SANFORD'S OPERA HOUSE.—This popular place of resort has once more been opened under the management of its original projector, the inimitable Sam Sanford himself: The troupe engaged by Sanford is one of the best ever organized, being composed of artists of reputation and ability. Indeed, we are constrained to ascribe to some of them the very highest professional ability, blending in their versatility the talents of the dramatist as well as the accomplishments of the vocalist. No more pleasant place of amusement could possibly be afforded than that which Sanford now maintains, and we are heartily glad that the public appreciate his efforts by extending to him the most liberal **sup**port.

-We understand that Sanford has offered to build a theatre, if sufficient money is subscribed. A well conducted theatre would be profitably sustained, and certainly no man is better ditted to take charge of such in estabdishment than Mr. Sanford. We trust that his offer will meet with a practical response from some of our capitalists.

CONSTITUTION LIFE SYRUP HAS PRODUCED
A REVOLUTION IN MEDICINE

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day. Our medicine is peculiar; by it the seat of any disease is directly reached, and the equilibrium restored. Those who have suffered longifrom painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—

ARE INVITED TO USE CONSTITUTION LIFE SYRUP

ARE INVITED TO USE CONSTITUTION LIFE SYRUF. During the past five years we have contended with obstacles and overcome opposition as herculean as were everencountered by any Reformers.

\*\*RAPIDITY OF CURE.\*\*

Some say, "Your cures are too quick," while other, doubt their permanence, and think that disease can only be cured by the "stow recuperative process of Nature."

This is our reply:

In health, the body, like a well-balanced scale, is in a state of Equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.
