

Daily Telegraph

HARRISBURG, PA.

Monday Afternoon, August 29, 1859.

LARGEST CIRCULATION.—By a recent election of the Harrisburg Post Master, the DAILY TELEGRAPH has the LARGEST CIRCULATION within the delivery of the Post Office, of any Paper, Daily or Weekly, published in this place.

TWO PRESSES FOR SALE.

TWO LARGE ADAM'S PRINTING PRESSES are offered for sale at this Office, at low rates and on accommodating terms. The presses have been and are still used in printing the Daily and Weekly TELEGRAPH, but the increasing circulation of our paper compels us to use more rapid machinery, and have often worked up to 20,000 copies in a single day, and they are both in excellent order, and adapted to steam or hand power. For a country office they would answer all the purposes desired. For particulars address, GEO. BERGNER & CO.

PRESIDENTIAL PROSPECTS.

We concur in opinion with the National Era that unless the anti-Democratic party elect a President in 1860, there will be no election by the people. The number of electoral votes, including Kansas, which will, in all probability, be admitted at the next session of Congress—will be 306, and a majority of this number, necessary to a choice of a President and Vice-President, is 154. The South has 120 electors, and the free states, including Kansas, will number 186 electors. So that the black Democracy cannot succeed unless they can carry every southern state, and northern states enough to make up 34 electors. We subjoin a table of the number of electors belonging to each state, with the aggregate political strength of the free and slave states, respectively.

FREE STATES.—The free states will be entitled to votes in the electoral college as follows:—

Table listing electoral votes for free states: Maine (3), Massachusetts (11), New Hampshire (3), Vermont (3), Rhode Island (4), Connecticut (5), New York (35), New Jersey (7), Pennsylvania (27), Ohio (23), Michigan (6), Indiana (13), Illinois (11), Iowa (3), Wisconsin (5), California (5), Minnesota (3), Oregon (3), Kansas (3), Total (186).

SLAVE STATES.—The slave states will be entitled to votes in the electoral college as follows:—

Table listing electoral votes for slave states: Delaware (3), Maryland (10), Virginia (12), Kentucky (12), Georgia (10), Alabama (7), Mississippi (7), Louisiana (7), Arkansas (7), Tennessee (7), Florida (5), Texas (3), Total (120).

It is only necessary to cast the eye over the above table, to recognize the truth of the remark at the head of this article.—It is impossible that the disorganized factions which still cling to the name of Democracy can, by any combination of interests, manage to elect a President; and the truth is that, even united, as they were in 1856, they are a minority in the country. But they cannot unite. The breeches grow wider every day, and render it more impossible to rally the people under their old standards. There can be no union patched up between the followers of Douglas, with his squatter sovereignty; the followers of Wise, with his slave code; and the followers of Jefferson Davis, with his repeal of the laws which prohibit the African slave trade. The two latter factions may unite cordially, and will do so, as there is no substantial difference between them, but neither can touch Mr. Douglas, with his squatter platform, without exposing themselves to certain defeat by the southern opposition, who will not hesitate to step in and occupy the ultra pro-slavery ground as soon as it shall be vacated by the sham Democracy. Neither can Mr. Douglas come down from his popular sovereignty platform, to that occupied by the Southern politicians, without at once losing the confidence and support of his supporters. Even Mr. Forney, while urging the claims of Mr. Douglas to the Presidency, threatens to desert him if he finches in the support of his principles.

MINNESOTA DEMOCRACY.—The Minnesota Democratic Convention has made the following nominations: For Governor, Geo. L. Becker; for Lieutenant Governor, S. B. Lowry; for Attorney-General, J. B. Brinley; for Treasurer, S. B. Abbe; for Secretary of State, F. Bassett; for Congress 1st District, Chris. Graham; 2d District, J. M. Cravanaugh. The Convention adopted resolutions repudiating the Cass doctrine of expatriation, denouncing the Massachusetts two year's amendment, and the slave trade, and favoring a Home-Stead Bill.

THE Allegheny Agricultural County Fair, for Western Pennsylvania and Ohio, will be held at Pittsburg on the 13th, 14th, 15th and 16th days of September.

ROWDYISM IN BALTIMORE.

The terrorism maintained by the organized rowdies of Baltimore, has given no enviable reputation to the Monumental City. The state of things there existing is disgraceful to the city, and stigma upon our popular institutions. Baltimore has enjoyed for many years a bad eminence in lawlessness, and there the occasional alarming scenes in other cities have their frequent counterparts. In view of recent manifestations of brutality and violence, the following call for a public meeting is published:—

"The undersigned, citizens and business men of Baltimore, in view of the present deplorable condition of affairs in our city, call upon all favorable to the restoration of law and order, the purity of the ballot box, and the protection of legal voters, to assemble with them in mass meeting, at Monument Square, on Monday afternoon, the fifth day of September, at four o'clock, to take into consideration such measures as the present crisis may warrant."

The immediate object of this meeting is to secure an honest administration of affairs at the approaching election. Other objects are to utter a significant protest against the rowdyism which disgraces the city, and the slipshod administration of justice which gives immunity to the flagrant criminality of the baser sort of people. Speaking of these matters the Patriot says:—

We are glad to find the community is aroused in regard to the rule of terror which rowdies and scoundrels are permitted, by the inefficient and worthless of the Criminal Court, to put upon us. The immediate cause and occasion of the assassinations, fights and rows which occur among us is drunkenness, fostered and encouraged by distribution of money among these outlaws by certain parties, for ends of their own, in connection with political nominations. If there existed the proper and wholesome fear of punishment by the officers of the law, by the Court, which ought to try these outlaws, and which, when they were convicted, would not stand in the way of their punishment, we should have no such state of things. Rowdies and outlaws of the very worst sort are now openly engaged in offering political nominations for sale. Unable to accomplish their end by votes, they are determined that force and fast-law shall stand them in stead.

THE LAST MILLION SURRENDERED.

The last bond for a million of dollars, deposited in the Treasury Department by the Sunbury and Erie Railroad Company, for the faithful performance of the stipulations entered into with the State when they purchased the State canals, has been surrendered to that company by order of the Governor. As we previously announced, Messrs. Daugherty and Hague of this place, and Mitchel of Clinton, were appointed a board of viewers to examine the progress of the work between Erie and Warren, on the Western Division, and report whether road was in proper condition. They reported in the affirmative, and consequently the State relinquished the last security in her possession for the completion of the work.

THE SHAKERS.—There are four Shaker Societies in Ohio, numbering one thousand and fifty-nine persons; one in Connecticut, numbering two hundred; two in Maine, numbering one hundred and fifty; two in New Hampshire, numbering five hundred; four in Massachusetts, numbering seven hundred and nine; two in Kentucky, numbering nine hundred; three in New York, numbering one thousand and fifty; making in all eighteen societies, each constituted of several distinct families, or communities, regularly officiated with elders, deacons, care-takers, &c., of both male and female orders, according to their unique custom, and numbering in all some four thousand five hundred members.

SENATOR DOUGLAS has written an article in Harper's Monthly on "The Dividing Line between Federal and Local Authority.—Popular Sovereignty in the Territories." It is an elaborate defence of his ideas upon the question of slavery in the Territories. He contends, as he has always done, that Congress has no authority over the subject, but that it belongs exclusively to the people of the Territories; and, as he has always done, he carefully avoids stating who are the people, and by what means their respective rights are to be determined.

ROPE-WALKING, like whooping cough, is catching. Two boys at Rockport, New York, have learned to do it over the canal at that place, and propose now to walk over Black river, at Watertown, Jefferson county, New York, where it runs through a frightful chasm. This is Young America all over. No Frenchman can introduce anything here as the study of a lifetime, but some Yankee boy can compete with him successfully in sixty days.

JAMES C. PRATT, in a communication to the St. Paul Times, says: "I was at Yellow Medicine during the recent payment of the Upper Sioux. About one hundred of the red men were sheared and dressed in the apparel of white men. Previous to the operation, Superintendent Cullen addressed them through an interpreter, and stated that he wished to have them vote at the next election, and vote the Democratic ticket."

FARTHER POINT, Aug. 28, MIDDNIGHT.

The steamship Indian from Liverpool, with dates to Wednesday the 17th inst., has passed this point on her way to Quebec. The steamers Borussia and North Briton had arrived at Liverpool. At Zurich on the 18th inst., a conference between the Austrian and French plenipotentiaries took place, lasting two hours. A cabinet courier arrived from Paris on that day. A second Austrian plenipotentiary, M. Meyenberg, had not left Zurich for Vienna as reported. The plenipotentiaries had no formal sitting on the 15th and 16th, but were engaged in festivities.

France.

The military fete at Paris on the entry of Napoleon proved to be a very grand affair. The troops were headed by the Emperor, and the display made was most imposing. The Emperor has granted full amnesty to all political offenders. A tedeum took place in Paris on the 16th in honor of the fete. Napoleon, all the plenipotentiaries and members of the federal council were present.

The Paris correspondent of the Daily News asserts that the Zurich conference is at a dead lock. The Emperor Napoleon exhibited symptoms of annoyance at the conduct of the Court of Vienna, and recent articles in the Paris Journal in praise of Kossuth and Garibaldi are attributed to this feeling. The Grand military spectacle which had been prohibited in the Paris theatres, out of consideration for Austria, has been permitted to reappear.

Austria.

The Ministerial Journal of Vienna instates very strongly on the stipulations of Villa Franca being carried out at Paris.

Italy.

The rumored Red Republican movement had been contradicted.

QUEBEC Aug. 19.—The steamship Indian from Liverpool on the 17th inst., arrived at this port this morning. Her papers furnish the following details in addition to the brief summary telegraphed yesterday from Farther Point.

Great Britain.

Lord John Russell said in the house of commons prior to the delivery of the Queen's speech, that Mr. Bruce had been sent to Pekin with a view to the ratification of the treaty with China, and that it was the intention of the government to require the Chinese to fully carry out the conditions of the treaty.

Lord Palmerston, in reply to a question, said it was the express desire of the government to encourage the formation of rifle and artillery corps.

The nomination of Charles Lennox White, as envoy extraordinary to Central America, and the rumored cession of the territory in Honduras to Great Britain, had given rise to the impression that the English government was seeking to strengthen its position in that quarter of the world. Sir William Gore Ouseley is about to be recalled.

The arrangements for the great cricket match in America between the picked players of both countries have been finally completed. The English players will leave England for America on the 7th of September.

Captain Pembert, of the Ship John Fyfe, had been arrested for shooting dead a seaman named John McArthur.

The latest by Telegraph from London to Liverpool.

LONDON, Aug. 17.—A proposal had been made on behalf of Mr. Lever to charter the steamship Great Eastern for a voyage out and home from Great Britain to America. £20,000 is offered.

France.

The triumphal entry into Paris of the army of Italy on the 14th passed off with great eclat. The streets were crowded to excess; all the public buildings and many of the private residences were decorated, and the illuminations in the evening were on the grandest scale. The soldiers bearing the standards taken from the enemy received ovations. The Emperor is said to have been coldly received in the more Democratic parts of Paris.

On Sunday evening a grand banquet was given by the Emperor to the principal chiefs of the army. At the close of the banquet the Emperor made a speech and distributed medals to all who were engaged in the Italian campaign. On the day of the fete the Emperor pardoned upwards of eleven hundred persons who had been sentenced to imprisonment for the commission of various crimes. The Moniteur states that the Emperor has decided on retaining for the present an army of 60,000 men in Lombardy. Several of the corps which had very highly distinguished themselves in the campaign could not be represented at the entree of the troops. Lille is to be made the head quarters of the grand military command, with the Marshalls of France at the head.

LATEST.

PARIS, August 17.—The Moniteur of to-day contains an imperial decree granting a full and entire amnesty to all persons sentenced for political offences, and who have been the object of any measures taken for the public security.

The ministerial crisis is not yet over. It was reported that the new constitution will be characterized by the principle of decentralization by the re-establishment of representing provinces by prerogatives given by the aristocracy, and lastly by a catholic spirit.

Italy.

Garibaldi has accepted the command of all the forces in Central Italy. He had arrived at Leghorn.

France.

The accounts from the vineyards are unfavorable.

Milan.

On the 14th the municipality inaugurated the statue of Napoleon, by Canova, in the place Breera, in the presence of Marshal Vaillant, the Sardinian authorities and a large concourse of people. In the Tuscan National Assembly, Deputy Gliner proposed that the Assembly declare the dynasty of the house of Lorraine impossible in Tuscany. It was unanimously supported by the representatives, but the discussion was postponed.

It is reported, that the French Government had addressed a dispatch to the great powers declaring that France will not assist the self-elected Princes to return to their dominions by force, nor will she permit Austria or any other power to afford them military aid for that purpose. The elections at Modena have been followed by admirable order.

Prussia.

The death of the King of Prussia was looked for hourly. All the Princes and Ministers have been recalled. No attempt was made to conceal from the public the near approach of his death.

Effect of the Aurora Borealis on the Magnetic Telegraph Wires.

New York, August 29.

The Superintendent of the Canadian Telegraph Company's lines telegraphs as follows in relation to the effect of the Aurora Borealis last night:—"I never, in an experience of fifteen years in working telegraph lines, witnessed anything like the extraordinary effect of the Aurora Borealis between Quebec and Farther Point last night. The line was in most perfect order and well skilled operators worked incessantly from eight o'clock last evening till one o'clock this morning to get over in an intelligible form about four hundred words of the report per steamer Indian, for the Associated Press, and at the latter hour so completely were the wires under the influence of the Aurora Borealis, that it was found utterly impossible to communicate between the telegraph stations and the line had to be closed. The same difficulty prevailed as far South as Washington."
