AYER'S SABSAPARILLA

AYFIR'S SARSAPARILLA

A compound remedy, in which we have labered to produce the most effectual alterative that can be made. It is a personnially extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford in effective autidate for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this class of our afflicted follow citisens. How completely this compound will so it has been proven by experiment on many of the worst cases to be found of the following complaints:

the verdict which has given this instrument so wide and enviable a reputation.

This Machine is conceived on a principle estimate oscionati, being specially and admirably adapted to the most perfect work on every kind of material; and, having been subjected to a three years test of the most searching character by Families, and in various branches of Manufacture, with distinguished success, it is believed, that, in all the great, points requisite to a complete and practical Sewing Machine, it cannot be approached in excellence. THE LOCK STITCH.

Among the unjoubted advantages it possesses overal others; may be a much the following:

1. Its aimplicity of construction, and consequent freedom from derangiment and need of repairs.

2. Its unexampled rapidity and ease of operation.

3. Its unexampled rapidity and ease of operation.

4. The great variety of purposes to which it can be applied, which can be achieved by no other mechanical means. And,

5. The pre-eminent skurry and durability of the work.

Full instruction for operating the Machine is given to purchasers gratuitously at the sales rooms. When the Machine is sent sowedistance, so that personal instruction is inconvenient, a card of directions is sent, which are a sufficient guide. The mochanism, however, is so simple, and the arrangement so easy, that no difficulty need occur. Many ladies have the Machine sent to their residences after having received a half hour's instruction any future difficulties are readily surmounted, and then practice alone makes perfect in the use of this as any, thing else. Domestics that children of twelve years of age readily become proficient in its use.

Our Office is removed to Mr. KEIT's Daguerrean Rooms, corner of Third and Market streets, where the machines can be seen in operation.
