ORGANIC WEAKNESS
Immediately Oned, and full vigor restored.
This distressing affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgence. Young persons are too apt to commit excesses from not being aware of the dreadful conse quences that may ensue. Now, who that un-derstands the subject will pretend to deny that destands the subject will pretend to deny that
the power of procreation is lost sconer by those
falling into improper habits than by the prudent. Besides being deprived the pleasures of
healthy offspring, the most serious and destructive symptoms to boil body and mind arise.
The system becomes deranged, the physical and
mental functions weakened, loss of procreative power, nervous irritability, dyspepsia, palnita-tion of the heart, indigestion, constitutional debility, a wasting of the frame, cough, con-sumption, decay and death.

name and number. Letters must be paid and contain a stamp. The Doctor's Diplomas hang in his office. DR. JOHNSON,

Member of the Royal College of Surgeons, Lon-don, graduate from one of the most eminent colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and else cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind were oured immediately.

TAKE PARTICULAR NOTICE. These are some of the sad and melanchely effects produced by early habits of youth, vis: weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, symptoms of consumption, &c.

MENTALLY.—The fearful effects on the mind

Beflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage: the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with our own.

DISEASE OF IMPRUDENCE. When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of rant and designing pretenders, who, incapable of curing, filch his pecuniary substance, keep him trifling month after month, or as long as the smallest fee can be obtained, and in despair leave him with ruined health to sigh over his galling disappointment, or, by the use of the deadly poison, Mercury, hasten the constitutional symptoms of this terrible disease, such as affections of the Head, Throat, Nose, Skin, etc. progressing with frightful rapidity, till death puts a period to his dreadful sufferings by send-ing him to that undiscovered country from whence no traveller returns

INDORSEMENT OF THE PRESS. The many thousands cured at this inititution year after year, and the numerous important surgical operations performed by Dr. Johnson, witnessed by the reporters of the Sun, Cipper, and many other papers, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.
