VITRIFILD CHIMNEY TOPS.

This is an article to which every Baildor's attention ahould be particularly directed. At this moment from any roof in our large citic you can count thewards of brick chimbers so completely EATEN BY THE COAL GAS AND WEATHER as to demand immediate removal

brick chiminers so compiciely EATEN BY. THE COAL-GAS AND WEATHER as to demand immediate removal—
to do which seldom costs less than \$5, at once showing the necessity of some article that will not decay or be eaten by gas, ac. this we now offer in our ornamental and Bain Chimney Fors. They are burnt harder than stones in fact perfectly vitilided, site impersy as to the strong acid emitted by coal, (which eats up brick and morter in less than three or fur years). We are now making the like up hand, arge quantities of several officers triples; and from 2. feet to 8 ft. 9 in. high, and from 3.1. 8 to \$50 each, (less in the first place than a brick chimney.)
