### DR. JOHNSON'S BALTIMORE LOCK HOSPITAL.

Has discovered the most certain, speedy and effectual remedies in the world for DISEASES OF IMPUDENCE.

WEEKS IN SIX TO TWENTY DAYS.  
NO MERCURY OR NOXIOUS DRUGS.  
A Cure Warranted, or No Charge, in from One to Two Days.

Weakness of the Back, Affections of the Kidneys and Bladder, Involuntary discharges, Impotency, General Debility, nervousness, Dyspepsia, Langor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin. Affections of the Liver, Lungs, Stomach or Bowels—those terrible disorders arising from the Solitary Habits of Youth—those secret and solitary practices more fatal to their victims than the song of Sirens to the Mariner of Ulysses, blighting their most brilliant hopes or satisfactions, rendering marriage, &c., impossible.

**YOUNG MEN**  
Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellect, who might otherwise have entered listening Senates with the thunders of eloquence or walked to ecstasy the living lyre, may call with full confidence.

**MARRIAGE.**  
Married Persons, or Young Men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., speedily cured.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a Physician.

**ORGANIC WEAKNESS**  
Immediately Cured, and full vigor restored.

This distressing affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgence. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived of the elements of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous irritability, dyspepsia, palpitation of the heart, indigestion, constitutional debility, a wasting of the frame, cough, consumption, decay and death.

Office, No. 7 South Frederick Street,  
Left hand side going from Baltimore street, a few doors from the corner. Fall not to observe name and number.

Letters must be paid and contain a stamp. The Doctor's Diplomas hang in his office.

DR. JOHNSON,  
Member of the Royal College of Surgeons, London, graduate from one of the most eminent colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known; many scrofulous affections of the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind were cured immediately.

**TAKE PARTICULAR NOTICE.**  
These are some of the sad and melancholy effects produced by early habits of youth, viz: weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, symptoms of consumption, &c.

**MARRIAGE.**  
The fearful effects on the mind are much to be dreaded—loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self distrust, love of solitude, timidity, &c., are some of the evils produced.

**YOUNG MEN**  
Who have injured themselves by a certain practice indulged in when alone, a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons must, before contemplating

**MARRIAGE.**  
Reflect that a sound mind and body are the most necessary requisites to promote conjugal happiness. Indeed, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with our own.

**DISEASE OF IMPUDENCE.**  
When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an untimely sense of shame or the dread of discovery deters him from applying to those who have education and respectability, can alone bestend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, such his venereal substance, keep him torturing month after month, or as long as the smallest fee can be obtained, and in despair leaving him with ruined health to seek over his scalding discharges, or by the use of the deadly poison, Mercury, hasten the constitutional symptoms of this terrible disease, such as affections of the Head, Throat, Nose, Skin, &c., progressing with frightful rapidity, till death puts a period to his dreadful sufferings by sending him to that undiscovered country from whence no traveler returns.

**ENDORSEMENT OF THE PRESS.**  
The many thousands cured at this institution year after year, and the numerous important surgical operations performed by Dr. Johnson, witnessed by the reporters of the Star, Clipper, and many other papers, notices of which have appeared again and again before the public, bespeak his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

### Daily Telegraph By Telegraph.

Letter from Millersburg.  
MILLERSBURG, Oct. 27, 1863.

Correspondence of the Telegraph.]  
It may be interesting to you to hear how the success of the Union ticket was received in the upper end of the county. Our town rang with enthusiasm and joy on Saturday evening. It was a gala night for the loyal and true. We had a grand torch light procession in honor of the re-election of our gallant and magnanimous Governor, Andrew G. Curtin. Although the moon shone dark and hazy, bright Helios with his silver steed rode up a Curtin sky. The patriotic hearts of our loyal town seemed to droop, every lip whispered disappointment.

The pseudo patriots were exulting, and "dreadful was the din  
Of hissing through the town, thick swarming now  
With complicated serpents."  
Notwithstanding this impending gloom, the efficient committee of arrangements worked zealously for the success of the demonstration. Their labors were not futile. Their hopes no fanciful chimeras, while we and the ladies were decorating the wagon, the quack of the wild geese in the distant air lead our vision to the zenith, when they formed the letters V and Y, victory. This omen augured success. It was an intimation that the "lowly air" if not "everything that creepeth on the earth" is with us.

With the red gold of eventide burned in the occidental sky, and the feet of day were trodding the shores of night, the full round splendor of an October moon burst from the thick strata of clouds, cheering the loyal heart. Smiling with the beaming countenance of admiration and rejoicing that the truth, of which her brightness is a symbol, has been triumphant. Aye, this was a night long to be remembered, an episode that Montgomery should hang up in her pictured halls. Every loyal home in the town was brilliantly illuminated. Lines of living light glared in unpaired splendor along the streets. It was a landscape of light. Flags kissed the moving wind. Loyal inscriptions greeted the eye. Vociferous cheers filled the air. The vestal fires of patriotism burned as brightly in every patriot's heart as it did from his window. Large Union League delegations were here from Lykensstown, Crossroads and Liverpool. All come to mingle their voices in the glad strains of victory.

The procession paraded through the principal streets of the town. The van of the train was its most beautiful feature; it consisted of a large open wagon, gorgeously decorated with green and flowers; from the middle arch floated "Our Country's Flag." To the wagon was attached six white horses, a rider with a torch upon each horse. In the wagon were thirteen beautiful young ladies, smiling and happy, arrayed in white apparel, representing the thirteen original colonies, each young lady bearing the name of the State she symbolized upon her plumaged hat. Aglais, Euphrosyne and Thais were exalted by this happy band. The mountain nymphs would have blushed in their presence. How many a young man's heart beat quick and fast "under his jacket" as he gazed upon these white robed maidens—These graces haunted their handkerchiefs and sang patriotic songs as they passed through the streets, which met a response from the illuminated windows, even many of the ladies whose hands are in the ranks of the "unterrified" could not suppress their joy, and gave vent to their feelings with a wave of the hand and a rippling smile of recognition. Following this was the blazing torches of the Loyal Union League, carrying banners with appropriate inscriptions. Enthusiasm ruled through the corridor of every loyal soul. Zeal for the cause lit up every eye. The torches in the street whispered victory to the glowing tapers in the windows, seeming to catch a brighter glow, taper gleamed victory to taper, until the whole town was encircled with a chain of light and glory. After the procession had paraded through the town, it was formed into a circle in the square, in the centre of which was the "chariot of grace." Dr. B. G. Steveson and William W. Jones, Esq., of Lykensstown, being loudly called for, they ably and eloquently spoke of the recent victories, and of the approaching issues. The sentiment that Abraham Lincoln can and will be our next President was received with "three times three" for Lincoln. The campaign for 1864 has commenced here. The people of the "upper end" are for Abraham. We want the man who, from the time he accepted the legacy of the embezzled Buchanan, namely, the bogus Confederacy, has conducted the affairs of the nation so well and efficiently that the patriotic hopes are almost realized and the rebellion evidently upon its death couch—tortured with the throes that wrung from treason the most horrible imprecations and accursed regrets. We want the man at whom the so-called Democrats are curling, reviling and impugning his motives. We want the hero who has exhibited to the delighted eye of the good, the grandest endeavors that ever swelled a muscle with the exuberance of strength, the broadest and holiest principles that ever leaped from the chambers of the brain. We want the man who fosters the holy principles that have led the van of Christianity and civilization through all past time; the man who stands upon the broad platform of his country; the man who is leading through the red sea of sorrow to the green shores of liberty an oppressed and down-trodden race; a man who dares to act when the cohorts of rebellion are leagued to riot and ruin.

The inevitable Prof. Bassler, and the ladies, sang the "Star Spangled Banner" after which the loyal band was dismissed, all satisfied with the splendid demonstration.

More anon.  
HECTOR.

### FROM WASHINGTON.

LATER FROM MEADE'S ARMY

WASHINGTON, Oct. 27.  
The Star says:—"No information has been received here indicating that the two hostile armies upon the Rappahannock have come into collision again—that is since Saturday last. It turns out that the importance of the cavalry fight on that day, this side of the river, has been greatly magnified. It is the belief of nearly all military men here that no considerable portion of Lee's army have recrossed into Aquia county, as alleged, and his use of lying pontoons across the river in the vicinity of Rappahannock Station was intended to facilitate the cavalry and the inconsiderable supporting infantry he threw north of the stream to support the cavalry."

NAVAL OFFICERS.—Lieut. Commanding S. P. Quichenbush has been ordered to the command of the Pequot; Lieut. Commanding J. M. Parker has been detached from special duty at New York, and ordered to the North Atlantic blockading squadron.

### FROM FORTRESS MONROE.

CONDITION OF AFFAIRS AT MOBILE.

Interesting Extracts from Richmond Papers.

FORTRESS MONROE, Oct. 26.  
A lady, the wife of an officer in the rebel army, who recently arrived in Norfolk, from Mobile, says that city is threatened by the Federal troops, who are near enough to be able to watch the movements of the rebel force in the city. The inhabitants think the city will soon be captured, as there are but few available troops there. Various means are resorted to to keep up the appearance of a larger force than the rebels really have. Even women, it is said, array themselves in the garb of soldiers and parade the outskirts of the city in military appearance. If the city is attacked, it is thought no serious resistance will be made. No restriction in prices.

The Richmond Sentinel of the 23d says: The people decided yesterday, by a large vote—the vote given was 867 to 289—that they deem it inadvisable to place any restriction on prices, and the Virginia Senate has decided that there should be none. The proposition is now dead. We submit to this decision with cheerfulness, though we believe it to be a great mistake.

TALKING TO ESCAPE CONSCRIPTION.  
"It is stated that some who have put substitutes in the army, while they stayed at home to make money, are alarmed at the prospect of the repeal of the substitute law, and having made wherewithal to travel, are trying to run to Europe. We understand that numerous applications have been made for passports—more, probably, than will be granted."

FEDERAL PRISONERS NOT TO BE ALLOWED TO RECEIVE "GREENBACKS."  
"An order has been issued from the War Department in Gen. Winder, who is in charge of prisoners of war at Richmond, instructing him to deliver to the Federal prisoners in his charge all gold sent to him by their friends from the North, but to withhold from them all United States Treasury notes, as the Confederate government recognizes no such money, but he may give them an equivalent in Southern scrip."  
"This is a new mode of swindling Federal prisoners. The Confederate Government recognizes no such money," says the rebel War Department, yet they direct that the "greenback" be retained, and their worthless duplicated scrip be given to our prisoners of war. It is very evident from this order that the rebel authorities recognize the fact that Federal money has a value, and they are, therefore very willing to retain it in their possession and give it to us, their own admitted worthless trash to our badly used soldiers, who have been so unfortunate as to fall in the hands of the "Southern chivalry."

### A FIGHT AT CHEROKEE, ALABAMA.

The Rebels Repulsed with Severe Loss.

CAIRO, Ill., Oct. 26.  
The Memphis Bulletin, of the 24th, says that on the 21st the advance of the Union forces moving eastward from Corinth, met with resistance at Cherokee Station, eighty-nine miles from Tusculuma, Alabama.

Gen. Osterhaus was in the advance and had not moved far when he encountered two brigades of rebel cavalry under General Lee and Forrest, estimated at from 4,000 to 6,000.

The fight lasted for an hour, when the rebels were driven back with severe loss. Our loss was seven killed and thirty-seven wounded, caused chiefly by an unfortunate mistake, by which Lee's cavalry, who were dressed in blue overcoats, were supposed to be a part of our forces.

The rebels are said to have very strong fortifications constructed a mile this side of Tusculuma on the railroad. The prisoners captured report that the enemy expect to make a stout resistance at that place. They say they had 4,000 men there on Tuesday and received reinforcements of 1,009 cavalry on Wednesday. Two thousand more were expected from Gen. Bragg.

**ARE BETTER THAN PILLS!**

They cure all those Ills to which the female system is subjected, with dispatch and a degree of certainty which nothing but a scientifically compounded fluid preparation could reach.

by those who have other preparations, which they desire to palm off upon the strength of the popularity of my Drops, and who recommend their own nostrums, thus appropriating to themselves the constant demand for my Periodical Drops, as a medium for selling something which is worthless and inefficient. But when the Druggist you apply to has not got also enclosed one Dollar to the nearest general wholesale agent, who will return you a bottle by return Express.

You will thus save yourselves trouble and obtain relief from the greatest Female Regulator of the Nineteenth Century.

Over 25,000 Bottles of this medicine have been sold, within the last six months, and every Lady that has used them, but for the nature of the cure, would furnish us with her warm certificate of their efficacy. It takes but one Dollar to make the experiment, and I appeal to those of your sex who are suffering—will you waste away when a single Dollar will give you instant relief.

Prepared solely by Dr. Jno. L. Lyon, Practising Physician.  
Price \$1 per bottle.
