## HARRISBURG Tuesday Afternoon, October 16, 1860.

THE best assortment of oval and square gilt frames to be found at W. KNOCHE's, 92 Market street.

ATTENTION, WIDE-AWAKES !-- A special meeting of the club will be held at Exchange Hall to-morrow evening. A full attendance is earnestly desired. Turn out, one and all.

TEN LOCK-UP .- There was the usual number of lodgers in this institution last night-all "voluntaries"-who, upon a hearing before the Mayor this morning, were discharged.

THE GRADING OF RIDGE ROAD. -The street committees of the fifth and sixth wards solicit proposals for the grading of Ridge Road, as will be seen by reference to an advertisement in our columns.

APPLIES A LUXURY .--- The fruit dealers in our city ask two and three cents each for the best quality of eating apples. In the northern counties this fruit is a drug in the market at three shillings per bushel. Heretofore apples. have been styled the "poor man's fruit," owing to their profusion and cheapness; but this season they are a luxury beyond the indulgence of persons of limited means

BENEFIT SUPPER.-A supper will be served up at the " Dauphin County House" on the evening of the first of November, the proceeds to be applied to the purchase of furniture for the new and handsome parsonage recently erected by the congregation of St. Patrick's Catholic church. No doubt the ladies who have the management of this affair will meet with encouraging success in the sale of tickets.

MEETING AT COLD SPRING .- A Lincoln' and Hamlin meeting will come off at Cold Spring on Friday. This is the banner township of Lebanon county, in which Curtin and the whole county ticket received a unanimous, vote, allthe voters in the township being Republicans and equipped Wide-Awakes. We expect the gallant "twenty-six" to participate in the parade here on Saturday evening, and a heartwarm welcome awaits them.

LOCK YOUR DOORS .- Our city again swarms with foreign beggars, recently imported from the pauper houses of Europe. The insolence of these lazzaroni is intolerable, and they should be booted away from every door they approach. Yesterday one of them entered the hall of an upitown dwelling and was detected in the act of stealing a gentleman's shawl. Nine out of ten of this class are professional thieves, and will steal whenever and wherever opportunity offers. Lock your doors against them.

NEW EQUIPMENTS .--- The Wide-Awakes, at their meeting last night, determined to procure new equipments, to consist of red caps similar to those now worn by the officers of the company. and red or blue capes. Members of the club who are willing to purchase their own equipments, should at once make the fact known to some one of the following committee : Valentine Hummel, Jr., Charles Suydam, Charles Stoner, James R. Black, Wm. Parkhill. The committee will report progress at a special meeting to-morrow evening. -----

ANOTHER ELOPEMENT. --- ARREST AND ESCAPE .---Yesterday a brick-layer employed at the round house, named Louis M'Lean, said to have a living in Lancaster, eloped with a yo

A SPECIAL MEETING of the Citizen Fire Com pany will be held this (Tuesday) evening at 7 o'clock, for the transaction of important busi- gold of California. In addition to its other ness. Members are requested to be prompt in attendance. By order.

Sound TRUTHS. - That champsgne is the source of many real pains. That gin slings have "slewed" more than

the slings of old. That whisky punch is the cause of many un-

friendly punches.

THE COMING TRIUMPHAL PARADE .- At the Wide-Awake meeting last night a committee was appointed to make arrangements for the parade next Saturday evening; and a resolution was adopted requesting our Republican citizens to illuminate their private dwellings and places of business. We hope the suggestion will be generally acted upon, and that all will take an Interest in making the display as attractive as possible. Invitations have been extended to the Wide-Awake clubs of the various neighboring towns to participate in the parade, and we expect to see the Capital City thronged with gaily equipped Republican torch-bearers on Saturday evening. It is probable that the Governor elect, Hon. ANDREW G. CURTIN, will honor our city with his presence on that gala occasion and receive the congratulations of the gallant Wde-Awakes whose zealous and patri-

otic efforts contributed so largely to his success. WOMEN AS VOTERS .--- Whether women ought to vote in politics, is perhaps to be inferred from

how they vote in church matters. On this point the Boston Congregationalist recently made the following statement :

We know of only one Congregational church in New England which allows its female members to vote, which has not had trouble-resulting in a council and a division-in consequence, and we are not sure about that one.

This has a bad look for the influence of women in church matters. In every instance where their vote was allowed among the Congregationalists, confusion and division followed. How is this to be explained ? Was there too much TALK? Before the question is decided against the ladies, let us hear something on the other side. Here it is. The Presbyterian Herald copies the above paragraph and responds as Wide Awake. - Patriot and Union. follows : warman and the second states of the

Inasmuch as all the Presbyterian churches, of which we know anything, allow their female members to vote, and we have never heard of any trouble arising therefrom, to any one of them, it follows that the difficulty complained of by the *Congregationalist* lies in the Congrega-tional form of comparison and and in the congrega-

tional form of government, and not in the women. That is to say, that must be so, or the Congregational women are not as good as the resbyterian women, which we would not dare to insinuate. Her women are the strength and glory of the Presbyterian church, and not its tronblers.

This is decidedly favorable to the ladies. In the Society of Friends the women are also allowed an equal say in its affairs, and there is not a more peaceable or better conducted church in existence. The same may be said of the temperance order of Good Templars, in which the ladies not only vote but hold office.

ADJOURNED MEETING OF COUNCIL.-An adjourned meeting of the City Council was held last evening. The bids for the construction of roll it up so that the opening at one end shall the South and Nagle streets sewers were opened and read. For the Nagle street sewer Messrs. eye, and at the other end let the opening be last evening. The bids for the construction of and read. For the Nagle street sewer Messrs. Trace & Cline, and Wm. H. Bell, were the only bidders. For the South street sewer Messas. Trace & Cline, Chas, Carson and Jas. Lewis, were bidders. Mr. BROOKE moved that the opening of the proposals for the grading of Ridge Road be postponed until the next meeting of Council which was agreed to.

SwELLS .- Somebody says that "the swells of about as soon.

THE VALUE OF CORN.-It is said that a single year's crop of corn is worth more than all the uses, it is now found that it produces a clear fluid, that burns without odor, without smoke, and is inexpensive, affording a good light in an ordinary kerosene lamp for half a cent an hour.

WHAT CAUSES HAIR TO TURN GRAY .--- A medi cal writer asserts that an undue proportion of lime in the system is the cause of premature gray hair, and advises to avoid hard water, either for drinking pure or when converted into tes or coffee, or soup, because hard water is always strongly impregnated with lime. Hard water may be softened by boiling it; let it become cold, and then use it as a beverage. It is also stated that a liquid that will color the human

hair black, and not stain the skin, may be made by taking one part of bay rum, three parts of olive oil, and one part of good brandy, by measure. The hair must be washed with the

articles must be of the best quality, mixed in

CAPTURE AND RESCUE. - A fast young manone of the "bloods" of the city-last night exhibited himself on the street in a drunken condition and indulged in very disorderly and rowdy-like conduct. He was captured by officer Lewis, who undertook to convey him to prison ; but some of his "chums" went to the rescue and took him out of the officer's hands. It is but a few weeks since the individual alluded to was fined by one of our Aldermen for drunken and disorderly conduct and assaulting a police officer ; but he does not seem to have

profited by the lesson. For months past he has been permitted to play the rowdy with impunity, owing to the high social and official on the Gazelle canal boat, having on board a position held by his father. The police officers have borne with his atrogance, impudence and drunken aluse until forbearance has ceased to few barrels of cider, for sale. The boat lies at be a virtue ; and if he wakes up some morning to find himself in the lock-up and his name in our police report, he will have his own folly to blame for it. "A hint to the wise." &c.

GOV. PACKER VS. THE WIDE AWAKES .- The Telegraph of Saturday attempted to convey the mpression abroad that Gov. Packer intends to prevent" the inauguration of Mr. Curtin y the "Wide Awakes." This is simply ridicu by the "Wide Awakes. lous, and we know that no such idea ever entered into Gov. P.'s mind or any one else's,

Our peighbor is "slightually" mistaker Governor Packer, while in our sanctum a few days ago, distinctly and emphatically asserted that if the Wide-Awakes persisted in inaugura- symptoms of attack, and thus not only save time but ting Colonel Curtin, HE WOULD CALL OUT THE MILITARY OF THE STATE! "Simply ridiculous" as the "idea" is, it not only "entered the Governor's mind," but was expressed by him in unmistakable language, in presence of two gentlemen in this office. So far as the inauguration parade is concerned, Governor Packer has nothing to do with it, the movement being a voluntary one on the part of the people; and the Republican Wide-Awakes will fix up a programme to suit themselves.

PRETTY EXPERIMENT - Professor Rogers has solved the problem of diseeing through a mill stone." In a paper read before the Scientific Association, at Newport, he says :

From this and other experiments the Professor concludes that an impression made on The Suprosed Kanner Square Ecorement. The recent mysterious disappearance of a mat-

ried man from Kennett Square, Chester county, cotemporaneously with the unexplained absence of a young lady from the same neighborhood, which caused no little excitement at the time, has taken a new turn. We published in the TELEGRAPH the generally received conclusion inferred from the facts then, and in justice to the parties implicated we now give the new phase endered by the missing gentleman, who a few days ago suddenly "turned up" in Kennett Square to set matters right. A correspondent of the Lancaster, *Daily Express* furnishes C.'s ex-planation, from which it seems that "the young lady in the case is a person of more than ordinary promise-combining a highly gifted mind with a handsome person-but that her father will not allow her to fill the sphere she was evidently allotted to fill by nature-having kept her at menial drudgery and refusing her all advantages of education. C. sympathizing with her, determined, with the girl's consent, that she should be fitted for her natural sphere in life, and accordingly sent her, he says, to a good Seminary; or, in other words, furnished her the means of going herself. He will not tell any one where she has gone, because, he alleges, her father would frustrate the project The gentleman, whom we have designated by the initial C., most solemnly avows that all the connection he has had with this singular affair, has been prompted by the highest consideration for the girl's welfare, and that she is entirely innocent of all the aspersions insinuated against her by rumor." Such is the explanation, and we give it leaving the public to place their own construction on the facts.
