ENTERED BAIL.—Mr. Alfred Packer, prosecuted for assaulting police officer Lewis, appeared before Justice Bader this afternoon, and gave bail for his appearance at the November Court to answer the charge.

A SENSIBLE DEMOCRAT.—That was a shrewd suggestion of one of the unfortified, the other day, who said: "The Democracy are a powerful nation, but I don't believe they can elect two Presidents in one year."

DEDICATION.—The Methodist church at Hummelstown, which has undergone important repairs, will be re-opened for religious services to-morrow. Rev. Dr. Bishop and Rev. Robert J. Carson, of this city, are announced to participate in the exercises.

ANTIQUATING HIS FATE.—The Reading Times says that John Warren, convicted of the murder of an unknown woman near Hamburg in that county, at the last term of Court, and now confined in the county prison, refuses to eat, being determined to die by starvation rather than on the gallows.

A GOOD RUN.—In the Northumberland Senatorial district, where Foster had nearly one thousand majority, our young friend Frank Round, the Republican candidate for Senator, was elected by fifty-six majority.

BARBECUE.—The jubilant Republicans of Chester, Delaware county, had a grand barbecue to-day, in honor of the election of Col. Curtin, and the triumph of Republican principles in Pennsylvania.

A REPUBLICAN CELEBRATION took place at Pottsville on Thursday night. Nearly three thousand Wide-Awakes participated in a torch-light parade, the buildings along the route were beautifully illuminated, and thousands of "people thronged the brilliantly lighted streets."

THE PRESBYTERIAN SYNOD OF PENNSYLVANIA.—The Synod of Pennsylvania met last evening in the First Presbyterian church of this city, and was opened with a sermon by Rev. ROBERT ADAIR, Moderator of Synod, on 2d Timothy 4: 2, "Preach the Word."

AT the close of the sermon the Synod proceeded to the election of officers, which resulted as follows: Rev. Geo. DUFFIELD, jr., of Philadelphia, Moderator for the ensuing year, and Rev. A. CULVER, of Manayunk, and Rev. E. D. NEWBERRY, of Philadelphia, as temporary clerks.

This morning the Synod met at 9 o'clock, and the first half hour was occupied with devotional exercises. The attendance we learn is not large, owing to the fact that Synod sits over Sunday; having usually met so as to adjourn before that day.

AT the close of the sermon the Synod proceeded to the election of officers, which resulted as follows: Rev. Geo. DUFFIELD, jr., of Philadelphia, Moderator for the ensuing year, and Rev. A. CULVER, of Manayunk, and Rev. E. D. NEWBERRY, of Philadelphia, as temporary clerks.

PREACHING THIS EVENING.—There will be public service this evening in the Presbyterian church, Market Square, when the Rev. Mr. Lindley, Missionary to South Africa, will address the assembly.

NEW YORK WANTED.—Whatever may be the expectations in other States, the vote of New York is wanted to defeat Lincoln. —Loco Paper.

OUR CONGRESSIONAL DISTRICT.—Yesterday we published the vote for Governor and Congressmen in this district. We now append the aggregate vote polled by the Republican party in the respective counties, by which it will be seen that Dauphin leads Lebanon one thousand seven hundred and seventy-seven votes; and polls one thousand eight hundred and ninety-six votes more than Union and Snyder counties and Mahanoy township combined.

Dauphin county..... 7,858  
Lebanon county..... 6,081  
Union county..... 2,839

MISSISSIPPI EDITORS.—It appears to me that "Vindex," in your paper of yesterday, gives a poor reason why the clergy do not visit and minister to the spiritual wants of the inmates of the almshouse—because they cannot be taken to and fro in carriages. I have known ministers in this age, when they had a mind to do their Master's work, cheerfully walk as far, to "comfort the feeble-minded," "warn the unruly," and preach the Gospel to the poor.

FALL AND WINTER FASHIONS.—In the midst of the excitement incident to a political campaign, we must not forget the numerous lady readers of the TELEGRAPH, who are especially interested in all that relates to the ever-changing "fashions." For their benefit we transfer to our columns the following lively article from the "Fashion" department of a New York paper, descriptive of the new and recherché styles of bonnets, cloaks and mantillas, shawls and skirts, and other articles of feminine apparel, recently introduced, and now all the rage in upper ten circles in that "fast" city.

BONNETS.—A happy medium has been found for bonnets. While there is less of them than ever before, the front is more projecting, and is not thrown up in the preposterous way which has outraged such just censure. One "duck" may be minutely described. Fancy a crown of black and white lace, the front trimmed with white on either side of a band of light green velvet, a white marabout feather, tipped with green, drooping deliciously, and the inside trimmed with white and green and gold! Magenta is a color very much in repute—a brilliant red—and here is a bonnet of Magenta velvet, trimmed at the front with lilac, the cape and crown of white tulle trimmed with Magenta, and the inside with white flowers and silk.

THE UNANIMOUS verdict is that the front shall be close to the face. There is a charming brida bonnet of plain white corded silk, with a double cape. Round the crown is a pointed leaf, and the trimming is white illusion and lace, and decorations on the outside are white roses, green leaves and beads, and inside orange blossoms. Of ornaments there is no end of delicate and divine ideas. Gilt figures largely in all, but Madame Demorest clearly asserts that tinsel is "in bad taste and will be too common to be elegant or distingue."

CLOAKS AND MANTILLAS.—It is generally concluded that the loose sack will be most commonly worn. There are numerous designs, adapted to all ages, and, apparently, to both sexes. A new idea is the Zouave jacket, which fits tightly to the waist, and is accompanied by the cloak, so that there is accommodation for all conditions of the atmosphere. The fringes and embroideries are very elegant, and the cost of a silk sack varies from \$50 to \$150. Velvet maintains its proud supremacy. A cloak of this rich material, lined with purple silk, and embroidered at the edges with a machine stitch in vivid colors, may, we think, be called a "stunner." For the opera, silks of the most gorgeous stripedness have been imported in bewildering profusion.

A novel and pleasing invention is a Turkish cloak, over which, from the left shoulder, depends a graceful scarf, while the right shoulder is perfectly plain. For misses there is a cunning cloak, denominated Zouave, quite Arabian in design. As many as six strings are sometimes worn, and by an ingenious contrivance, "the great annoyance of tapes slipping on the strings has been effectually remedied, by passing the fastening through the covering of the strings, making it impossible for them to slip or break away."

THE BELL shape is the most popular, but there is no political preference in this fashion, however much corrupt factions may endeavor to fasten it upon the ladies.

SUCCESS.—There are several brilliant novelties in this delightful department of the toilette. There is a shoe with lappets that may be turned down from the delicate ancle for the house, or may closely encase it for the street. There is a quilted carriage shoe of all colors, bound with velvet. Balmoral-boots, that lace, maintain their hold upon the affections, and are universally worn. Of toilette slippers there is an infinite variety. Bridal slippers of kid and satin, with rosettes that alone are worth \$125, are largely sold at \$10 the pair.

SHAWLS.—One house in New York has a stock of camel's hair shawls valued at \$150,000. Their separate values range from \$20 to \$2,500, and their patterns are sumptuous beyond description. The extreme agony is a heavy gold embroidery, and the expense of such luxury we dare not disclose.

SKIRTS.—Let no man take that name in vain. Crinolines is a myth; it doesn't wear it. The spring skirt is alone immortal. As many as six strings are sometimes worn, and by an ingenious contrivance, "the great annoyance of tapes slipping on the strings has been effectually remedied, by passing the fastening through the covering of the strings, making it impossible for them to slip or break away."

PREACHING IN BRANT'S HALL.—A sermon in memory of Elder John Winnebrenner, will be preached by Elder A. X. Shoemaker, in Brant's Hall, to-morrow morning at ten o'clock. An account of his sickness, death and future prospects, together with a number of interesting incidents, will be given. The public, and especially his friends, are invited to attend.

VIOLATING AN ORDINANCE.—Several days ago Mr. High Auld made complaint before the Mayor against the Cumberland Valley Railroad Company for violating an ordinance which requires flagman to be stationed at the Second and Third street crossings, on the approach of trains. A hearing of the case took place last evening, and several witnesses were examined, when the Mayor gave judgment against the company for the sum of eighty dollars. Unless an appeal is made to Court within twenty days, an execution will be issued against the company for the above amount.

UNHEALTHINESS OF HOT BREAD.—When will our good housewives learn the science of preparing and setting forth only healthy food? Hot bread and saleratus cakes ought to be indicted for murder in the second degree. Hot bread never digests. Bear this in mind, reader, if you are accustomed to eat the light and tempting biscuit at tea, or the warm loaf that looks so appetizing upon the breakfast table.

After a long season of tumbling and working about in the stomach it will begin to ferment, and will eventually be passed out of the stomach as an unwelcome tenant of that delicate organ, but never digests—never becomes assimilated to, or absorbed by, the organs that appropriate nutrition to the body. It is a first-rate dyspepsia producer, and should be ignored by all who are afflicted with, or wish to avoid, that terrible disease.

READING ALOUD develops the lungs just as singing does, if properly performed. The effect is to induce the drawing of a long breath every once in a while, oftener and deeper than of reading without enunciating. These deep inhalations never fail to develop the capacity of the lungs in direct proportion to their practice. Common consumption begins uniformly with imperfect, insufficient breathing; it is the characteristic of the disease that the breath becomes shorter and shorter through weary months, down to the close of life, and whatever counteracts that short breathing, whatever promotes deeper inspirations, is curative to that extent, inevitably and under all circumstances.

Let any person make the experiment by reading this article aloud, and in less than three minutes the instinct of a long breath will show itself. This reading aloud develops a weak voice, and makes it sonorous. It has great effect, also, in making the tones clear and distinct, freeing them from that annoying hoarseness which the unaccustomed reader exhibits before he has gone over half a page, when he has to stop and hem, and clear away, to the confusion of himself as much as that of the subject.

ALWAYS AHEAD.—The popular merchant tailor, Col. C. C. Mathews, has just opened an assortment of the most beautiful styles of Clothe, Cassimers and Vestings to be found in the city markets. Those who want fashionable and neat-fitting suits should give him a call. Among his stock is a new style of Neck Tie, which are all the rage in fashionable circles.

MUSICAL.—Now music from all the leading publishing houses always received immediately after publication. Violins, Guitars, Banjos, Accordions, etc.; all sorts of strings always fresh on hand, at Wm. KNOX'S Music store, 92 Market street.

NEW GOODS!—Having returned from New York, I have received now a large lot of goods, all of which I bought at auction. 100 pieces of beautiful set flowered delaine, at 20 cents; 50 pieces unbleached muslin, the best in town, at 10 cents; 150 pieces of cassinets, Sateenets and Cassimers, from 25 cents up to 125 cents; 25 pieces of white flannel cotton mixed, at 15 cents; 25 dozen of white Merino Stockings, at 15 cents; 50 dozen of gentlemen's wool Socks, at 20 cents a pair; 10 dozen gentlemen's all linen Pocket Handkerchiefs with colored borders, 81 cents; good Merino Undershirts and Drawers, at 65 and 75 cents. ALMOST EVERYBODY has heard of "Wood's Hair Restorative." That the word "Restorative" in this case, is no misnomer, we have the testimony of individuals, whose elevated position in the country, as well as their acknowledged and honorable character as gentlemen, render whatever they publicly assert in the past degrees reliable. Several of these have tested, personally, the hair preparation we are now speaking of, and certify to its amazing efficacy in the most public manner possible. Their certificates can be seen at the proprietors' depot, 312 Broadway, New York, and once seen and properly appreciated, we have no hesitation in saying they will improve conviction on the most skeptical mind.

WOOD'S HAIR RESTORATIVE is, doubtless, the best article of its kind ever yet produced. It does not dye, but gives life, health and beauty in the decaying, falling and dead, restoring, as if by magic, that which was supposed to be irrecoverably lost. Heads changed to gray, and others nearly white, are daily being brought to their pristine beauty, and faces covered with pimples are rendered as smooth as an infant's, and blushing as a rose, by the use of Wood's Hair Restorative. For sale at 114 Market Street, and by all Druggists.—Chicago Times. oct19

MOTHERS, READ THIS.—The following is an extract from a letter written by the pastor of a Baptist church to one of our readers, who writes that he is a mother, and speaks volumes in favor of that world-renowned medicine—Mrs. Winslow's Soothing Syrup for Children. "We see an advertisement in your column of Mrs. Winslow's Soothing Syrup. Now we never said a word in favor of a patent medicine before in our life, but we feel compelled to say to our readers that this 'Soothing Syrup' is not a patent medicine. It is a natural and simple preparation, and we have tried it, and know it to be all it claims. It is, probably, one of the most successful medicines of the age, and we have used it, and know that it is all it claims. It is a natural and simple preparation, and we have tried it, and know it to be all it claims." oct22

"We call the attention of our readers to an article advertised in another column, called Brood Food. It is an entirely new discovery, and must be of a most beneficial nature. It is made from the numerous patent medicines of the day, and is sold at a price which is very moderate. It is a natural and simple preparation, and we have tried it, and know it to be all it claims.
