STOMACH OR LIVER,

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains,
Heartburn, Loss of Appetite, Despondency, Costiveness,
Blind and Bleeding Piles. In all Nervous, Rheumatic, and
Neuralgic Affections, it has in numerous instances proved
highly benedical, and in others effected a decided cure.

This is a purely vegotable compound, prepared on strictly
scientific principles, after the manner of the celebrated
Holland Professor, Roerhave. Its reputation at home produced its introduction here, the demand commencing with
those of the Fatherland scattered over the face of this
mighty country, many of whom brought with them and
handed down the tradition of its value. It is now offered
to the American public, knowing that its truly wonderful
medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose
constitutions may have been impaired by the continuous use
of ardent spirits, or other forms of dissipation. Generally
instantaneous in effect, it finds its way directly to this seat
of life, thrilling and quickening every nerve, raising up the
drooping spirit, and, in fact, infusing now healthrand vigor
in the system.

NOTICE—Whoever expects to find this a beverage will
be disappointed; but to the sick, weak and low spirited, it
will prove a grateful aromatic cordial, possessed of singular
romedial properties.

READ CAREFULLY! The Genuine highly concentrated Boerhave's Holland Ritters is put up in half-pint bottles only, and retailed at ONE DOLLAR per bottle, or six bottles for FYVE DOLLARS. The great demand for this truly celebrated Medicine has induced many imitations, which the public should guard against proceedings. purchasing.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

PILLS OF IRON.

An aperical and Son ache preparation of IRON purified of Oxyren and Carbon by combostion in 19 deogen. Sanctioned by the highest Medical Authorities, both in Europo and it e United rates, a depresented in their practice.

The experience of thousands daily proves that no preparation of from can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable care. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affection. Emancipation in each of the following complaints, viz:

Debility, Nervous Affection. Sentious Tuberations and succession of the continued diministion of nervous and muscular corry from chronic conplaints, chronic Headaches, Ithermatism, Intermittent Fevers, Pimples on the Face &c. In case of General Debility, whether the result of acute disease or of the continued diministion of nervous and muscular energy from chronic con plaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become for gotteen in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emacinted victuus of apparent marks, sanguincous exhaustion, critical changes, and that complication of nervous affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, milke the old oxides, it is vi

sensation.
It is this latter property, among others, which makes it o remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.
In Dyspensia, innumerable as are its causes, a single box of these Chulybeate Pills has often sufficed for the most habitual cases, including the attendant Councerts. In unchecked Diarrhoen, even whom advanced to hysentary, confirmed, emaciating, and apparently matignant, the effects have been equally decisive and associationshing.

tonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent heetle, which generally indicate Inclipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrotulous Tuberculosis, this medicated from has lad far more than the good of the most cautiously balanced preparations of lodine, without any of their well known liabilities.

balanced preparations of forme, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remail and restorative, in the cases posulfarily affecting them.

In filtenmatism, both chronic and infiammatory—in the latter, however, more decidedly—it has been inviriably well reported, both as alleviating pain and reducing the swellings and stiffness of the joined muscles. In intermattent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlement of the west, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

SURE TO REGULATE THE BOWELS.
Depend opon it, mothers, it will give rest to yourselves
AND, RELIEF AND HEALTH TO YOUR INFANTS.
We have put up and sold this article for over ten
years, and can say, in confidence and notified the have nover been able to say of any other modicine—
NEVER HAS IT FAILED, IN A SINGLE INSTANCE TO
REFFECT A CURE, when timely used. Never did we
know an instance of dissatisfaction by any one who used
it. On the contrary, all are do ghted with its operations, and speak in terms of highest commendation of
its magical effects and modical virtues. We speak in
this matter "what we do know, after ten years' experience, and plands our reportation for the substance
where the infant is suffering from pain and exhaustion, relief will be found in diffect or tweaty minutes after the
syrup is administered.
