#### JUDSON'S Mountain Herb Pills. THE inventor and manufacturer of 'Jud-

Solve Mountain Herb Fills," has spent the greater part of his life in travelling, having visited nearly every country in the world. Ho, spent, over six, years amon, the Rocky Mountains and of, inexico, and it was thus that the "Mountain flams Prize" were discovered. A very interesting account of his adventures there, you will find in our Almanac and Pamphlet.

It is an established fact, that all diseases arise from the property of the propert

It is an established fact, that all diseases arise from INPUREE BLOOD!

The blood is the life! and when any foreign or, unhealthy matter gets mixed with it, it is once distributed to svery organ of the body. Every nerve feels the poison, and all the vital organs quickly compilain. The stomach will not digest the food perfectly. The liver coases to secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feeble. The lungs he come clogged with the poisonous matter; hence a cough—and all from a slight impurity of the fountain-head of lite—the Blood! As if you had thrown some earth, for instance, in a pure spring, from which ran a tiny rivulet-in a few minutes the whole course of the stream be, comes disturped, and discolved. As quickly does impure blood fly, to every part, and leave, its, sting behind. All the passages become obstructed, and unless the obstruction is removed, the lamp of life soon dies out.

These pills not only purity the blood, but regenerate all the secretions of the body, they are, therefore, unrivalled as a

CURE FOR BILIOUS DISEASES, Liver Complaint, Slok Headache, &c. This Anti-Billou Medicine expals from the blood the hidden seeds of disease, and renders all the fluids and secretions pure and fluent, clearing and resuccitaing the vital organs.

Pleasant indeed, is it to us, that we are able to place within your reach, a medicine like the "Mountain Head, Plus," that will passdirectly to the still total parts, uroughthe blood and fluids of the body, and cause the sufferer to brighten with the flush of beauty and health. Judson's Pills are the Best Remedy in exist-

ence for the following Complaints: Bowel Complaints, Debility, Inward Weakness, Coughs, Reyer and Ague, Liver Complaints, Female Complaints, Lowness of Spirits, Costiveness, Indigestion, Induspria, Induspria, Inflammation, Drossy,

#### GREAT FEMALE MEDICINE!

Females who value health, should never be without these Pills. They purify the blood, remove obstructions of all kinds, cleause the skin of all pimples and blotches, and bring the rich color of health to the pale cheek.

3. The Plants and Herbs, of which these Pills are made, were discovered in a very surprising way among the Texucans, a tribe of Aborigines in Mexico. Get the Almanac of our Agent, and you will read with delight, the very interesting account it contains of the "Great Manager," of the Agent. the very interesting account it contains of the well-of monomy of the Aziecs.

## THE KEYSTONE STATE.

AIR .-- WHO'LL BE KING BUT CHARLIE?

There's tidings from the Keystone State, Good news from Pennsylvania; The People's frien's are all clate, From Berks to Allegheny. We've fought together in stormy weather, When all was dark before us; But now the clouds are breaking way, And skies are brightening o'er us,

The Keystone State has learned of late What Democrats have cost her; But now she leaves them to their fate, And gives their cause no Foster. We've fought together, &c.

The CURTIN DOW is fairly raised, To us the scene's delightful; But Democrats are sore amazed, And think it looks most frightful. We've fought together, &c.

Then hall, all hall, the glorious news;
We've come to this conclusion—
That whosee'er our foes may fuse,
We'll beat their whole confusion. We've fought together, &c.

#### A Curious Case.

Yesterday night, says the Toronto "Leader" of the 21st inst., a man was seen in a sitting posture, in one of our streets, by a policeman. The policeman shook him; the man fell over ---The policeman raised him up; the man remained standing. The policeman again shook him; the man again fell over. He was again placed on his legs. He remained there. The policeman endeavored to find out who the individual was, where he was going to and where he came from the man remained dumb and insensible, and remained where he came from the man remained dumb and insensible, and seemingly utterly unconscious of what was go ing forward. His eyes were open and bent on the ground, his head inclined forward. After contemplating this phenomenon for some time the policeman had him removed to the station house. There was not the slightest appearance of theman being under the influence of iquer. Doctors were called in, but they could make nothing SURGEON DENTIST,

Various methods were especied to, to rouse him up, but without success. Strong smelling salts were applied to his nostrils, but not a muscle moved. A lancet was pushed under his thumb, not a nerve quivered. He could eat and drink mechanically, like; one in a clairvoyant state—but was insensible to feeling, and could not be got to take notice of anything said or done to him. In the morning he was seen to stand from ten to one of clock in the one position leaning against a post. He was accosted scores of times, but gave no more sign of intelligence than if he

## How Music is Made Up-

The following ingenious and beautifully exressed thoughts upon the sources of music are from the pen of Taylor of the *Ohicago Journal*: It is a curious thought that the great translators of the dialect of heaven—the Mozarts, the Handels, and Jubals of all time—have saught their notes from the hammers of Tubal Cain, or the murmur of running streams, or the winds The above well known and long established Hotel is ing. birds; that, should there be a bird convennow undergoing a thorough renovation, and being in a great degree newly furnished, under the proprietorship tion, upon a summer's day, by a flowing river, near a ringing forge, and some masterpiece that sighing among the reeds, or the songs of sing-ing birds; that, should there be a bird conven-Mr. George J. The soft-sighing winds would echo a tone now and then; the stream, through the reeds, murmur on with its own; the hammers beat out the battle-like strain, and the rain on the roof wash away a whole bar of "the score." So when the anthem was ended, it would all be drifted, like the down of the thistle, back to nature and labour again. The lark would go up with a carol and the little ground sparrow fly away with a note, and the music be scattered abroad.

> A FAMILY PICTURE. - Here is a family picture from Frazer, which we shrewdly suspect might be matched in many a house in Harrisburg city—"You sit down, my dear friend in your snug library, beside the evening fire. The snug library, beside the evening fire. The drawn curtins. Your wife is there, and your two grown up daughters: You feel thankful that after the bustle of the day you have this quiet retreat, where you may rest, and refit youself for another day with its bustle. But the conversation goes on. Nothing is talked of but the failings of your servants, and the idleness and impudence of your boys; unless, indeed, it be the supercilious bow with which Mrs Snooks that afternoon passed your wife, and the fact that the pleasant dinner party at which you assisted the evening before at Mrs. Smith's has been ascertained to have been one of a second chop character; his more honored guests having dined on the previous day. Every petty disagreeable in your lot, in short, is brought-out; turned ingeniously in every possible light, and aggravated to the higest degree.
>
> The natural and necessary result-tollows. An hour, or less, of this discipline, brings all parties to a sulky and snappish frame of mind. And instead of the cheerful and thankful mood in which you were disposed to be, when you sat down, you find that your whole moral of nature is jarred out of gear. And your wife, your daughters and yourself pass into moody, sullen silence over your books—books which you are not like this evening much to appreciate or edjoy. Now we put it to every sensible reader, whether there be not a great deal too made of this lind of thing?" much of this kind of thing?"

> BAYARD TAYLOR ON MILEGARA.—Bayard Taylor says "that one who looks calmly upon it, measures its features, analyses the impression, and writes with the conscientious endeavor to represent what he has seen, can give as good a description of Niagara as he could of a crab tree in blossom, and a much better one than it would be possible for him to make of the woman whom he loves.

A BELL AND EVERET parient down in Con necticut introduced his son to one of the lights and leaders of the Union party, with the apology—'I am sorry to say, though, that he is a Biscir Republican.' The son promptly replied,
