

HARRISBURG, PA., THURSDAY EVENING, MARCH 10, 1864. PRICE TWO CENTS.

MEDICAL. DR. JOHNSON, BALTIMORE LOCK HOSPITAL, HAS discovered the most certain, speedy and effectual remedies in the world for DISEASES OF IMPRUDENCE. RELIEF IN SIX TO TWELVE HOURS. NO MERCURY OR NOXIOUS DRUGS. A Cure Warranted, or No Charge, in from One to Two Days.

Weakness of the Back, Affections of the Kidneys and Bladder, Voluntary Discharges, Impotency, Gonorrhoea, Nervousness, Dyspepsia, Laugury, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Trembling, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or Ears, Affections of the Liver, Lungs, Stomach or Bowels—those terrible disorders arising from the Solitary Habits of Youth—those secret and solitary practices most fatal to their victims than the contagion of Syphilis to the Mariners of Ulysses, blighting their most brilliant hopes or anticipating, rendering marriage, &c., impossible.

YOUNG MEN Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellects, who might otherwise have sustained illustrious names with the laurels of eloquence or waited to ecstasy the living lyre, may call with full confidence.

MARRIAGE. Married persons, or Young Men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., speedily cured. He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a Physician.

ORGANIC WEAKNESS. Immediately cured, and full vigor restored. This distressing affliction—the penalty paid by the victims of improper indulgence. Young persons are too apt to consider excesses from not being aware of disease consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived of pleasures of healthily offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental functions weakened, the procreative power, nervous irritability, dyspepsia, palpitation of the heart, indigestion, constitutional debility, a wasting of the frame, cough, consumption, decay and death.

DR. JOHNSON, Member of the Royal College of Surgeons, London, graduate from one of the most eminent colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; and his medicines, with the aid of his hands, have cured many cases of nervousness, with frequent blushing, attended sometimes with derangement of mind, cured immediately.

TAKE PARTICULAR NOTICE. These are some of the sad and melancholy effects produced by early habits of youth, viz: weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, symptoms of consumption, &c.

YOUNG MEN Who have injured themselves by a certain practice indulged in when alone, a habit frequently practiced from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply to me immediately.

MARRIAGE. Reflect that a sound mind and body are the most necessary requisites to promote conjugal happiness. Instead, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with our own.

DISEASE OF IMPRUDENCE. When the neglected and imprudent victim of pleasure finds he has imbibed the seeds of this venereal disease, it is too often happens that an ill-timed sense of shame or the dread of discovery deters him from applying to those who from education and responsibility, can alone afford him relief. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, with his pecuniary substance, keep him trifling month after month, or as long as the smallest fee can be obtained, and in despair leave him with ruined health to sigh over his glaring disappointment, or, by the use of the deadly poison, Mercury, hasten the constitutional symptoms of this terrible disease, such as affections of the Head, Throat, Nose, Skin, &c., pressing with frightful malignity till death puts a period to his dreadful sufferings by sending him to that undiscovered country from whence no traveler returns.

INDORSEMENT OF THE PRESS. The many thousands cured at this institution year after year, and the numerous important surgical operations performed by Dr. Johnson, witnessed by the reporters of the Sun, Copper, and many other papers, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

FROM THE REV. J. NEWTON BROWN, D. D., Editor of the Encyclopedia of Religious Knowledge and Christian Chronology, Philadelphia.

Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

XXXVIIIth Congress—First Session. WASHINGTON, March 9. HOUSE OF REPRESENTATIVES.

THE House passed the Senate bill, constituting Parkesburg, West Virginia, a port of delivery.

MR. KERNAN (N. Y.) offered a preamble setting forth that the law exempts United States bonds from taxation, thus enabling corporations and individuals to withdraw a large amount of personal estate from taxation, and escaping the first share of burdens, which are thrown chiefly on real estate; therefore,

RESOLVED, That the Committee on Ways and Means be instructed to inquire into the expediency of so changing the law as not to exempt such bonds from State and municipal taxation.

THE resolution was adopted. The House passed the bill to regulate dismissals of officers from military and naval service, the bill for protection of overland emigrants, and bill to establish a bureau of military justice.

MR. M'CHUG (Missouri) defended himself. Mr. M'Chug, in reviewing his colleagues, King and Blair, said their attacks upon himself and other radicals were unprovoked, malicious, and supported only by falsehood. He also spoke of them as renegades and turncoats.

THE committee proceeded to consider the bill. Mr. Farnsworth (Ills.), from the Committee on Military Affairs, reported back sundry memorials and resolutions to reimburse soldiers for the clothing lost or destroyed, while on the march or in battle, and asked to be discharged from their consideration, on the ground that the law of July, 1862, authorizes the Secretary of War to furnish clothing to the sick and wounded and other soldiers, who have lost the same by the casualties of war, and therefore no further legislation was necessary.

THE report was recommitted to the Committee on Military Affairs. Mr. Garfield (Ohio), from the Committee on Military Affairs, reported back, with an amendment, the Senate Joint resolution of thanks to Maj. Gen. Thomas and the officers and men under him for their bravery and courage displayed at Chickamauga, and requesting the President to communicate this resolution in suitable terms to the General.

THE amendment provides for thanks jointly to Gen. Rosecrans and Gen. Thomas, and in that form was passed.
