THE Lebanon Courier, in an account of the meeting of the Teachers! Institute, held in that town last week, says, in speaking of the address delivered on Friday evening: The address by Rev. J. Walker Jackson, of Harrisburg, in our estimation, was a masterly production. Rich in historic lore, elegant in its style of composition, logical in its arrangement, adorned with thrilling bursts of pathos, of beauty and of solemnity, beaming with the holy fire of patriotism, and permeated through out with a lively Christian sentiment-Oh, it was a rich intellectual feast, upon which memory may sweetly feed for many days to

SANFORD'S OPERA HOUSE.—Great improvements are presented each night. Sanford is determined to make his house a first class place of amusement. The beautiful specimens of painting, &c., are the work of Mr. George Wunderlich, an artist who stands at the head and front of his profession. His panorama now exhibiting throughout the country, viz: "Ten Nights in a Bar Room," "Pilgrim's Progress," "Seven Sisters," etc., are the best evidence of his scientific skill, and warrant the assertion that this scenic artist is making Sanford's Opera House one of the most beautiful establishments in the country. To use his own language, Sanford has given hime a card blanc.

The Opera House has been densely crowded very night since Sanford has returned. - He is having a tremendous "run of custom," and will continue to do a thriving business, as his entertainments are the best ever given in his hall.

MILITARY DAMAGES. The Franklin Repository says:-Messrs. Hiester, Worrall and Weidle, the commissioners appointed under the act of last winter, to appraise military damages in the border counties, have heard all lages in the border counties, have neard an une sense of this meeting. Inter a short and claims for losses sustained by the Stuart Raid sence, the committee reported the following sence of this meeting, and sence the following sence, the committee reported the following sence of this meeting, and sence the following sence, the committee reported the following sence of this meeting. Fulton. These claims have been adjudicated, and those of Franklin and Fulton were reported to the Court of Dauphin county on the 18th inst. The Adams county cases will be reported in a few days. The claims for damages arising from the Militia and the Anderson Cavalry, have not yet been considered, and the losses sustained by the rebel occupation of our county last summer, having occurred after the passage of the law, are not embraced within the duties of the commissioners. The present Legislature will doubtless enlarge their powers so as to embrace this class of claims. The commissioners have discharged their duties with great industry, intelligence and fidelity, and they bear testimony to the honesty of our people as a rule by reporting that attempts at extortion were extremely rare. They estimate that it will require about

CONTINUED SUCCESS.—There appears to be a continued and increasing desire on the part of our citizens to witness the splendid performances of the Star Combination Troupe. Lastnight the hall was again crowded (notwithstanding the other attractions presented at the various places of amusement,) with a fashionable and appreciative audience. The great Irish drama entitled "Colleen Bawn, or the Brides of Garryowen," was repeated. This is a grand piece, and the manner in which it was rendered was also grand. Every character was fully sustained. Miss Fanny Denham, as Anne Chute, played her part in that finished and artistic manner which characterizes all: her efforts. Miss Tyson as Eily O'Connor, Mrs. Jennings as Sheelah Mann, Mr. Jennings as Danny Mann, and Mr. Rouse as Miles Na Coppelcen, played their various parts in fine style, and applause was meted out freely as the piece progressed. The murder in the water cave formed a thrilling scene. The Star Troupe is worthy of patronage, and we are pleased to notice that it is receiving it

This evening the Daughter of the Regiment" and 'Black-eyed Susan" will form the bill of attractions. Go early.

THE PRICE OF DRINKS.—An exchange, after announcing the increase in the price of drinks, says:-This will be sad news to tipplers and topers, but "the rest of mankind" will rather rejoice at it. It will be a serious tax on the genteel drinker, who always calls for the best and never forgets to invite "his friends" who may be with or about him. The tippler, too, who must have his "nips" regularly, with or without the company of his friends, will find this the worst tax which he has yet been called upon to pay, And what will become of the toper-that wretched specimen of humanity who has passed from the class of tipplers into the low grade of a sot? The genteel drinker, will have to make his visits less frequent, and he will have to be more exclusive in the selection of his friends. When he enters a bar room, he will not cast his eyes about to find all the familiar faces, but he will keep his eyes on the bar tender and give you, my friend and benefactiess, for the good spongers" the godby. As to the tippler, he you have accomplished, feeling myself a new will have to do most of his drinking alone. keep his eyes on the bar tender and give will have to do most of his drinking alone, and in taking his glass will fill it a "tinger" of two higher than usual. Indeed, the poores class of tipplers and topers will have to quit the taverns altogether, and betake themselves to the bottle. They must have it and in sufficient quantity too and if they connot afford to get it at ten cents a guzzle then they will patronize the wholesale desire, and bring will patronize the fack and or of the cents and bring.

THE pocket of a young soldier was picked yesterday. He had just received a supply of greenbacks from the paymaster. No doubt here are dozens of pickpockets here, who are intent on relieving the soldiers of their money. Look out for them.

WE have noticed numerous cases of drunk! enness on the streets within the past two or three days. Most of the individuals who were "under the influence" were soldiers, who could not resist the temptation to imbibe. Several fights were caused by the tanglefoot. A number of "frontispieces" were seriously damaged and disfigured.

RECORD Your DEEDS .- Many persons are loubtless ignorant of the law requiring deeds for land, made within the State, to be recorded within six months, or they will be declared void gainst subsequent purchasers or mortgage for value. Ignorance of the law excuseth no man, and therefore owners of property would do well to notice the requirements of the present statute.

THE FURST WALD AND THE DRAFT. -At 8 meeting of the tax-payers of the First Ward, held at the public house of J. Breneman, January 27th, 1864, Mr. Alex. Kosuer was called to the chair. Messrs. R. Hogan, Jr., Geo. Dunn, H. Shellenberger, W. Forster, C. Jauss, John Evans, James Brenheman, Gco. Trullinger, L. Kuenig, Thomas Worley, P. Stucker and John Haller, were elected Vice Presidents, and Messrs. John Zimmerman, A. F. Zimmerman, M. Forster, P. Bernheisel, Jr. and G. W. Hoffman, were elected Secretaries.

The following gentlemen, Messrs. Ambros Taylor, G. F. Weaver, D. L. Fortna, J. Hoover and W., Lukens, were appointed a committee to draft resolutions, expressive of the sense of this meeting, After a short abpayment of a bounty for volunteers to fill the quots of the city in the present draft; and that we will cheerfully pay our portion of the tax which may be levid for that purpose.

Resolved, That we recommend the passage, by the Legislature, of such acts as may be necessary to enable council to carry out the provisions of the ordinance above mentioned.

THE SOLDIER'S RETURN. -The return of the 55th Pennsylvania Regiment of infantry, com-manded by Col. Richard White, brings to property Col. Richard White, brings to smany that will give joy to fathers, sisters, brothers and syeethearts; among our immediate acquaintance, and S. Waterbury and private Chas.

It is unnecessary on our part to soldierly qualities of the captain, mothers, sisters, brothers and sweethearts. We notice among our immediate acquaintance, Captain Isaac S. Waterbury and private Chas. Van Horn. It is unnecessary on our part to praise the soldierly qualities of the captain, or say to those who know him that his heart is in the right place. We have been informed that Van Horn, though quite young, has discharged his duties as a soldier with honor to in this country, and from the fact of having been appointed to a clerkship in the commissary department of his regiment, is evidence of appreciation by those who know his qualities best. We return our kind regards to the officers and mon composing the 55th Regiment, and say generally to those wire read this adver-tisement, that C. L. NEW CUMBERLAND, Pa., Jan. 20, 1864. DEAR LADY:—Mrs. Ball, will you pleas pardon me for the liberty that I have taken in addressing you, a stranger. I feel myself under obligations to you for the benefit I have derived from your medicine and eye salve, having suffered for many years most execuci-ating pain in my head, breast and side, not being free from pain day or night. And I have been doctoring with well-skilled and practical physicians for some years, and all attempts proved a failure. I had given up all attempts proved a failure. I had given up all hopes of recovery and felt fully resigned to await my fate, which foretold an untimely grave. My father being a resident of Siddonsburg, and living quite a distance from you, I did not get to hear of your medicine—that has proved a wonderful cure indeed. Some few months ago I was advised by a lady friend of mine to try, your medicine. She stated to me that she made use of, your medicine and salve which proved a cure. Feeling rather loth at first to try, as I had laid out money time after time, which made the expenses very, heavy time, which made the exponses very heavy and all for naught. But having great confi-dence in my friend's integrity, I was prompted to hearken to her kind entreaty and try for myself. I therefore purchased two dollars and a half worth of your medicine, and, to my atter astonishment, in one week I felt a great change, and in two weeks was entirely free from all pain, and your eye salve perfected a cure for which all other washes and salves proved useless. My eyelids were so much inflamed that I was forced to wear glasses for some years, and now I have no occasion at all to wear the glasses, my eyes being well. I therefore have resolved, dear lady, to let you know that I could not rest content until would return my heartfelt congratulations to

You are at perfect liberty to publish this if you feel so inclined. I close by requesting you to accept my warmest regards, with a hope that for humanity's sake, your life may be prolonged. Success be yours forever in performing the wonderful cure.
Yours with respect.

CONSTITUTION WATER. CONSTITUTION WATER CONSTITUTION WATER

GREAT REMEDY FOR THE

CONSTITUTION, AND THE ONLY KNOWN REMEDY

DIABETES, and DISEASES of the KIDNETS and BLADDER.

CONSTITUTION WATER

Has been pronounced by the Medical Faculty and the public, to be the most wonderful remedy for the permanent cure of all diseases of the STOMACH, LIVER, KIDNEYS and BLADDER that has ever been offered. It is not a MINERAL WATER. It is from experience that CONSTITUTION WATER has emanated, and we now say let no man doubt, when a single bottle has been known to cure diseases which the best medical talent in this country has failed to relieve. A remedy possessing the virtues of Constitution Water cannot be classed under "quack" preparations, as it is now used by the most scientific practitioners in this city. It is only second class physicians that cry down popular remedies, while the before skilled make use of every means to accomplish a cure; and the success of the phy-

remedies, while the better skilled make use of every means to accomplish a cure; and the success of the phy-sician increases as his knowledge of different remedies enables him to produce a cure, while othere fail in the at-tempt. Science is satisfied with the truth. Give Constitution Water a fair trial—we mean you who are under some specialists's care from year to year, and we particularly allude to ladies who are constantly resorting to local treatment, and all sorts of local applications for diseases, with as much chance of success as there would be from local applications to the throat for diseases of the brein

rain. We have been always careful to use language in our ircular that could not shock the most delicate organizawhose diseases no mention has been made, that we have come to the conclusion that if the remedy is capable

simulat be made known. The medicine is put up for the public, and there should be no exceptions.

We would say, Constitution Water is not like a gilded pill, made to suit the eye and taste; it is a medicine in every sense of the term, placed in the hands of the people for their relief, and if taken according to the directions it will, in every case, produce a radical cure. We would say that the directions in regard to diet; etc., relate only to the disease under which they occur.

DIABETES

Is a disease of the stomach and liver, acting through the kidneys, and is, without doubt, the most obstinate disease, except consumption, that affects the human constitution. We have no space for discussing causes, but will state that the effect of the disease is the conversion of the starchy principle (or vegetable portion of the food) into sugar, which stimulates the kidneys to an excessive secretion of water. Many persons suffer from this disease who are ignorant of it; that is, they pass large quantities during the day, and are obliged to get up from one to fifteen or twenty times during the night. No notice is taken of it until their attention is called to the large discharge of water, and often when it is so far advanced as to be beyond the control of ordinary remedies. Another symptom is the great thirst, which, when the disease is fully established, is intolerable—the patient drinks constantly without being staffed; also dryness of the mouth, cracking of the lips, a sweet breath, in the more advanced cases, and alwaysinks from exhaustion.

Conservation Water is without doubt the only known

For these diseases it is truly a sovereign remedy, and oo much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of the Constitution Water will relieve you like magic.

PHYSICIANS Have long since given up the use of buchu, cubebs and juniper in the treatment of those diseases, and only use them for the want of a better remedy.

CONSTITUTION WATER has proved itself equal to the task that has devolved upon it.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful for curing; and we trust that we shell be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

READ! READ!! READ!!! DANVILLE, Pa., June 2, 1862.—Dr. Wm. H. Gregg— Dear Sir: In February, 1861, I was affected with sugar diabetes, and for five months I passed more than two diabetes, and for live months I passed more than two gallons of water in twenty-four hours. I was obliged to get up as often as ten or twelve times during the night, and in five months I lost about fifty pounds in weight. During the month of July, 1861, I procured two bottles of Constitution Water, and in two days after using it Iexperienced relief, and after taking two bottles I was cativoly cured, soon after regaining my usual good health. Yours truly.

Boston Corness, N. Y., Dec. 27, 1861.—Wm. H. Gregg & Co.—Gents: I freely give you liberty to make use of the following certificate of the value of Constitution Water; which I can recommend in the highest manner: My wife was attacked with pain in the shoulders, whole length of the back, and in her limbs, with Pulpitation of the Heart and Irritation of the Bladder. I called a physician, who attended her about three months, when he left her worse than he had found her. I then employed one of the best physicians I could find, who attended her for about ninc months, and while she was under his careshe did not suffer quite as much pain. He finally gave her up, and said "her case was incurable. For," said he, "she has such a combination of complaints that medicine given for one corrules against some other of her difficulties." About this time she commenced the use of Constitution Water, and to our utter astonishment, almost the first dose seemed to have the desired effect; and she kept on improving rapidly under-list treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and weare happy to say that it has produced a permanent cure.
