THE PEOPLE'S CHOICE FOR PRESIDENT, ABRAHAM LINCOLN

HARRISBURG, P.A.

WEDNESDAY EVENING, FEBRUARY 10, 1864

An Interesting Debate. The House was occupied all morning in dis cussing a resolution instructing the special committee appointed to ascertain the damages occasioned by the rebel raid in the Cumberland Valley, to inquire into the loyalty of the applicants for damages. The copperheads seemed to be horror struck that any of the residents in Franklin, Fulton, Cumberland Adams and York counties should be considered disloyal and, opposed the resolution. The

# A Cool Specimen of Legislative Impudence.

reporters have the speeches transcribed.

The Legislature of New York recently pass ed a bill to prevent the agents of other States from recruiting to fill their quotas within the limits of that State. This is certainly the coolest dodge in making capital, that ever was attempted by any set of sharpers in the universe. It is well known that New York has not filled a single quota of troops yet called for from her authorities for the national Government-that New York mobs have made a bloody resistance to the conscription officers-and that at least one-fourth of the troops she has sent to the war were aliens who had just arrived in her ports, while another fourth was of her volunteers by offers which have never vet been realized. Now, with a cool impudence that would suit a hotter locality than Albany, the New York Legislature enacts that the agents of other States would not be permitted to recruit for troops within her limits. If that Legislature had passed a resolution thanking the Pennsylvanians, Jerseyites, Vermonters, and the foreigners who make up the bulk of what are classed as New York volunteers, it would have only done a simple act of justice. As it is, the Legislature of New York on this subject is supremely ridiculous.

Foreign Borrowings.—There is a mania for borrowing at this moment, on the part of the leading European Powers. Austria seeks a loan of \$50,000,000; Denmark, \$7,500,000; the German Confederation, \$8,500,000; Italy, \$40,000,000; Russia, \$40,000,000; Prussia, \$10,500,000; Sweden, \$36.300,000; Spain. \$15,000,000; France, \$60,000,000; and even the little Kingdom of Greece, already over head and ears in debt, desires that some softheaded and kind-hearted capitalist will undraw his purse strings, and hand over \$40,-000, which will suffice for the present, to "maintain the dignity" of her Dano-German boy-king, elected to the purple, in the room of Otho, of Bavaria. The sum total of these monetary requirements is \$267,840,000-a that Europe is in a state of peace?

ALIENS ENLISTED AS SUBSTITUTES.—The Hon. William Whiting, Solicitor of the War Department, has decided that aliens, who are subjects of a foreign government, having volentitled to be discharged from such service by reason of alienage, but may, under the law of nations, be held to perform their engagements without giving the government to which their allegiance is due just cause of complaint.

COPPERHEADISM, irritated by the return home of the brave furloughed veterans of the army, is getting bold in Edgar county, Illinois. A force of some six or seven hundred got together in camp last week, near the town of Paris, determined to make a fight with the returned soldiers. A force was sent from Terre Haute, Ind., and at last accounts the rebel scoundrels were said to have lost courage and dispersed.

THE lower House of the Kentucky Legislature passed a bill recently by a vete of 81 to 10, authorizing the Governor to invest \$600,-\_ 000 in coin, due the State on account of stock in the Southern Bank of Kentucky, in 5-20 bonds, or other National securities. This - is satisfactory evidence of the confidence of the Legislature in the credit of the Nation.

THE New Bedford (Mass.) Standard pub lishes a letter from the West Gulf blockading fleet, which hints that, from the steps in progress, Galveston, Taxas, will soon be in our possession. The writer says the city is at our mercy at any moment: and were it not that many loyal people are residing there it would as money, What good reason is there to prebe destroyed.

Well Done!—The Union men of the Tenth Ward, Brooklyn, Wednesday, elected an Alderman, by six majority. The ward has been hitherto largely Democratic. This suc-- coss secures a Union preponderance in the board.

A rew days ago an Englishman, who was in the Affghan war, and afterwards in the Crimea, where he was one of the "six hundred" who made the charge at Balaklava, enlisted at New Haven, Conn., for "three years or the war." ·

THE total cost of the monitors, built and being built, will be \$22,150,000. Twenty other monitors-light draft-are building at a cost, each, complete, of \$465,000, all designed f r inside work -river and harbor defence.

ILLINOIS, according to Governor Yates, is free from the draft, having always been in excess to her quota.

GOVERNOR BROUGH has issued his proclamation urging the people of Ohio to fill their quota, estimated at 25,000.

What the National Administration Owes to those who Sustain its Policy.

The Administration of Abraham Lincoln has had a duration of almost three years. During all that time, it has required the utmost and the unceasing efforts of its friends in spoken words and active deeds to defend not only the policy, but the personal reputation of those who represent that Administration. It has required these efforts, not because the assaults made upon the President and his Constitutional advisers embodied any degree of truth, but because the men engaged in this crusade were persistent and malignant. Hundreds of men, in localities all over the country, have made bitthe Administration in all its straits, urging subject. its policy to crush rebellion, and defending its position with reference to the cause and the influences of rebellion. These men made these sacrifices in good faith, believing that they were serving the common cause of the country. They asked for no recognition at the House adjourned without taking a vote on the hands of the Administration—they sought no resolution, and we shall lay the full debate bepatronage, and have been content for three fore our readers as soon as our phonographic years to bear contumely and reproach, simply because they were and are inspired with patriotism which knows no lack of confidence or want of devotion to the Government But while these sacrifices have been thus nobly made by the masses of those who support the Administration, both State and National, it cannot be denied, that their wishes have in many instances been disregarded, by keeping in subordinate positions men who are utterly incapacitated for placewho are deficient in patriotism—wanting in honesty, and lacking in the essential arributes of fair dealing with their country in the hour of its peril. The men who create and sustain Administrations, are becoming weary of this trifling. Deep down in the heart of the peocomposed of citizens of States bordering on plc, there is a dissatisfaction at all this disre-New York, who were seduced into the ranks gard of their wishes, which only the most speedy reform can thoroughly remove.-Hence, it is in a spirit of real concern for the reputation of both the State and National Administrations, that we implore the respective heads of both to recognize only such as are known to be its friends and supporters. The confidence of the people is sufficient to render any administration independent. That confidence has been extended to the National Administration for three years, and yet in the face of this, we see daily instances of men being kept in place, who are offensive to the masses of the people-obnoxious to the upholders of our principles—and who are a real injury to the destiny of our country. Only a day or two since, the New York Tribune complained that the Departments at Washington were swarming with employees who are confessedly either absolutely, or secretly the bitter opponents of the Administration on whose bounty they are fed and clothed. But we need not go as far as Washington, to behold a similar humiliating spectacle. Here, in this city, are men who have grown fat off the Administration, who are living indolently on its patronage, and who only exert themselves when hard words are required to be spoken of the men who represent the authority of the Government. The masses, the men who voted the present Administration into power, are not dumb beholders of these transpretty amount, at a time when it is pretended actions. They are beginning to feel and declare themselves on these subjects, not in public meetings, but at the fireside of each, at the work bench and in the field, where

freemen hold their most sacred consultations. -Three years of bitter contest with an open and a secret foe, has taught the National untarily enlisted in the service of the United Administration that compromise or concilia-States as substitutes for drafted men, are not tion is a dream—an idle, vain and delusive expectation. We have tried to conciliate our political opponents—we have shared the offices of trust and honor at our disposal with these men, and in return we have been betrayed whenever the opportunity presented to make capital against our party leaders and our fixed o'clock. principles. Let the Administration, then however late in its career, take warning. Let all false friends be removed from positions within its gift of trust and honor. Let us be true to our ourselves, first, and honest men will respect our course if it is only for its independ-

#### A National Tax on the Circulation of all State Banks. Petitions are being presented to Congress

from various quarters praying that the circu-

lation of all banks chartered by State Legislatures may be taxed to such an extent as to compel them to call in their issues, and use only the national legal tender currency. This is a reform which cannot be too speedily put into operation. By a system known only to the banks, no institution in this Commonwealth pays out its own notes in its own locality. Checks on almost any bank are paid in as many different five dollar bills as are called for on the face of the check, all on different banks, distant from the locality of the banks which issued them, and totally unknown to the persons who are expected to receive them vent these banks from circulating the notes of the Government. The Government is just as solvent as any of these banking companies, so that the bank which refuses thus to contribute to the general success, should be heavily taxed on its own issues to make up for the refusal. Now is the time for Congress to assert its power over the currency of the country. Now is the time for the Federal Government to insist upon its exclusive right

The Lancaster Examiner, edited by ex-Senator Hiestand, and the able organ of the Republican party in that county, is dissatisfied with the appointment of Wiley, the editor of the Inquirer, (the Thug organ of that county,) as a Notary Public. The Examiner states its reason for dissatisfaction in the following plain language:

appointment will give satisfaction to the public or the party; yet we cannot avoid congratulating Mr. Wiley on his better luck, than when he was an applicant for the same position under Gov. Packer. By the way, this Inquirer is a funny machine. Its other principal editor, Mr. Patton, has been made clerk of Common Convenies by the Conveni Councils by the Copperhead majority there. This is riding both nags to some purpose, but, we fear both parties are paying very dear for their whistle

GENERAL HALLECK, it is said, will resign if the Lieutenant-General bill shall be passed, and Grant receive the appointment. This is Negrete, who was repulsed at San Luis Pojust the beginning of the evil effects of the tosi on December 27th with the loss of 2,000 and Grant receive the appointment. This is jealousy to which we lately referred as likely ter social enemies, because they have stood by to result from the action of Congress on this

HEADQUARTERS WEST VIEGINIA, Feb. 9.—Information of high-importance reached our out-posts to-day, and was brought in by a mounted deserter from Gen. Early's command. The deserter says that when he left a rumor was prevalent of the removal, or preparations being made for the immediate removal, of all the Yankee prisoners from the neighborhood of Richmond. Also, that the Richmond authorities had detained the mails, newspapers, &c., going from Richmond to the soldiers in camp.

Capt. Dougherty, of the 18th Virginia Union Infantry, while in command of a scout, in Hampshire county, yesterday, encountered the noted rebel guerrilla Mike Cairn, at the head of his gang, killing the leader, and captured his lieutenant and four men, with horse and equipments, &c.

The encounter took place between Romney

and Morefield, when the guerrillas were beaten and compelled to take to the woods and nountains in all directions for immediate safetv.
