MEDICAL.

DR. JOHNSON,

BALTIMORE

LOCK HOSPITAL,

HAS discovered the most certain, speedy and effectual remedies in the world for

DISEASES OF IMPRUDENCE.

RELIEF IN SIX TO TWELVE HOURS.

NO MERCURY OR NOXIOUS DRUGS.

A Cure Warranted, or No Charge, in from One to Two Days.

Weakness of the Back, Affections of the Kidneys and Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Tremblings, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible disorders arising from the Solitary Habits of Youth—those secret and solitary practices more fatal to their victims than the song of Syreus to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.

YOUNG MEN

Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence or waked to ecstasy the living lyre, may call with full confidence.

MARRIAGE.

Married persons, or Young Men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., speedily cured.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a Physician.

ORGANIC WEAKNESS

Immediately cured, and full vigor restored.

This distressing affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgence. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous irritability, dyspepsia, palpitation of the heart, indigestion, constitutional debility, a wasting of the frame, cough, consumption, decay and death.

OFFICE No. 7, SOUTH FREDERICK STREET,

Left hand side going from Baltimore street, a few doors from the corner. Fail not to observe name and number.

Letters must be paid and contain a stamp. The Doctor's Diplomas hang in his office.

DR. JOHNSON,

Member of the Royal College of Surgeons, London, graduate from one of the most eminent colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind were cured immediately.

TAKE PARTICULAR NOTICE.

These are some of the sad and melancholy effects produced by early habits of youth, viz: weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, symptoms of consumption, &c.

MENTALLY.—The fearful effects on the mind are much to be dreaded—loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self distrust, love of solitude, timidity, &c., are some of the evils produced.

YOUNG MEN

Who have injured themselves by a certain practice indulged in when alone, a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons must, before contemplating

MARRIAGE,

Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with our own.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an illtimed sense of shame, or the dread of discovery deters him from applying to those who from education and respectability, can alone befriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, filch his pecuniary substance, keep him trifling month after month, or as long as the smallest fee can be obtained, and in despair leave him with ruined health to sigh over his galling disappointment, or, by the use of the deadly poison, Mercury, hasten the constitutional symptoms of this terrible disease, such as affections of the Head, Throat, Nose, Skin, etc., progressing with frightful rapidity till death puts a period to his dreadful sufferings by sending him to that undiscovered country from whence no traveler returns.

INDORSEMENT OF THE PRESS.

The many thousands cured at this institution year after year, and the numerous important surgical operations performed by Dr. Johnson, witnessed by the reporters of the *Sun*, *Clipper*, and many other papers, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

LYON'S PERIODICAL DROPS,

FOR FEMALES.

DR. JOHN L. LYON'S

FRENCH PERIODICAL DROPS,

THE GREAT

FEMALE REGULATOR,

Are the only known remedy that will successfully and invariably restore and regulate the female system, removing all irregularities, and producing health, vigor and strength.

LYON'S PERIODICAL DROPS

Are a fluid preparation, the only true one of the kind ever discovered in this country, and acts directly on the parts affected, whilst pills and powders can only reach them as they work through sympathy, but not at all direct and positive.

Are you suffering from a constant anxiety for the regular return of nature's prescribed laws?

Give yourself no uneasiness, for Lyon's Periodical Drops, if taken a day or two before the expected period, will positively and invariably regulate its coming, as sure as effect follows cause, as certain as daylight follows darkness.

Are you sick, enfeebled by disease, or unable to bear the labor and danger of increase?

LYON'S PERIODICAL DROPS

Come to you as a blessing, for is not prevention better than cure?

If regularly taken, it is a certain preventive, and will save you much peril and many hours of suffering.

Have you been afflicted for many years with complaints incident to the sex, that have baffled the skill of physicians, and are hurrying you on to an early grave?

LYON'S PERIODICAL DROPS

Are the most reliable regulator ever known, and cure like magic, all those irregularities that have defied the doctor's skill.

Will you waste away with suffering from Leucorrhœa, Prolapsus, Dysmenorrhœa, and a thousand other difficulties, all summed up under the name of suppressed and obstructed nature, when an investment of one dollar in

LYON'S PERIODICAL DROPS

will surely save you.

Do not use the drops when forbidden in the directions, for although a positive cure, and harmless at all other times, they are so powerful and finely calculated to adjust and govern the functions of the sexual organism, that, if taken at improper times, they would produce results contrary to nature, against which all, particularly those who would reproduce, should carefully guard.

LYON'S PERIODICAL DROPS

Cannot harm the most delicate constitution at any time; yet the proprietors wish to guard against its misuse, hoping that a thousand bottles will be used for a good purpose where one is used for an illegitimate one.

LYON'S PERIODICAL DROPS,

the never-failing Female Regulator, is for sale by every Druggist, in the city and country, and do not, if you value your health and wish for a reliable medicine, buy any other. Take no other, but if the Druggist to whom you apply has not got it, make him send and get it for you.

XXXVIIIth Congress---First Session.

SENATE.

WASHINGTON, Jan. 26.

Mr. Bayard (Del.) took the oath required by the resolution passed by the Senate yesterday, and in a short speech announced his intention to retire to private life.

Mr. Richardson (Ill.) also took the oath, after remarking that he did not believe in its policy.

Mr. Brown (Mo.) introduced a bill to build a bridge across the Mississippi river at St. Louis.

Mr. Wilson (Mass.) introduced a bill to print the official reports of the operations of the armies of the United States; referred.—Also a bill securing homesteads for persons in the service of the United States. Referred to the Committee on Public lands.

The Senate took up the resolution to expel Mr. Davis, of Kentucky.

Mr. Howard (Mich.) moved to stike out the word "expelled," and insert "be censured by the Senate," and addressed the Senate at length advocating the motion.

HOUSE OF REPRESENTATIVES.

The House resumed the consideration of the joint resolution amendatory of a joint resolution explanatory of the confiscation act.

Fernando Wood (N. Y.) said it was now proposed to repeal a measure which had prevented a Presidential veto, and which was a part of that act. Such a repeal would be a gross violation of justice and right, so far as it attempted to deprive those heirs of persons attainted with treason, of their real estate. He argued in favor of the appointment of commissioners to Richmond, and said a similar course was pursued in Shay's Rebellion, the Whisky insurrection and the wars with Great Britain and Mexico.

Mr. Wood said the proposition under consideration proposed to accomplish two great wrongs, to repeal a measure which had prevented a Presidential veto of the Confiscation bill, and the other violated the Constitution itself. He said that if the Southern States were within the Union, they were not deprived of the protection of the Constitution, but if without the Union, they were belligerents—a foreign power at war with the United States, and entitled to all the immunities with which the law of nations recognizes. He approved of the doctrines used by Mr. Stevens (Pa.) in his late speech.

The House passed the Senate resolution, expressing the thanks of Congress to Generals Hooker, Meade, Howard, Banks and Burnside, and the officers and men under their respective commands; also, to Commodore Vanderbilt for his gift of the steamer Vanderbilt to the Government.

The House then went into committee of the whole on the deficiency appropriation bill.

Mr. Kernan (N. Y.) offered an amendment that no more money should be expended on capitol and treasury department extensions than shall be necessary to protect said buildings from injury. He enforced the propriety of his amendment by saying we should not put up additional marble columns, while the columns which support the Union are trembling. The appropriation should be postponed to more appropriate time.

Mr. Boutwell (Mass.) said Congress could not adjourn with safety without imposing additional taxation, as it was impossible to raise money on credit for the prosecution of the war. The time has come when Congress should express its judgment not to make appropriation unless based on necessity.

Mr. Kernan's amendment was agreed to—ayes 71, nays 37. The bill was laid aside, to be reported to the House. The Committee proceeded to the consideration of the naval appropriation bill.

Mr. J. C. Allen (Ill.) offered an amendment to pay seamen in gold, or its equivalent, giving as a reason for this that paper has depreciated thirty-three and one-third per cent. There has been a large increase in the prices of articles of consumption since Congress fixed the rate of pay.

Mr. Stevens (Pa.) had never heard of any persons in civil employment, or any soldiers or sailors who objected to receiving the legal money of the Government. He presumed Mr. Allen's motive was to prevent payment to soldiers and sailors in depreciated State bank paper. The gold speculators and bullion gobblers of New York were the only ones who objected.

Mr. Brooks (N. Y.) said no class was more patriotic and deserving than our sailors. If preference was to be given it should be to them. In tempest and in storm, night and day, they not only protect our coast, but are in position to resist aggressions threatened from abroad. Our foreign ministers and consuls are paid an equivalent in gold, and gold is exacted at the custom house for duties, and he argued as a matter of equity that our sailors and soldiers should receive their adequate compensation.

Amos Myers said he observed on several occasions that gentlemen on the other side raise points and arguments, the tendency or object of which is to produce the impression that the majority here were opposed to raising the pay of soldiers and sailors. He was almost ready to suspect the motives of gentlemen who offer such propositions. When the time comes to increase the pay of soldiers and sailors, they would find the loyal majority here taking proper action in the premises.

Mr. J. C. Allen said his amendment was offered in good faith, and he would tell the gentleman from Pa., Mr. Stevens, that no soldiers and sailors in the West are paid in anything else than good money, excepting, perhaps, by agents who are endeavoring to swindle them.

Mr. Strouse, (Penna.,) noticing the remarks of Mr. Myers, said he was quite as loyal as any gentleman on the other side, and would hurl back any insinuation to the contrary. He insisted that the pay of sailors should be increased.

Without further proceedings the committee rose and the House adjourned.

Accident at a Theatre.

NEW YORK, Jan. 26.

A great excitement was caused in the old Bowery Theatre, at 10 o'clock last evening, owing to a portion of the gallery ceiling giving away and falling into the third tier. Some one, more frightened than hurt, raised the cry of fire, whereupon the large audience rushed for the doors, several being knocked down, trampled upon and severely injured.

Capt. Jordan, of the Sixth precinct, with a posse of men, being quickly on the spot, restored order, after which the people returned to their seats, and the evening's performances proceeded without further interruption.

Southern News.

FORTRESS MONROE, Jan. 26.

The Richmond *Enquirer* of Jan. 19th. says: Mr. Hiddle, Secretary of Vice President Stephens, received a dispatch yesterday from Augusta, announcing the sudden and serious illness of Mr. Stephens at his home at Crawfordsville, Ga. He was attacked on Sunday morning. The attack with the known state of his health during the winter creates serious apprehensions.

RUSSELLVILLE, EAST TENNESSEE, Jan. 19th.—A reconnoitering party of the enemy drove in our cavalry pickets, and were in turn driven back. At present both pickets occupy their original position. Brisk artillery firing was heard yesterday in the direction of Jonesville. It is supposed the enemy have attacked Gen. W. E. Jones.

ORANGE, COURT HOUSE, Jan. 18th.—The enemy have recently moved their pickets to Johnson River, advancing two miles.

There is not a word of news from Charleston contained in the Southern papers.

The Rebellion a Failure.

NEW YORK, Jan. 26.

The *Post* says that a gentleman who has spent several years in Macon, Georgia, recently arrived at Newark, N. J. He declares the rebellion an utter failure. Even the leaders see that success is out of the question, while the common people would hail with delight the rescoration of the Federal authority. One of the principal bankers of Macon told him our only hope was that the Federal army will deliver us from our troubles, for without that intervention we must perish. The utmost destitution prevails everywhere and the conscription is being enforced with pitiless energy, including even gray headed men.—Slavery, he says, is dead and this is admitted by nine-tenths of the Southern people.

Three years ago the same man wrote letters asserting, in strong terms, that the South could not be subdued. Now he declares its only hope is in the Northern armies.

The Court Martial at the Old Police Headquarters.

NEW YORK, Jan. 26.

The court martial ordered by General Dix, and which was organized yesterday at the old police head-quarters, continued its session to-day.

The case of Joseph A. Kerrigan, an examining surgeon for the Spinola brigade, was commenced yesterday. Hon. John M'Keeon, acting as counsel for accused, who is charged with passing men physically disqualified into the service, and with enlisting a sailor belonging to the French navy.

A number of witnesses have been examined. This case is still on trial, and will probably not conclude until to-morrow.

From Folly Island.

NEW YORK, Jan. 26.

A letter from Folly Island to the *Commercial*, says rumors are still prevalent among the troops of a meditated expedition towards Savannah. Nothing of a reliable character was known.

There was a general review on the 20th, of all the troops on the island. Seven thousand men were in line, besides two full batteries.

General Leery is in command on Folly Island.

All hopes of reaching Charleston this winter have died away among the troops.

New York Stock Matters.

NEW YORK, Jan. 26.

The loan market offers no new features of importance. At 7 per cent. there is an ample supply of capital seeking temporary investment, and the accumulation continues. We observe, therefore, outside of stock circles, an uneasy case. Some of the brokers, however, are from some obvious causes left less comfortably supplied. The stock market is feverish and irregular. Government's are steady, and railroad bonds firm. Railroad shares are depressed, and there are more sellers than buyers.

From Halifax.

HALIFAX, Jan. 26.

The Canada sailed at 11 o'clock last night for Boston, where she will be due on Wednesday morning. The weather is splendid. The examination of the Chesapeake pirate at St. Johns, New Brunswick, will be resumed to-morrow.

55th Pa. Regiment Going Home.

NEW YORK, Jan. 26.

The steamer Fulton, from Stono Inlet, brings home the 55th Penna. Regiment.

A Son to the Prince of Wales.

The succession to the crown of great Britain is not likely to be lost to the house of Hanover. Thirty years ago the young Princess Victoria was the only direct heir. But she added to the line so bountifully that there is no probability of the succession departing from her direct descendants. She has nine living children and five grand children. The last of these is a son to the Prince of Wales, born on the 8th of January. The future Queen of England thus early gives promise of rivaling her mother-in-law, the reigning Queen, as a mother of children. The birth of her son diminishes the chances of the crown's ever coming to Prince Alfred, the Queen's second son, who is said to be the most intelligent of the family, and whom many would prefer to have as their sovereign, after his mother's death.—*Philadelphia Bulletin.*
