## DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

AN aperient and Stomeohic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, noth in Europe and the United states, and prescribed in their practice.

Europe and the United states, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complextons indicate its necessity in almost every conceivable case. Innovious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debtlity, Nervous Affections, Emancipa tion, Constipation, Diarrhoes, Dysentery, Incipient Consumption, Scrofulous Tuberculosts, Salt Rheum, Mismenstruction, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermattent Fevers, Pimples on the Face. &c.

In case of General Debility, whether the result of acute disease or of the continued diminition of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extraction of the continued successful to an

trial of this restorative has proved successful to an extent which no description nor written attestation would render ordeilie. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marsamus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name,

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for unlike the old oxides, it is vigorously tonic, without being existing and overheating, and gently, regularly aperion, trial of this restorative has proved successful to an ex-

citing and overheating; and gently, regularly aperion, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for

Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which

orms them.

In Dyspepsia, innumerable as are its causes, a single nox of these Chalybeate Pills has often sufficed for the nost habitual cases, including the attendant Casticiaes. In unchecked Ditarrhoea, even when advanced to

great remedy and energetic restorative, and its progress in the new settlement of the west, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately tollow its use.

normal standard. This point, never before attained, has
been reached in the Blood Food, and its discovery
