The National Cemetery.

The American people have entered on no enterprise, no work of patriotism, since the struggle for national freedom was made necessary, which reflects so much credit upon their gratitude, veneration and liberality, as the project of gathering the remains of those who fell in defence of the Union at Gettysburg into one common cemetery. This great project of forming a cemetery on the battlefield, is now in such a shape as to need only the liberal support of the people, to render it a complete success. The living are asked to contribute of their material means, that the dead may have a resting place fitting for their immortal deeds and incalculable services. Contributions for such a purpose will of course be lavishly made: but in order that every man may fairly understand the appeal made to his liberality, we trust that the circular on this subject which we print this afternoon will be carefully perused. We commend this great work to the support of every man and woman in the land.

Another Ground for an Attack on Gen. Butler.

Gen. Butler has given rebels and copperheads another ground for attack, and denunciations of him will, no doubt, henceforth ring louder than ever. It is announced that he has "commenced the establishment of a common school system at Norfolk and Fortress Monroe precisely like that of Massachusetts," and that "it will insure the education of hundreds of children." If his vigours mode of dealing with the rebels at New Orleans won for him from Southern traitors and their Northern sympathizers the name of Beast Butler." this last act of his is even worse. Who does not know that education makes "Abolitionists"-and then to adopt the Massachusetts system, too !-"tis too horrible." It is plainly a great "Abolitionizing," anti-rebellion scheme in which the wily Massachusetts Democrat is engaged—one which will stir all rebeldom and copperhead-d m to their lowest and foulest depths. On, ye Vallandighammers! your influence over the masses of the South, which depends on keeping them in ignorance, is gone, unless you can counteract this last fell scheme of the tamer of "she adders."-You must find some worse name than 'Beast Butler," now, for the contriver of this scheme, in order to express your hatred of him:

THE SPECULATIONS IN GOLD. - Schator Sherman's bill, to put an end to the speculations in gold, meets with great favor. It is commended as a measure which will do more to relieve the burdens now bearing so heavily on the people, than any law which Congress could pass. We repeat our condensation of this bill, for the benefit of those interested. It prohibits speculative transactions in gold, ganizations. maks all time sales of specie null and void. and partial payments thereupon reclaimable by suit, and it is made the duty of District Attorneys to prosecute such suits, the money reclaimed going in equal parts to the informer, the District Attorney and the United States Treasury. All checks and drafts not payable at sight, given in such transactions, are made the hands of a third person ignorant of the Hon. A. O. Hiester, void, excepting when they have passed into agreement; but the person making the sale Henry McCormick, may, at any time within the year, bring suit for the recovery of the full amount from the person to whom it was made.

THE PAYMENT OF THE CLAIMS OF DECEASED Soldiers. - Official documents show that during the year 1862, thirteen thousand five hundred claims of deceased and discharged soldiers were settled at the Treasury Department. The number settled during 1863 was forty-five thousand seven hundred; and there remained on hand unsettled on the 1st of January last seventy-four thousand six hundred. By the middle of next August all claims now in the Second Auditor's office, when the necessary evidence can be obtained, will be settled. But as a bill has passed the House giving increased facilities, which will doubtless soon be concurred in by the Senate, the causes of delay will in a great measure be removed.

THE SECRETARY OF WAR made a report to the United States Senate, on Saturday last, in reply to a resolution of the 7th of January, transmitting a list of the army officers of each grade, both regular and volunteer, in and around Washington, drawing compensation, quarters, fuel, &c. It was ordered to be printed. The following is the list:

It is asserted as a positive fact, on the authority of the War Department, that if the cavalry regiments in the field were full, the Treasury and the war would be burdened with 250,000 of this arm. As I have communicated in person with two of your number, and furnished copies of our announcement, &c., it is not necessary to write you at length. Our printed announcement fully presents the purpose and organization of our association. The preservation of the battle-field of Gettysburg is its great purpose. In order to this, prompt and liberal action is urgently essential. Messrs. Hiester and Worrall can explain to you the causes which endanger much of the artificial structures of the field with early obliteration. -These grounds should be the sacred patrimony of the State and the nation. Sad work it be, if they should soon become marred at a defaced. Is it not the patriotic duty of the men of the North, and especially of the citizens of Pennsylvania, to perpetuate and preserve these consecrated memorials of the struggles and triumphs of our brave de-

SETTYSBURG BATTLE-FIELD MEMORIAL ASSOCIA-TION-ANNOUNCEMENT.

The preservation of the battle-field of Get tysburg, with its natural and artificial defences, in the exact form and condition they presented in the battles of the 1st, 2d and 3d days of July last, is the purpose of the Gettysburg Battle-field Memorial Association. The history of its inception and plan is furnished in the accompanying correspondence and pre-liminary organization. An incorporation similar to that of a monument association is contemplated. To accomplish the design of its founders, a fund is to be created by the woluntary subscription by citizens of sums of money, to be divided into shares of \$10, and for which suitable certificates will be issued. The fund thus created will be faithfully devoted to the object, under a management com-posed of gentlemen of well known business character and of public and private worth. What monumental work of art, what column or Mausoleum could furnish a more noble device, or a more fit, expressive, or sacred me morial; than these scenes of immortal strife, which have become historic, and have taken their just position among the great places and events of the world's history, and are destined

To it all eyes turn as to a sacred spot, which should be guardee with religious care, and zealously preserved from disturbance, neglect, or decay or the wasting of the elements. Its every portion, its redoubts, its wondrously built stone descarred by countless bullets—its long lines of earthwork defences—Cemetary Hill, M'-Knight's Hill, Culp's Hill, Granite Spur, Round Top—these have become sacred to all who love the republic and delight to honor its

trival in Washington, from Libby Prison, of a Captain.

It is supposed the prisoners had been engaged upon the work for at least a month. They were missed at roll call, and forthwith troops were dispatched in various directions to capture them. Four were overtaken on the Williamsburg and Hanover Court House road. The others, it is suspected, were se-creted in the neighborhood of Richmond.

The guards were arrested on the belief that they were in collusion with the prisoners, but were afterward released, the subterranean mode of escape having became known.

The paper says that Neal Dow was not among the runaways, but was probably waiting to accompany the next batch.

The deserter above referred to says a large number of his regiment, the Fourteenth Louisiana, are barefoot, and that the daily ration consists of a quarter of pound of meat and one

pint of meal. Among the officers recently escaped from Libby prison, are Colonel Streight, Colonel Tipfen, Major John Henry and Colonel Rodgers, but it is not known yet whether they succeeded in getting clear of the rebel do-

minions. The rations issued to the officers in prison consisted of a quart of rice to sixteen men every eight days, a small piece of corn bread every day to each, about four ounces of very poor fresh meat once a week, and salt and

It is said that Major Harvey Gilmor, of the rebel cavalry, was in command of the expedition. Several members of the Maryland State Legislature, delegates from the western counties, were among the passengers.
