PROF. WOOD: Thee will please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chront disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I having not been able to obtain stuff for caps, neither have I been able to do them up, in consequence or which my head has suffered extremely from cold. This induces me to ray Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have taithfully followed the directions and the bald spot is now covered with hair thick and black, though short; it is also eoming in all over my head. Prov. O. J. Wood: Dear Sir:—In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair, from a cause unknown to me, commenced filling off very. tapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely berth of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored; I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1867, your kestorative was recommended to me by a struggist, as being the most reliable Hair Resterative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time, I have used seven dollars' worth of your Restorative, and as a result, have a rich coat of very soft black hair, which no money can buy.

As a mark of my gratitude for your labor and skill in the production of so weaderful an article, I have recommended its use to many of my friends and acquaintances, who, I am happy to inform you, are using it with like effect.

IMPURE BLOOD!

The blood is the life! and when any foreign or unhealthy matter gets mixed with it, it is once distributed to every organ of the body. Every nerve feels the poison, and all the vital organs quickly complain. The stomach will not digest the food perfectly. The liver ceases to secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feeble. The lungs be come clogged with the poisonous matter; hence a cough—and all from a slight impurity of the fountsin-head of life—the Blo d! As if you had thrown some earth, for instance, in a pure spring, from which ran a tiny rivulet. In a few minutes the whole course of the stream be, comes disturbed and discolored. Asquickly does impure blood fly to every part, and leave the sting behind. All the passages become obstructed, and unless the obstruction is removed, the lamp of life soon dies out.

These pills not only purify the blood, but regenerate all the secretions of the body, they are, therefore, unrivalled as a

CURE FOR BILIOUS DISEASES,

Liver Complaint, Sick Headache, &c. This Anti-Billou Medicine expels from the blood the hidden seeds of discase, and renders all the fluids and secretions pure and fluent, clearing and recuscitating the vital organs. Pleasant indeed, is it to us, that we are able to place within your reach, a medicine like the "Movarian Harse Prize," that will passificetly to the afflicted parts, through the bir od and fluids of the body, and cause the sufferer to brighten with the flush of beauty and health.
