The Failure of an Attempt to Deceive the

People. It is well known that the success which Henry Winter Davis, of Baltimore, Md., has been able, politically, to achieve within the last two years, may be attributable to his supposed support of the policy of the National Administration. He was looked upon as the champion of the measures adopted to suppress rebellion; and in his zeal to show his devotion to the principles embraced in the policy of the administration, Davis went a step or two in advance of Mr. Lincoln. He did this to show that the President was unmistakably right in his course; and for doing so, the people of one of the Congressional Districts in Baltimore re-elected Mr. Davis to Congress. But Mr. Davis had scarcely taken his seat as a Representative, until the base qualities of the politician began to crop out in his action; and now we have him in the character not merely as the opponent of the re-election of Mr. Idncoln, but as the scorner and denouncer of that policy which will make the name of Abraham Lincoln immortal. At a recent election for delegates in Baltimore, Davis played his hand so as to create the inference that that city had cast its vote against the re-election of Mr. Lincoln. He did this most adroitly for a time, but when the people discovered the fraud of the politician they proclaimed their disgust in the most bitter denunciation of the trick-re-endorsing Abraham Lincoln, and avowing their unconditional determination to re-elect him to the Presi-

The example of the fraud sought to be practiced on the preference of the people of Baltimore, by a scurvy politician, should not be lost on the people all over the Union. We have growing out of the charges preferred against warned the people in this State to be on the watch for the same politicians. Let the fraud attempted in Maryland be cooly considered, and let the people then narrowly watch the politicians. In the great ballle to make Abraham Lincoln President for another term, there is no sympathy between the people and the politicians; and therefore UNDER NO CIRCUMSTANCES CAN THE PEOPLE SAPELY TRUST THE POLITICIANS IN THIS BUSINESS.

-In this connection, we might as well remind several of our cotemporaries who have raised to the head of their columns, the name of Henry Winter Davis for the Vice Presidency, in association with that of Mr. Lincoln for the Presidency, that a continuance of the association is an insult to all true and honest men. Hence let Davis be repudiated as false and deceitful—as the tool of the aristocratic influence which has kept treason sympathy alive in the State of Maryland.

Since the above was written and in type, we notice the Union Convention of the State of Maryland has passed, among others, the following resolutions:

Resolved, That the delegates elected by the Convention to the National Convention be and they are hereby in structed to vote for Abraham Lincoln first, last and all the time structed to vote for Abraham Lincoln first, last and at the time.

Resolved, That this Convention fully approves of the proclamation of amnesty of President Lincoln, and regards it as calculated to weaken and destroy the rebellion restore the Union, and give harmony to the country, and make us a great and prosperous nation.

Important Law on the Subject of Boun-

A general bill is pending in the House of Representatives of Pennsylvania which will undoubtedly, in the course of ten days, become a law, legalizing the action of Boards of School Directors, Township Supervisors and Township Commissioners, levying, assessing and collecting tax for the payment of bounties to volunteers, for the purpose of filling their respective quotas under the call of the President for five hundred thousand men.

Local legislation in the matter is unneces sary, as the general act, which is broad and comprehensive, will meet the requirements of the community in this matter.

When the citizens of a township or borough desire a tax to be levied for this purpose, the proper way for them to proceed in the matter will be to have the board of School Directors pass a resolution levying a tax for the said purpose, before the second of March, or as early as possible. The passage of the general act will then legalize their actions.

THE DECLINE OF A TRAITOR. - Not long ago, when the Bank of Pottstown issued its fivedollar notes, James Buchanan was so popular there that his portrait was engraved upon one corner of the bill, and nobody thought of defacing it in the remarkable style that has prevailed since the beginning of the war. A New Judge Advocate says: York banker, who is a curiosity-hunter, has shown us a bundle of thirty-eight of these five-dollar notes, on twenty of which the word "Traitor" is written across Buchanan's forehead; in others the letter "T" is branded; on one the following words appear: "Give him his deserts;" on another is written, "Ye ould divil," and still another bears this inscription: "False to his country and his God, but true to the Democratic party." Some ingenious individuals, at a loss to express their contempt in words, resort to symbols; one has drawn a copperhead snake, wriggling in the mouth of Buchanan; another decorates the head with a cap and bells, and a third decorates the neck within a noose which is attached to a gibbet. These curious methods of indicating contempt are not of a very high order, but they show how Mr. Buchanan is now regarded in that part of Pennsylvania in which he was once so great a favorite.

THE National Union Committee met in Washington yesterday, and issued a call for a National Convention to assemble in Baltimore on the 7th of June, 1864, to nominate candi-United States. A resolution inviting the District of Columbia and the territories to send delegates was also adopted. Of course all the proper time arrives, we will discharge the that this convention will have to do, will be duty faithfully and fearlessly.

The Charges Against the Board of Enroll-ment of the 14th District.

It will be remembered by our readers, that most serious charges of corruption, malfersance, and general dereliction of duty, were preferred against the Board of Enrollment of the 14th District—of which Dauphin county forms a portion. At the time these charges were made, and when an investigation was in progress on the subject, the Tory Organ and the tory press all over the district, resorted to the most strenuous efforts to prejudge the case. The testimony of witnesses examined at the trial; was garbled and then given to the public, with the sole view of creating an outside opinion that might be used against the Board. Never before, in the history of any case requiring investigation, were the parties charged with an offence, more unfairly treated. The Surgeon of the Board, Dr. Charlton, was the target for the medical profession in this city and in the district generally. Physicians, whose age should restrain their passions, but whose spleen and propensity for slander overtop everything like decency and fairness, followed Dr. Charlton like bloodhounds, snarling and barking at his heels, rending him in secret, until some of them were actually rebuked in the families which they visited, and sent like whipped dogs from the presence of those whom they had also attempted to traduce and slander The day may yet dawn, when it will become our most sacred duty to jerk the veil from the hypocritical faces of such as these, and expose them in all their dirty deformity to the disgusted gaze of the community; and when such does become our duty, we promise those concerned, that we will do our work, fearlessly and thoroughly, by pressing a cup of bitterness to their mouths, which they have so often and so cowardly forced to the lips of others. But we are digressing and yet there are those who will understand fully what we have here written.

-Since the evidence in the investigation the Board of Eurollment in this district, was transmitted to the War Department, it has been briefly reviewed and set forth in an opinion by L. C. Turner, Judge Advocate of the Department. In order to enlighten the public with extracts from this opinion, we have applied at the Provost Marshal's offices in this city, of the State and district, for a copy of the same, but for some reason, we have not been able to get a peep at the document. Determined that the people should and slightly keeled off. The main deck, at become acquainted with the tenor of this document, we have gone to considerable trouble to procure at least extracts from the same, in the city of Washington, and we are now able to write, that Judge Advocate Turner completely and emphatically declares that the evidence adduced during the investigation of the charges preferred against the Enrollment Board, failed to sustain a single charge. We quote the precise language of the Judge Advotate:

"That the proofs taken by the Investigating Board failed to support the charges preferred. That said proofs do not implicate positively or inferentially the said Board of Enrollment, or any member thereof, in any fraudulentact or

This is certainly as strong as any man seeking the truth could desire. The Judge Advocate then goes on to state, that the proofs disclose the fact, that certain lawyers, "by false representations and assurances, obtained money from certain enrolled men, the payment of the money generally dependent upon their exemption WHATEVER, THAT THESE LAWYERS HAD ANY COLLUSION OR CON-NECTION OR INTERCOURSE, WITH THE SURGEON OF THE BOARD [DR. CHARLTON.] INDEED, THERE IS POSITIVE PROOF IN ONE IN-STANCE OF THE BOARD REPUDIATING THESE LAWYERS, BY ADVISING A MAN UNDER EXAMINATION TO HAVE NOTH-ING TO DO WITH SUCH PRETENDERS!" Such is the language of the Judge Advocate, after having reviewed the entire testimony taken at this investigation. The fact that the ignorance, credulity, and fears of the men drafted, marked them as the dupes of the professional tricksters who have made it a business to impress people with the idea that they could precure exemption, in the opinion of the Judge Advocate, does not impair the integrity of the enrolling officers, nor can it be used to sully the character of the gentlemen whose duty it became to examine the claims of persons to exemption. But we have men in the district who sought to hold the Board responsible for the acts of these sharpers, among whom one Dr. Crawford, of Juniata county, made himself very prominent in the investigation. In dealing with Crawford and the other physicians in this city and throughout the district, who joined in this crusade, the

"And the fact that men were exempted for special and certified bodily diseases, the —and other physicians are of opinion that such exempted persons are physically competent to perform military duty—does not, of itself, INFUTE FRAD OR PROFESSIONAL INCAPACITY TO THE SURGEON OF THE BOARD.

PROFESSIONAL INCAPACITY TO THE SURGEON OF THE BOARD. It is only evidence that 'doctors disagree.'

"Besides, it will be noted that the Surgeon of the Board exempted for physical disabilities as prescribed by the Surgeon General, while the 'outside physicans expressive geon General, while the 'outside physicans expressive State that they 'never paid particular attention to the regulations issued by the Surgeon General, prescribing causes for exemption.'

"Finally, the voluminous proofs as a whole instead of impairing the official integrity or professional ability of the Board of Envolment, or any member thereof, sustain and forther both."

- What more can the Board of Enrollment want? What more have the people a right to ask? Nothing more in truth and justice, unless it be that the traducers who have followed the Board of Enrollment, be at once compelled to own before an indignant and deceived community, that they have imposed upon its credulity, and indulged in slander merely to gratify political spleen and professional jealousy. Indeed it is high time that those who have taken a license thus to misrepresent men while in the discharge of their sworn duty, be roughly brought to an account for their cowardice and meanness, and handled without gloves as all blackguards and comdates for President and Vice President of the mon slanders deserve. As we wrote in the commencement of this article, whatever part we may have to perform in such a work, when

During the afternoon session of the convention, the following circular was distributed among several of the members. WASHINGTON, D. C., February, 1864.

Sin:—The movements recently made throughout the country to secure the renomination of President Lincoln render necessary some counteraction on the part of those un-conditional friends of the Union who differ from the policy of his Administration.

So long as no efforts were made to forestall the political action of the people, it was both wise and patriotic for all true friends of the Government to devote their influence to the suppression of the rebellion. But when it becomes evident that party machinery and official influence are being used to secure the omena innuence are being used to secure the perpetuation of the present Administration, those who conscientiously believe that the interests of the country and of freedom demand a change in favor of vigor and purity and paionality have no choice but to appeal at once tionality have no choice but to appear at once to the people, before it shall be too late to se-cure a fair discussion of principles. Those in behalf of whom this communica-

tion is made have thoughtfully surveyed the political field, and have arrived at the following conclusions:

ng conclusions:
1. That even were the re-election of Mr. Lincoln desirable, it is practically impossible against the union of influences which will op-

2. That should he be re-elected his manifest tendency toward compromises and temporary expedients of policy will become stronger durng a second term than it has been in the first, and the cause of human liberty and the dignity and honor of the nation suffer proorganicy and nonor of the mation squar pro-portionately, while war may continue to land guish during his whole administration, till the public debt shall become a burden too great

to be borne.

3. That the patronage of the Government, through the necessities of the war, has been so rapidly increased, and to such an enormous extent, and so loosely placed, as to render the application of the "one term principle" absolutely essential to the certain safety of our republican institutions.

4. That we find united in Hon. Salmon P.

er i er i e ar abagga ademo er el e abel e distre el modo: el guite de

ident during the next four years than are combined in any other available candidate; his record clear and unimpeachable, showing him to be a statement of rare ability, and an administrator of the very highest order, while his private tharacter furnishes the surest

obtainable guaranty of economy and purity in the management of public affairs.

5. That the discussion of the Presidential on Mr. Lincoln, has developed a popularity and strength in Mr. Chase unexpected even to his warmest admirers; and, while we are aware that this strength is at present unorganized and in no condition to manifest its real magnitude, we are satisfied that it only needs sys-tematic and faithful efforts to develop it to an extent sufficient to overcome all opposing ob-

stacles.
For these reasons, the friends of Mr. Chase have determined on measures which shall present his claims fairly and at once to the country. A central organization has been effected, which already has its connections in all the States, and the object of which is to enable his friends everywhere most effectually to promote his elevation to the Presidency We wish the hearty co-operation of all those in favor of the speedy restoration of the Union upon the basis of universal freedom, and who lesire an administration of the Government during the first period of its new life, which shall, to the fullest extent, develop the capacity of free institutions, enlarge the resources of the country, diminish the burdens of taxation, elevate the standard of public and private morality, vindicate the honor of the Republic before the world, and in all things make our American nationality the fairest example for imitation which human progress has ever achieved.

If these objects meet your approval, you can render efficient aid by exerting yourself at once to organize your section of the country, and by corresponding with the Chairman of the National Executive Committee, for the purpose of either receiving or imparting in-

formation. Very respectfully,
S. C. POMEROY, Chairman National Executive Committee.
