"We see an advertisement in your column of Mrs. Winslow's Soothing Syrup Now we never said a word in favor of a patent medicine before in our life, but we feel compelled to say to our readers, that this is no humbug—we have tried it, and know it to be all it claims. It is, probably, one of the most successful medicines of the day, because it is one of the best. And those of your readers who have babies can't do better than to lay a supply.

We call the attention of our readers to an article advertised in another column, called Brood Foddi is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is food for the blood, already prepared for absorption; pleasant to the taste and natural in action, and what one gains ne rotains. Let all those, then, who are suffering from poverty, impurity or deficiency of blood, and consequently with some chronic disease or aliment, tate of this Brood Fodd and be restored to health. We notice that our Druggists have received a supply of this article, and also of the world-renowned Dr. Earon's In. MANTILE CORDIAL, which every mother should have. It is said to contain no paregorie or opiate of any kind whatever, and of course must be invaluable for all infantite complaints. It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.
