an army of 20,000 men could be poured down upon him from Lynchburg, on the great Virginia and Tennessee Railroad, in full possession of the rebels.

The country in North Georgia is rather a level country, with hills and ridges springing up, at intervals, and separating one valley from another. The streams are sluggish, and the banks usually high. The country is thickly timbered, with a heavy undergrowth, making it rather impassable for the operations of a large army.
For my part, I have every confidence in our ultimate success. Let Rosecrans be reinforced, and he will whip the whole Confederacy. I am not a strategist, but of the cannon and the sword; and let there be no armistice, on sea or land, until all the rebels, front and rear, North and South, are subdued or exterminated. And then let condonation be speedily made out to the surviving leaders in this unholy crusade against civilization. My country is Greek fire for the masses, and hell-fire for the leaders. And none but the loyal should be consulted in the great casting up of these accounts.
W. G. BROWNLOW.

A BRIDE A WIDOW WITHIN NINETY MINUTES.—On the 4th inst., we published the announcement of the marriage of Henry Conklin Vandercil, of Philadelphia, to Minnie, daughter of Gen. Eldridge E. Baldwin, of New York. Also the fact that Mr. Vandercil, within ninety minutes after his marriage, was stricken down by a stroke of lightning. The circumstances of this strange case, which was detailed in the Philadelphia North American:
"At four o'clock yesterday afternoon we were borne to the dust from whence they came the remains of Mr. Henry C. Vandercil, over which sorrowed a young girl of seventeen years, who in two hours passed from the condition of maidenhood to widowhood, and from a young bride to a widow. She was married in New York by Mr. Vandercil, who resided at No. 2, 006 Wallace street, Philadelphia, at a quarter to ten o'clock on Wednesday morning. At twelve o'clock the groom, who was but twenty-one years of age, died from congestion of the heart—literally he expired from the joy of his successful consummation of his sacred nuptial couch. The wedding was, comparatively private, and the young man, apparently in bounding health and unmistakably buoyant spirits, was conversing with his newly made bride, when the fatal spasm seized upon him. Medical aid was summoned, but the pitcher at that moment was forever broken. No skill of human hands could revive the remains, which were borne yesterday from the saddened home, and now lie beneath the sod of the cemetery."

DARING FEAT OF TWO DRUMMER BOYS.—The New Haven Palladium narrates the following:
"Two drummer boys of the Tenth Connecticut Volunteers, while off duty, and while Gillmore was pounding Fort Wagner, determined to discover the effect made upon the fort, borrowed an opera glass and went out a distance from camp to obtain a favorable site to witness operations. They had proceeded about three-quarters of a mile when they came suddenly upon a truly rebel who, upon sight of them, snatched his gun at them, which did not explode, the piece not being capped. One of the boys at that moment thrusting the glass into the case which hung by his side, the rebel thought he was drawing a revolver, and immediately threw down his gun, crying out 'I surrender.' The boys immediately sprang forward, seized his gun, and at a charge bayonet drove the big fellow into camp. When he discovered that the only appearance of a weapon in the boys' possession was an opera glass, he was much incensed, declaring he could not be held as a prisoner of war. This feat was witnessed by Colonel Otis, who was much pleased with the intrepid conduct of the boys."

THE CHRISTIAN COMMISSION.—Through the prompt and effective agencies of the United States Christian Commission, much has already been done to relieve the sufferings of those who have fallen in the late battles near Chattanooga. Over fifty of their delegates have been at work on the field, distributing the beneficent friends at home to our wounded and dying countrymen.
SPEAKING OF THE RECENT TRIUMPH OF THE LOYAL MEN OF MAINE, one of our contemporaries observes:
In connection with this victory it has been very happily discovered that the motto on the coat of arms of Maine has a peculiar significance. "Dipsos"—I direct. It is a good lead she gives in the fall elections. Ohio, Pennsylvania and New York will follow her lead.
THE POSTAGE CENSOR.—It is stated, on the best authority, that out of two millions of dollars of postal currency that have been cancelled and burned, not two hundred were counterfeited. The imitations are said to be poor, and easily detected.
GENESEE SMITH has contributed \$500 in aid of the widows, orphans and other sufferers by the murderous raid of Quantill's band at Lawrence, Kansas.

The British Government is said to be about to increase its force in China by two regiments in consequence of the state of affairs existing in Japan.
In the London corn market on Monday a decline of one shilling took place in wheat. Some authorities report a decline of 3d. in corn at Liverpool.
Parliament has been further prorogued to the 1st of December.

The Times says, in relation to the steam rams in the Mersey "one of these vessels was towed to the Morpeth Dock-basin, on Monday. Her trial trip will take place in a few days."
Report says a new vessel awaits the Florida's crew at Liverpool.
The London Times of the 16th contains an editorial strongly favoring the detection of the rams until they are cleared of suspicion of being intended for the Confederates, stating that "We, Great Britain, would not submit if we were beholden to the red-patch of cruiser or privateer from a neutral port to make war upon our vessels."
The Times of the 15th has an editorial on Canada to the effect that she could no more exist as an independent nation by the side of the United States than a lamb by the side of a wolf. She has to choose between union with us and annexation to the Federal States, and by the choice they make we shall abide. The Times then puts the question to the Canadians, who, it says, have shown an unwillingness to raise a reasonable force to resist invasion—"which course will they choose? To fight freely for their defense, their own lives, or be dragged at the cannon's mouth to feel an alien struggle in the heart of a distant, foreign and unhealthy country."

The Recent Fight in Georgia.

CINCINNATI, Sept. 28.
The Commercial's correspondent gives a less gloomy account of the recent battles in Georgia than the reports furnished by other correspondents. Our loss in a tirdy d baggage, he says, has been greatly exaggerated. All our divisions fought well.
Our army was drawn up around Rosville, on Monday, in good order, awaiting an attack; but the enemy declining to offer a battle, the army fell back, and took up a strong position around Chattanooga. The soldiers were in good spirits. There is no lack of guns, ammunition or provisions.
[SECOND DISPATCH.]
CINCINNATI, Sept. 28.—The Commercial of this morning has a seven column letter descriptive of the Chickamauga battle, from its correspondent, "J. W. L.," giving the most complete report yet published, and no much more encouraging than those previously published.
He says that the army is not whipped. It is not disheartened. It has lost nothing so long as it holds Chattanooga, and nothing fatal to the cause has occurred. If it did retreat from Chickamauga, it has still plenty of food and plenty of ammunition. The trains, with trifling exceptions, are intact. Some artillery gone, say 25 guns; but all that can be sent to advantage are now pointed toward the by no means eagerly curious enemy.
A special dispatch from Nashville to the same paper says that officers from the front say that the New York Herald's account of the battle is unfavorably exaggerated.

Capture of Colonel Trusten Polk.
St. Louis, Sept. 28.
The Democrat's Cairo special dispatch says that Colonel Trusten Polk, formerly United States Senator from Missouri, with his wife and daughter, was captured at Bolivar Landing, Arkansas, on the 18th, and delivered to Gen. Batord, commanding at Helena. Col. Polk was Gen. Holmes' Judge Advocate General, and was with the rebels at New Madrid.

Dr. Gutierrez, the eloquent Scotch Divine, is not a paper preacher, it would seem, from the following remarks, made just before delivering an address in behalf of a benevolent institution: "I see," said the doctor, "by the bills that they have announced that I am to lecture. Now, I never lectured, in the proper sense of the word, but once in all my days. I never said a word, but I never read on the platform. Why, it like a man dancing in chains. It is to me the most disagreeable thing in the world. How can you get a man's heart by reading? The thing is perfectly preposterous. Fancy a man playing his addresses to a lady, and he begins by taking out his spectacles, and wipes them carefully and puts them on his nose, and begins containing a declaration of his sentiments toward her; do you think that lady would ring the bell, if she had one, and order him out of her presence?"
