THE PEOPLE'S CHOICE FOR PRESIDENT, ABRAHAM LINCOLN.

HARRISBURG, PA.

MONDAY EVENING, MARCH 7, 1864.

Maj. General Crawford—The Pennsylva-nia Reserve Corps. We have already referred to the visit of Gen. Crawford, of the Pennsylvania Reserve Corps, to the State Capital, on Saturday. This gallant soldier was received by the authorities with the honor which is his due. It is understood that Gen. Crawford came to Harrisburg to consul. with the authorities here, in reference to the prospects, present and future, of the corps which he is in command—a corps around which now cluster the affections and the interest of the people of the Keystone State. The War Department, for reasons of course known only to the Secretary of War, has announced the purpose, and actually carried into effect, an order to divide and scatter the different regiments of the Reserve Corps, thus placing the men in strange commands-and what is more grievous to these brave fellows, separating them, destroying the prestige of their organization, diminishing the glory which they cherish as belonging to their association beneath the same flag, and blotting them out, as it were, on the page of history! Our friends of the Reserve Corps have for some time been writing to us on this subject, anticipating and deploring the division of the corps to which we allude. Others have written to us since this division has commenced, by detailing and ordering off for service in other divisions of the army, two of the regiments of the Reserves; and if but half is true that our correspondents communicate, the effect has been to demoralize as brave and as gallant a set of men as ever rallied to the appeals of honor or went into battle to defend a glorious cause The men of the Pennsylvania Reserve are already disheartened, if they are not rendered unfit Democrat, but was a firm supporter of the for service by the ruthless breaking up of their organization!

It is hoped that the orders for the division of the Reserve Corps will be re-considered. There is something too glorious, too noble, teo dear, clustering around this organization, to have it broken up now, when its reputation has become so sacred to the great State of Pennsylvania. It must be remembered that this corps was organized independent of the orders of the War Department-that it was the result of a policy to protect the borders of the State—and that in the darkest hour of the Republic it, the Reserve Corps, marched at an opportune moment to the rescue of the Government when its most sanguine friends imagined that its doom of destruction had arrived Surely these facts deserve some considera-

-It is understood that Gov. Curtin is now in correspondence with the War Department on this subject. We trust that he will succeed in securing a continuance of the un broken organization of the Reserve Corps.

The City Election.

The election for city officers, councilmen school directors, and other officials, is fast approaching. The politicians who are anxious to make capital out of a "Democratic victory," are busily engaged in arranging their plans, and in most of the wards have nominated canple without distinction of party, impartially to investigate the merits and the ability of the men thus put forth for their support. We ask the intelligent portion of the citizens of each ward, who have children to educate, who have taxes to pay-and who have the vital interests of the city at heart-carefully to examine the reputation, past and present, of the men who are selected as candidates "to" take charge of the city government for the coming year. After they have done this, we are satisfied thatthe decent, intelligent portion of the community will set about an earnest effort to defeat the men thus nominated by securing the election of competent, respectable citizens to take charge of the education of our children and the operation of the city government.

-The people of each ward, without distinction of party, should at once organize and select men for council, school directors, and other officers, who are known for their qualifications and integrity. The growth and the prosperity of Harrisburg have always been too much retarded by the counsels which prevail in the city government-by the factions and arbitrary course of those whose ridiculous vanity in power has subjected us also to the ridicule and contempt of our neighbors. If we can get men of progress-men of brains-and not a set of petty ward politicians, who are the tools of the leaders of faction-we may hope to see Harrisburg soon occupy the position which her resources and geographical advantage entitle her, of being the third city in the Commonwealth in point of population and prosperity. Let us have Union tickets in every ward—tickets formed of good men—either of our intelligent mechanics or respectable merchants—and the result will be the organization of a city government of which we may all feel proud.

Personal and Political. The Scranton Republican says that disloy alty has cropped out among the commissioners of Luzerne county. The people of Wilkesbarre assembled at the court house on Wednesday evening, the 24th ult., for the purpose of adopting some plan to avoid the draft by paying bounties to volunteers. A committee was appointed to circulate petitions and obtain signatures thereto, asking the Legislature to authorize the county commissioners to pay a bounty of three hundred dollars. to pay a bounty of three hundred dollars, work of the Central railroad across the ChickaThis committee met on the following day, in the manual appointed a sub-committee to wait upon the commissioners and ascertain what action the commissioners and ascertain what action they were prepared to take towards paying bounties to volunteers. The sub-committee immediately proceeded to the performance of the duty of their appointment, and reported as follows: "That Nathan Kocher and Ste

A. Gritman the other commissioner, stated that he was a Democrat; that he was opposed to the war; that he would sooner pay the three hundred dollars for each volunteer to stay at home, and further that he did not believe the North could put down the rebellion."

The following figures exhibit the result of the charter elections in New York, as far as the returns have been received. The vote shows great gains for the Union ticket:

We received last night from our special cor-respondent at Fortress Monroe the Richmond Whig of March 2d, from which we take the following concerning Kilpatrick's great raid: THE YANKEE RAID RICHMOND THREATENED-

FIGHTING AROUND THE CITY—INTERESTING DETAILS: TOWN TEXT SOLID SIZE AND SIZE Our last notice of the movements of the enemy closed with their appearance at Fred-erick's Hall, on the Central railroad, and the approaching of another column toward Char-lottesville. The latter, we learn, were met by our cavalry, under Colonal Caskie, and re-pulsed. At Frederick's Hall they tore up the track for a considerable distance, and it is reliably reported, captured and brought of several of our officers and eight, pieces of ar-tillery stationed there, besides doing consid-erable damage to the remainder by destroying

eranle damage to the reliabilities by destroying the carriages and otherwise rendering it unfit for immediate use.

Leaving Frederick's Hall Monday, they crossed the Central Railroad and divided into two detachments, one moving in the direction of James River Canal, and the other toward Ashland, where it spent Monday night. The former column penetrated yesterday morning to the farm of Hon James A Seddon, Secretary of War, in Goochland county. They burned his barn and stable, and it is reported by an escaped prisoner that his dwelling by an escaped prisoner that his dwelling house was in flames when he left the vicinity. They also burned all the flour and saw mills including the Dover flour mills, the barns and mill of Messrs. Stangard & Merson; destroyed a number of freight and other boats in the lines. The Colonel was at Fortress Monroe The President and Secretary Stanton immediately and did considerable damage to the description of the Colonel was at Fortress Monroe. The President and Secretary Stanton immediately called upon Admiral Dahlgren, to anal, and did considerable damage to the iron works at Manakin. The only damage done to the canal, besides the destruction of the boats, was the cutting of the lock at

The other detachment that came to Ashand was accompanied with a battery of artillery, and appeared on the Brooke Turnpike, about six miles northwest of the city, yesterday morning. They were promptly met and kept in check, and finally handsomely repulsed by a portion of the engineer troops and Col. W. H. Stephens, who manned a few sections of light artillery. A duel ensued, and shots were exchanged for about two hours. The enemy then withdrew in the direction of Mechanicsville, burning the trestle work of the Central railroad across the Chicka-

Ballard, took both having encountered several thousand rebel the horses, and carried off the horses of Mr. 4 troops. Goddin. The latest report we have from this retreating column is that they had halted five or six miles from the city to take some refreshment. They are probably endeavoring to make their escape by way of the White House. We omitted to mention a report

that they saluted Camp Lee with a few shells.

but this lacks confirmation.

The detachment that went to Goochland, according to the statement of an escaped prisoner, included a large body of negroes mount-ed and armed. They seized and brought with hem a considerable number of negroes as they passed through the country, as well as a large number of horses, which were brought into requisition whenever, others were exhausted and gave out. Before leaving the Central railroad, they impressed into service a negro guide, to pilot them to the vicinity of this city, where they intended and expected to arrive last night to effect a junction probably with the column from the direction of Ashland. The negro, however, intentionally or ignorantly piloted them in the wrong di-rection, and they landed in Goochland, as

stated, about daylight yesterday, for which they hung him yesterday afternoon.

It is reported that a detachment from this elumn went to the river at Manakin's Ferry, it is believed, with the intention of crossing, if practicable, and coming down on the south side." Whether they succeeded or not we have not learned. Some of the privates expresse regret at the burning of houses, but said they acted under orders. A negro belonging to Mr. Stanard was captured, and after being with them all day, feigned sickness, and being sent off under guard, three of our pickets galloped up and captured the Yankee and re-

leased the negro.

About three o'olook; yesterday afternoon the enemy advanced towards the city by the Westham or river road, evidently the same force that went to Goochland. They formed into line of battle not far above the city, and from the brisk firing of muskefry heard in that direction about dark it is supposed a fight occurred. The enemy were afterwards reported to have been repulsed. Several prisoners were brought in about eight o'clock last night. Up to the late hour of writing this, we learned

no particulars: State of the Command of General Kilpatrick, celebrated in connec tion with the raid of last spring over very much the identical route. Besides the general destruction of property, one of the principal objects of the raid was evidently the release of the prisoners in this city; but the plan mis-carried by the treachery or ignorence of their negro guide. It is not to be supposed that it would have been successful had it been otherwise. The whole force is estimated at about two large brigades, and, whatever the object, they have won a title to considerable boldness, to say the least of it.

Last night, about a quarter before 11 o'clock, brisk artillery firing was heard in the direction of Meadow Bridge, or Mechanicsville, which continued half an hour. It proceeded, doubtless, from the column that retreated in that direction.

It was reported that a skirmish occurred earlier in the night, on the Westham road; in which the enemy charged Hurley's battalion and the 28th Virginia regiment, who were in advance of the main body, and were repulsed.

We heard of no casualties.

An official communication received last hight expresses the opinion that Meade is advancing against Lee. The same opinion, we learn, is entertained in a high official quarter. If Meade means fight, it may begin today, the weather, permitting, though it may be only a demonstration in favor of the raid on the city.

COLONEL DAHLGREN SAFE.

HevArrives at Fortress Monroe with 100 of His Men.

New York, March 7. The Tribule's correspondence lannounces the safe arrival at Fortress Monroe of Col. Dahlgren and one hundred of his men.

The President and Secretary Stanton immediately called upon Admiral Dahlgran, to convey the glad tidings and congratulate him upon the safety of his gallant son.

We have been enabled to glean the following additional details of General Kilpatrick's raid. From Spottsylvania Court-House the main body proceeded to Newmarket, and thence to Childsburg, where a detachment was dispatched to destroy the bridge on the Richmond, and Fredericksburg Railroad, which was done. Continuing their march, they crossed the North Anna at Beaver Dam, tearing up the track of the Virginia Central tearing up the track of the Virginia Central Railroad, blowing up culverts, burning the station-house, a number of cars, twenty army wagons, several warehouses containing grain, and destroying the water-tanks, telegraph

Pushing on, they advanced to within two miles of the city, where a rebel brigade, stationed behind the fortifications, met them with a sharp fire.

Dismounting a portion of his force a charge was made on foot, thut a destructive fire of musketry forced them to retire.

Gen. Kilpatrick then withdrew to Meadow Bridge, where he encamped, but was soon at ter shelled from this position, and destroying the bridge and railroad, he moved to Ole Church, where he was joined by a portion of Col. Dahlgren's command. From thence to Mechanicsville, White and New Kent Court House, where they met General Butler's

The Attorney General defended the Government and explained the legality of their action. He claimed for the Government the merit of acting from a sense of justice and no other metive. Several speakers denounced the course of

BALTIMORE, March 7.

There are exciting rumors in the streets to-day of an extensive rebel raid on the Chesa-peake, that the steamer Louisians of the Nor-folk line, had been captured by a party of rebels while on her downward way to Fortress Monroe, and had been taken into one of the rivers of the western shore of Virginia.

It was stated the rebels were in armed tugs. As far as can be ascertained this rumor is false. Three other small boats have been captured, one of them the side wheel steamer S. P. Thomas, Capt. Webster, employed as a dispatch steamer between Fortress Monroe and Cherry Stone Inlet. The other two were lugs employed between the same points.

The party making the capture were schooner supposed to have come out of the a schooner supposed to have come out of the Rappahannock, boarded the steamer, and compelled Capt. Webster to give bonds to the amount of \$20,000, and they released him. They stole eleven thousand dollars from the Captain.

Information was yesterday received at the

military headquarters in this city that the wires were cut by raiders on Saturday morning, which was doubtless done by the same party who made the captures.
