Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure. This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Borrhave. Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tradition of its value. It is now offered to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of disspation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

And testimonials, new, and almost without number, might be given from ladies and gentlemen in all grades of society, whose united testimony none could resist, that Prof. Wood's Hair Restorative will restore the baid and gray, and preserve the bair of the youth to old age, in all six youthful beauty.

BATILE CREEK, Mich., Dec. 21, 1860.

PROF. WOOD: Thee will please socopts aline to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I having not been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Haff Restorative about the directions and the baid spot is now covered with hair thick and black, though short; it is also soming in all over my head. Feeling coindent that another large bottle would restore, it entirely and permanently, I feel anxious to persevere in its use, and being destitate of means to purchase more, I would ask these if thee wouldst not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the roward is to those that are kind to the widow and fatherless."

Liconer, O. J. Wood: Dear Sir .—In the latter part of the

kind to the widow and fatheriess."

Thy friend,

SUSANNAH KIRBY.

LIGONIER, Noble Co., Indiana, Feb. 6th, 1859.

PROF. O. J. Wood: Dear Sir:—In the latter part of the year 1852, while attending the Easte and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months; the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more initimate acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more initimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857; your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great gatifaction that it was producing the desired effect. Since that time, I have used seven dollars' worth of your Restorative, and as a result, have a rich coat of the part time.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

An aperient and Ston achie preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and it e United states, and prescribed in their tractice.

Sanctioned by the highes: Medical Authorities, ooth in Europe and it e United states, at d prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maindes in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emancipation, Constipation, Diarrhoes: Dysentery, Incipient Consumption, S. rofutous Tubere calosis. Sait Rheum, Mismenstruation, Whites, Chiorosis, Liver Companies, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face &c.

In case of General Debility, whether the result of acute disease or of the continued diminction of nervous and muscular energy from chronic con plaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emacisted victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name,

In Nervous Affections of all kinus, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating, and gently, regularly apericat, even in the most obstunate cases of costiveness, without ever being a gastic purgative, or inflicting a disagrecable sensation.

It is this latter property, among others, which makes

sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Castioeness. In unchecked Distributes, even when advanced to Dysentery, confirmed, emaciating, and apparently mailignant, the effects have been equally decisive and astronishing.

tonishing.

In the local pains, loss of fiesh and strength, debilitating cough, and remittent hectic, which generally indicate incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Serofulous Tuberculosis, this medicated from health of the most endicated from

has had far more than Lae good of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently in-

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—
in the latter, however, more decidedly—it has been invariably well reported, both as allevisting pain and reducing the swellings and stiffices of the joined muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlement of the west, will probably be one of high renown and usofulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion for active and cheerful exercise, immediately follow its use.

tollow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of the price.—All letters, orders, etc., should be addressed to R. B. LOCKE & CO., General Agents, 839 Broadway, New York.

I' must be obvious not only to you, but to every atten ive and intelligent purson, that the first diseases of in ants arise chiefly from a disordered condition of their lowels, and in this connection, we present to your notice or the alleviation and cure of these diseases, a remedy

DR. EATON'S INFANTILE CORDIAL,

For Children Teething. And at this period of infantile life, when your anxious hearts are paiced by witnessing the sufferings of your little ones, it w.ll be found invaluable in Softening the Guns, Reducing Inflammation, and Retieving all Pain. For Diseases attending Teething, such as Diarrhoza, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic, and Cod in the Head, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

can hardly be estimated.

In Convulsions. from which more infants are said to die than from any other disease, the little sufferer is relieved as intentaneously, as if by magic; and in this dread complaint alone, its intrinsic value is such that it has been recommended from one family to another; until the name of Dr. Easton's Infantile Cordia hims become "lamiliar as a household word." We now sak your attention to a subject of vital interest to yourself, as well as to your suffering child. Dr. Raton's Infantile Cordial contains

No Morphine or Opiate, of any kind, or of whatever nature, AT a fact which we are fully warranted in stating cannot be said of any other preparation for infantile diseases, at this time before the public. AN we find that throughout the country, Mothers are becoming convinced of this truth, and of the said and blighting consequences which are certain to result from the use of narcotice disguised in the form of quieting remedies; their continued administration being invariably followed by stupefaction, and constipation of the bowels, ending oftendines in convulsions. Herein Dr. RATON'S INFANTIE CORDIAL differs from every other remedy. It

Does Not Constipate

the bowels, neither does it act by deadening the sensi-bilities of your children, but naturally, through its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fall to relieve your child in time of need. It is perfectly harmless, a nd cannot styure the most delicate infant.

Take none but DR, EATON'S INFANTILE CORDIAL.

This you can rely upon. Price 25 cents per bottle.

Prepared only by CHURCH & DUPONT, No. 409 Broadway, New York. And sold by them, and by all respectable Druggists.
