DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON

As aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen Sanctioned by the highest Medical Authorities, ooth in Europe and the United States, and prescribed in their

Ranctioned by the highest Medical Authorities, ooth in Europe and the United states, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every-conceivable case. Innoxions in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emancipation, Constipation, Diarrhoes, Dysentery, Incipient Consumption, Strofulous Tuberculosis, Salt Rheum, Mismenstruction, Whites, Chirocosis, Liver, Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In case of General Debility, whether the result of scute disease or of the continued diminction of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from preparated travel in a, distant land. Some very signal instances of this kind are attested of female saff ferers, emaniated victims of apparent marasmus, sanguincous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name,

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, milke the old oxides, it is vigorously tonic, without being excibity and overheating, and gently regularly aperient, even in the most obstinate cases or costiveness, without ever being a gastrio purgative, or inflicting a disagreeable sensation.

sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Peles, upon which it also appears to exert a distinct and specific action, by dispensing the local tendency which forms them.

forms thom.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costneress. In unchecked Diarrhoen, even when advanced to Dysentery, confirmed, emaciating, and apparently inalignant, the effects have been equally decisive and astonishing.

lignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Inclipient Consumption, this remedy has allayed the alarm of friends and physicians, in several
very gratifying and interesting instances.

In Serofulous Puberculous, this medicated iron
has had far more than the good of the most cutiously
balanced preparations of iodine, without any of their well
known habilities.

The attention of temales cannot be too conditently in-

The attention of females cannot be too confidently in vited to this remedy and restorative, in the cases pe affecting them.

In Rheumatism, both chronic and inflammatory-

in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of, the joined muscles.

In Intermittent Fevers it must necessarily be a In Intermittent Nevers if must necessarily be a great remedy and energetic restorative, and its progress in the new settlement of the west, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, bappy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately iollow its use.

BLOOD FOOD

The attention of invalids, Physicians, Olergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing Iron, Sulphur and Phosphorus, and which is identical infits composition with the Hematic Globule, or red blood. In all diseases accompanied with

Debility, pale countenance and nervous derangement, analysis of the blood show a deficiency of the red globules. Ruddy-complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax like skin and countenance,—which evinces a deficiency of the red globules,—accompanies a discassed organism. Preparations of Iron have been given for the purpose of supplying, the red globules, but we contend that Iron alone, Sul phur alone, or Phosphorus alone, will not meet the deficiency in every case, but that a judicious combination of ALL these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the Blood Food, and its discovery ranks as one of the most scientific and important of the age. Its effects in

Consumption are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with the life Blood Food will be found a specific in all the oute. Diseases of the Throat or Lungs, such as Ashma, Bronchitis, Coughs, &c. Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In Dyspenia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scroylal, Gravel, St. Vitus' Dance, fever and Ague, &c., its efficacy is marked and instantaneous. In no class of disease, however, are the beneficial effects of this remedy so conspicuous as in those harrassing
